ADAMS, CHARLES B.; GRAY, ALONZO 1833
A map of Amherst. With a view of the College and Mount Pleasant Institution. By Alonzo Gray & Charles B. Adams. Amherst College, May 1833. Pendleton's Lithography, Boston.
Boston: Pendleton's Lithography Type: ViewWall Map Size: 72x56 Scale 1:20,000 Reference: Ristow, W.W. American maps and mapmakers, p. 285-289.
Pendleton's Lithography published many Massachusetts town plans starting with Lynn and Saugus in 1829 and continuing to 1836. The plans had been drawn at the request of the State Legislature to facilitate the making of an accurate map of the state, which was eventually published by Borden in 1844. The town plans are some of the earliest published using lithography. This map of Amherst is especially attractive, with a large view of the College and Mount Pleasant Institution. Notable property owners are shown, including Prof. Hitchcock and E. Dickinson (the father of Emily Dickinson). Shows also churches, schools, houses, factories, mills, hotels, woodland, alluvial land, ponds, etc. Relief shown by

hachures. With black top and bottom rollers. Map is without color.

ALEXANDER, W. D.; BROWN, J. F.; COVINGTON, RICHARD; HAWAIIAN GOVERNMENT SURVEY; LYONS, C.J. 1881
Oahu, Hawaiian Islands. Hawaiian Government Survey. W.D. Alexander, Surveyor General. Map By C.J. Lyons. From trigonometrical surveys by W.D. Alexander, C.J. Lyons, J.F. Brown, M.D. Monsarrat and Wm. Webster. Finished map by Richd. Covington. 1881. Boston: Photo. Lith. Forbes Co.
N.P.: Hawaiian Government Survey Type: Separate Map Size: 100x133 Scale 1:60,000 Reference: See DAB listing of O'Shaughnessy; Bancroft Library (Melvyl online catalog)
Large scale map of Oahu made eighteen years prior to the U.S. annexation in 1899. Shows detailed topography, land ownership and improvements. Written on the verso is the name of M.M. O'Shaughnessy, who, according to DAB, "was actively engaged in designing and constructing the water supply of twenty sugar plantations in Hawaii, 1899-1906, and built three aqueducts, each about ten miles long." Several ms additions on the map indicate interest in the river systems of Oahu and probably pertain to these projects. This is a scarce map of early Hawaiian development. See also O'Shaughnessy's Oahu map of 1899 and his copy of the 1906 Governor's Report. Full color. Relief shown by hachures and spot heights. Printed on 4 sheets. David Rumsey Collection copy mounted as one sheet; printer name cropped off.

1st edition. Notwithstanding the title, Nicholas Biddle completed the text after Lewis's suicide. The map and the written account of the expedition changed American mapping of the northwest by giving the first accurate depiction of the relationship of the sources of the Missouri, the sources of the Columbia, and the Rocky Mountains. The map was copied by Samuel Lewis from William Clark's original drawing, and was engraved by Samuel Harrison. The title of the map is "A Map of Lewis and Clark's Track, Across the Western Portion of North America From the Mississippi to the Pacific Ocean ..." Maps are without color. In 2 volumes newly bound in full leather with the title "Lewis & Clark's Expedition ..." stamped in gilt on the spine.

Paris: Andriveau-Goujon Type: Pocket Map Size: 62x91 Scale 1:7,285,000 Reference: Phillips Maps p.910 -1862 issue.
Third edition. Shows Colona, Shoshone, Nevada. The maker of this map must have seen copies of Mitchell's 1859 New National Map - this has the same proposed territorial names that Mitchell used that year. This also has a line dividing the northern and southern states in the civil war. According to Phillips Maps, this was also No. 48 in the Atlas Universel for 1862. Map is dissected into 21 sections and mounted on tan linen with the book plate of Andriveau-Goujon. Covers are dark green cloth 23.5x14.5 with "Etats-Unis Et Mexique. Andriveau-Goujon. Rue Du Bac, 2I." stamped in gold on the front with the same embossed gold and green globe as the 1862 issue. The spine is stamped with "Etats-Unis" in gold. Map has full color by state.

Paris: J.B.B. D'Anville. Type: Covers Size: 79x46
Reference: cf P571, 572, 599; NMM 200.
Maps dated 1743-71. Most of D'Anville's atlases were made up for the individual customer, so it appears that no two are alike. Many of the maps are multisheet maps that have here been joined, so the actual map sheet count is about 45. This set is accompanied by a printed list of "Cartes Geographiques de M. D'Anville" with the maps numbered 1-38 in ms, corresponding to the maps in the atlas. This sheet also lists "Ouvrages par ecrit, et qui ont ete imprimes." One of the listed books is dated 1777. D'Anville's maps have a clarity and directness that is very "modern." He read widely, and incorporated the best available geographic knowledge into his work. The English and others copied from his maps extensively. Many of the maps were missing when we acquired this atlas, and have been added subsequently. Maps stored, some bound, in a binding with half leather and cloth ties. "Atlas" printed on the spine.

(Covers to) Atlas to the Ancient geography by M. D'Anville: containing ten maps ... New-York. Published By R. M'Dermut, No. 222 Pearl-street. (1814?)
New York: R. M'Dermut Type: Covers Subject: Classical Size: 30x20
Engraved by W. Sim , Scoles, W. Hoogland and A. Anderson. The Phillips copy is published by M'Dermut and D.D. Arden. This copy is by M'Dermut only and may be earlier than the Phillips, which is dated 1814. Also, neither Phillips or Tooley mentions Scoles and Hoogland as engravers, only Sim and Anderson. The maps are very well done, copied we presume from the English edition by Laurie (P5588). See Melish's 1815 Ancient geography for similar but reengraved maps. Bound with peach colored paper with label pasted on the front and entitled as above.

Chart Of The West Indies And Spanish Dominions In North America. By A. Arrowsmith, 1803. Jones Smith & Co. sc. Beaufort Buildgs. Strand. London Published June 1st 1803 by A. Arrowsmith No. 24 Rathbone Place. To Admiral John Willett Payne, A distinguished Native of the West Indies ... This Chart is respectfully Dedicated by his most obedient Servt. A. Arrowsmith.

Scale 1:2,700,000 Reference: Stevens & Tree 89 (a); Streeter Texas 1301; P-Maps 1061 (1811 edition); Tooley, MCC 68, #185.
The first edition, including Mexico to the Pacific, and with the dedication to Admiral John Willett Payne. In four sheets. Countries are outlined in color. The 1810 second and later editions only extend to the east coast of Mexico, presumably because Arrowsmith published his large map of Mexico in 1810. In its coverage of Mexico and Central America, this map is the largest scale and most accurate map of those areas published to date, preceding Pike's and Humboldt's maps by several years. It seems odd that Humboldt would criticize Arrowsmith for copying his map of New Spain, when Arrowsmith produced his own map (this West Indies Map) which included substantial portions of Mexico several years before Humboldt's map was issued. There are many differences between this map's rendering of Mexico and the 1810 Map of Mexico - the later map has more and better detail, but the earlier rendition is still impressive. Stevens and Tree only list two editions, 1803 and 1810, but Phillips lists an 1811 (P-Maps) and an 1816 (atlases). There probably were others.

Comparing to 79(d), 1804, I cannot find the changes indicated by Stevens, and comparing to 79(f), which only has added "-1815" in ms, I cannot find any changes either. It could be that this copy of 79(e) is later than the one Stevens saw as indicated by the 1811 watermark. There may be a 79(e) without the 1811 watermakr that is earlier.
Outline color by state. Map is in four sheets, each dissected into 18 sections. Sheets fold, each with a label pasted to the linen backing reading "Sold by W. Faden, Geographer to His Majesty and to His Royal Highness the Prince of Wales. No. 5 Charing Cross." The four map sheets lie folded between two brown card end sheets, inside their original marbled paper slip case 22x13.5 with the same paste down label.

This issue incorporates the Lewis and Clark discoveries (and other discoveries) and remaps the entire continent west of the Mississippi. The changes between this and the last edition (1811) are monumental. This copy is from the collection of Sir Charles Broke (or Brooke, subsequently Vere). Broke was in Lower Canada with his regiment, the 5th (Northumberland) Regiment of Foot, which was at the battle of Plattsburg in 1814. Later, he was with the Army of Occupation in France, receiving the Waterloo medal despite arriving from Canada too late for the battle (from Manasek). Without color. Dissected into 40 sections and mounted on linen. Folds into a new gray cloth covered box case 29x22x7 with "North America A. Arrowsmith 1814" stamped on the spine in gold.

London: A. Arrowsmith Type: Case Map Size: 26x18 Reference: Stevens 79(i).
The last edition, with the "wings" on the Mississippi and the Northwest. Adds Illinois, Indiana, Ohio, Michigan, Louisiana, Mississippi and Missouri Territory. Many changes to the topography as well. An inset of the Florida Peninsula appears. The northern wing shows the Lake of the Woods and the southern wing shows the mouths of the Mississippi in detail. The delineation of the roads indicates that Bradley's Postal Map of the U.S. may have been used as a source. Outline color by state. Map is in four sheets, each dissected into 12 sections. ARROWSMITH, AARON 1819
A Map of the United States of North America Drawn from a number of Critical Researches ... Additions to 1819 (Western two sheets only). London, Published by A. Arrowsmith, No. 10 Soho Square Jan 1st 1796.
London: A. Arrowsmith Type: Case Map Size: 140x72 Scale 1:1,550,000 Reference: Stevens 79 (h),79(i).
Lacking the two eastern sheets which include the title. This issue is earlier slightly than our complete 1819 edition (Stevens 79 (i)) with less development shown in the area around the junction of the Ohio and Wabash Rivers, which were settling up rapidly at that time (see David Thomas "Travels Through The Western Country"). However, it has the northern and (most of) the southern flaps which place it later than Stevens 79 (h). So it is probably an unrecorded state of the map. Map has light blue silk edging, is dissected into 25 sections, and folds into a new blue cloth folding case 26x17 with "United States A. Arrowsmith 1819" stamped in gilt on the spine.

5th ed."Hydrographer to His Majesty." Dated 1810. Four separate sheets dissected into 16 sheets each, with light blue silk edging and linen backing. Streeter is incorrect in calling this the first edition; it is actually the last. The Adams - Onis Treaty line of 1819 is clearly marked; Arrowsmith styled himself "Hydrographer to His Majesty" in 1820 (Tooley); this edition has a road from Queretaro to Panco Valles which does not appear in W.H.'s additions to 1815 edition, as well as other roads and new towns around Mexico City and two small groups of islands off the California Coast that do not appear on the 1810 edition; this edition appears in the Atlas to Thompson's Alcedo, c.1825 copy, in the Bancroft. The mystery is why Arrowsmith did not add "additions to 1820" on the title, and in fact erased the "additions to 1817" that must have appeared on the plate from the most recent changes made before the 1820 changes, thereby leaving only 1810 on the title. With outline color. The sheets fold with marbled end sheets into a new tan cloth folding case 26x18 with "Mexico A. Arrowsmith 1820" stamped on the spine in gold.

First edition. This atlas was the first collaboration between Aaron Arrowsmith of London and Samuel Lewis of Philadelphia, one of the first such collaborations (and one of the few -- only David Burr and John Arrowsmith, and Henry Rogers and Keith Johnston come to mind). The title page says 63 maps in large type (some issues say 65 maps, all issues show 63 maps in the index). This atlas also accompanies the text volumes of the American edition of Pinkerton's Modern Geography published in Philadelphia by Conrad in 1804 (see our #3962). Phillips shows editions of 1804, 1805, 1812, and 1819. Uncolored maps bound into marble paper-covered boards with half leather.

Arrowsmith's Map of the World On A Globular Projection, Exhibiting Particularly The Nautical Researches of Captain James Cook...
Philadelphia: T.L. Plowman Type: Wall Map Size: 94x180 Scale 1:15,000,000 Reference: Phillips Maps p1096.
Rare U.S. edition of Arrowsmith's Globular World. Says "The whole engraved under the immediate superintendence of, corrected and improved by, Samuel Lewis, Geographer...Plan work by Harrison, Hooker, Seymour & Boyd. The writing by William Harrison." The dedication to Dalrymple that appears on the English edition is not present here, and the U.S. is somewhat redrawn, with Ohio, Indiana, Michigan (with a redrawn peninsula), Illinois, and Mississippi added. Cook's portrait remains, but in a different location with the cartouche completely redrawn. The balance of the map is almost identical to the English ed., with small exceptions such as labeling Bass Strait in New Holland (not on Eng. ed.). Compare to our 1808 English edition.

Boston: Thomas & Andrews Type: Title Page Size: 27x23
There are seven new maps not in earlier editions (mostly of South America), and an equal number of the more obscure European maps have been dropped; the remaining maps have not been updated from the 1804 first edition. The oceans are not delineated with dark lines as in the 1804 and 1805 editions. Starting with the 1805 edition, Morse acquired this atlas (originally published in 1804 to accompany the Philadelphia edition of Pinkerton's Geography) for his Geography. Maps without color bound with paper-covered quarter leather boards.

ARROWSMITH, AARON; SEYMOUR, J.H. 1812
Map of America by A. Arrowsmith. Philadelphia, Published by Kimber and Conrad, and Johnson and Warner. J.H. Seymour, sculp.
Philadelphia: Kimber, Conrad, Johnson & Warner Type: Wall Map Size: 118x143 Scale 1:8,000,000 Reference: Walsh p146; S-24634.
Very rare U.S. edition of Arrowsmith's America. The map has been totally reengraved by J.H. Seymour of Philadelphia using the latest Arrowsmith edition, 1811, as the base. Changes include the delineation of Indiana, Illinois, Ohio, Michigan, Northwest Territory, Mississippi Territory and the delineation of U.S. claims for the Western and Southern Boundary of the Louisiana Territory. The upper Mississippi River has been redrawn, as has the Michigan Peninsula (fatter), and the Great Lakes. No changes found (yet) in the Western U.S. This map is extremely scarce, with no mention of it in any of the standard map references, including Stevens and Tree. It is only listed in Shaw/Shoemaker. Conrad, the publisher of this map, was related to Arrowsmith through the Arrowsmith and Lewis Atlas. With black top and bottom rollers and brown linen edging. Outline color by country.

3rd edition. 1837 (state 4 Verner) of the British North America map. Most of the maps are dated 1832 and 1834. The maps of Brit. N.A., Upper and Lower Canada, are dated 1837, America is 1835, all others are earlier. This atlas is remarkable for its understated elegance and clarity. It is one of the first truly "modern" atlases of the nineteenth century. All maps have outline color except for the full color geological map of England and Wales. Covers are dark blue half blue leather cloth covered boards with "Arrowsmith's London Atlas. Incorporated Law Society 1832" embossed on the spine in gilt.

This atlas is remarkable for its understated elegance and clarity. It is one of the first truly "modern" atlases of the nineteenth century. This is the fifty sheet 1842 edition, with fifteen maps added including the second state of the rare Map of Texas (1843) and several maps dated 1844. This edition of this atlas is unrecorded in Verner, Phillips, National Maritime Museum, and the British Museum World. The fourteen other additional maps include interesting maps of Africa, Asia, Australia, and the Caribbean. Bound with half-leather brown boards with "The London Atlas, by J. Arrowsmith." embossed on the cover.

ASHER & ADAMS 1874
(Covers to) Asher & Adams' new commercial, topographical, and statistical atlas and gazetteer of the United States: with maps showing the Dominion of Canada, Europe and the World ... Compiled, drawn, and engraved under the supervision of the publishers ... New York: Asher & Adams, 59 Beekman St. (on verso) Entered ... One Thousand Eight Hundred and Seventy-four, by Asher & Adams ... Washington. Electrotyped at the Franklin Type Foundry, Cincinnati.
New York: Asher and Adams Type: Covers Size: 46x34
This was one of the first United States atlases to exclusively feature railroad lines, showing minimal topography (in this later edition more topographical features are added, earlier editions have fewer features shown) and only showing towns on or next to the railroads lines. We find the maps most interesting and beautiful, although some might find them a bit spare. This copy was published late in 1874 and is the most complete edition. Contains maps of Washington, Wyoming, Montana, New Mexico, Arizona, Western Texas, etc. (similar to our early 1874 edition). The western United States maps are especially interesting. Full color. Bound in quarter leather dark brown and red cloth covered boards stamped with the title "Asher & Adams' new commercial and statistical alas and gazetteer of the United States." in gilt; the same title is blind stamped on the back cover. The remaining leather of the original spine reads "Asher & Adams' atlas and gazetteer of the U.S." Page numbering discontinuous.

Shows the Gold Regions in California. Atwood made important maps of the Gold Rush for Colton and Ensign & Thayer in 1849. In this map he publishes his own Gold Rush map, showing the routes to California and Oregon. This map is rare: it is not in Philips, Karrow, Wheat, Streeter, Graff, or nine years of Jolly. Wheat Gold 258 is an 1854 derivative of this map put out by Ensign, Bridgman & Fanning. This 1851 map is very well done, and possibly the only map that Atwood published under his own name. See our 2878 and 3209 for related maps. Full color. Folded into red embossed cloth covers 14.5x9.5 with title "Map Of The United-States Canada, Mexico, Central America And The West India Islands" stamped in black.

New York: Ensigns & Thayer Type: Wall Map Size: 74x102 Scale 1:6,336,000 Reference: None found.
This is earlier than our 1849 Map of the United States (see #264) which uses the same base map. Here, San Francisco is named Yerba Buena (which name appeared only briefly on maps published in 1848-1849), the Gold Region has far fewer towns (no Sacramento City, Sutters City or Fremont), and the Humboldt River is not yet drawn in the Great Basin. The copyright date is still 1847. Wall map

surrounded by drawings showing the signing of the Declaration of Independence, the landing of the pilgrims and numerous battles. A small inset map of Mexico and a chart showing the population of the United States are included. The map is in color by state or region. The gold region of California is shown in gold. Mounted on black rollers and backed with linen.

General map of Virginia, West Virginia, Maryland, Delaware, and southern Pennsylvania showing cities and towns, roads, rivers, and relief by hachures. The map is overprinted in red to indicate railroads, the state name "West Virginia," and concentric circles centered on Richmond. Circles are at intervals of ten miles. A table of "Distances by Rail Roads" appears below the map title. Printed in colors, this map is probably the first U.S. Government map to show the new State of West Virginia. It is the first issue, published in July, 1863, just after West Virginia became a State on July 1, 1863. A second issue appeared in August, 1863. It was issued in substantially the same form in 1862 (Stephenson 465.45). Two other issues appeared in 1862 taken from this map: Map of Eastern Virginia and Map of Western Virginia. These were all popular maps, and Stephenson quotes the 1862 Coast Survey Annual Report as stating that 5,500 copies of the Map of Eastern Virginia alone were printed. Map is folded into textured brown cloth covers 15.5x10 with "Map of Virginia. W.S. & A. Martien, Philadelphia" in gilt.

R.W. Virginia in maps, map IV-4. Cf Sames, J.W. Index of Kentucky & Virginia maps, p. 215 (Aug. 1863 ed.)
General map of Virginia, West Virginia, Maryland, Delaware, and southern Pennsylvania showing cities and towns, roads, rivers, and relief by hachures. The map is overprinted in red to indicate railroads, the state name "West Virginia," and concentric circles centered on Richmond. Circles are at intervals of ten miles. A table of "Distances by Rail Roads" appears below the map title. Printed in colors, this map is probably the first U.S. Government map to show the new State of West Virginia. It is the first issue, published in July, 1863, just after West Virginia became a state on July 1, 1863. A second issue appeared in August, 1863. It was issued in substantially the same form in 1862 (Stephenson 465.45). Two other issues appeared in 1862 taken from this map: Map of Eastern Virginia and Map of Western Virginia. Not an Annual Report! Unique edition-all engraved. A set of most of the Coast Survey maps published to July 1854, and all are engraved instead of lithographed as were the maps in the annual reports. Each map has the unique inscription at the top reading "Presented under authority of an act of Congress of the United States of June 3d 1844 by direction of the Treasury Department A.D. Bache Superintendent Coast Survey." U.S. Atlases lists another edition (L3666) of 1856. Bound with half leather and marble paper covered boards with title in gilt on spine. David Rumsey Collection copy: the chart "Sea Coast of Delaware, Maryland and part of Virginia" is lithographed rather than engraved. Laid in is a broadside published by the Survey "Coast Survey charts published, sketches and preliminary charts, the following sketches will be gratuitously distributed:, Agents for sale of maps:, Coast Survey Office, Washington, March 15, 1853" (our pub. list no. 5754).

New York: John Bachmann Type: View Event: U.S. Civil War Size: 55x72 Reference: Stephenson 23.5.
Stephenson dates 1862 - battle at Ft. Donaldson View shows the junction of the Ohio and Mississippi Rivers and the states to the south, primarily Kentucky and Tennessee, but also parts of Missouri and Arkansas. Bachmann did six views of the Confederate States like this one - high altitude views showing topography, cities, battle scenes, ships at sea and on rivers, and roads and railways. They are very rare. This copy and the four others in the set were backed on linen and folded into black leather covers 38x30, each with title and the initials "G.G.W."; the title on the cover of this copy reads "Kentucky & Tennessee & Parts Of Southern States." After checking all the listings in DAB, I think that G.G.W. is George Grover Wright, chief justice of the Iowa Supreme Court from 1855 to 1870, and then U.S. Senator until 1877. His brother, Joseph A. Wright, was Governor of Indiana. The views came out of a house in Northern New England, perhaps from a relative. Full color.

BAKER, P.Y. 1876
Map Of Tulare County California Compiled from actual Surveys by P.Y. Baker C.E. 1876. G.W. Terry, Map Colorer & Mounter, Rice's Building, 79 Dearborn St., Chicago, Ill. Approved and declared to be the Official Map of Tulare County by resolution of the Board of Supervisors, August, 1876. W.C. Owen, E.H. Baker, James Barton, Board of Supervisors. (with 4 inset maps).
N.P.: No Publisher Type: Wall Map Size: 118x158 Scale 1:90,500 Reference: Vogdes p. 244.
Early map of Tulare County showing a large Tulare Lake, not yet reduced in size (but about to be - many lots are indicated extending into the lake, for fill). A very attractive map with views of the County Court House at Visalia and other important buildings, inset maps of towns, and eleven advertisements for local merchants. At the far right of the map, on the county line, is "Largest Tree in the World Diam. 46 Feet" with a small drawing of the tree. Vogdes lists one earlier map of the county, the 1867 Chapman and Gordon map. With black top and bottom rollers. Full color by township.

BANCROFT & THAYER; HANCOCK, HENRY; HANSEN, GEORGE; ORD, E.O.C. 1857
Map Of The City Of Los Angeles Showing the Confirmed Limits Surveyed in August 1857 by Henry Hancock U.S. Dep. Sury. Plan de la Ciudad De Los Angeles. Surveyed by E.O.C. Ord, Lt. U.S.A. and Wm. R. Hutton, Assistant, August 29, 1849. Donation Lots Surveyed by H. Hancock in August and April 1853, Geo. Hanson, Asst. Published By Bancroft & Thayer, Real Estate Brokers 21 Spring St. And W.H.J. Brooks Searcher Of Records Los Angeles, Cal. A.L. Bancroft & Co. Lith.
Los Angeles: Bancroft & Thayer and W.H.J. Brooks. Type: Separate Map Size: 72x71 Scale 1:337,899 Reference: Robinson, Maps of Los Angeles 33 (illustrated) and P. 18; Vogdes p. 219.
This is a composite wall map incorporating the famous 1849 Ord Survey (Robinson's first Los Angeles map) and the Hancock and Hansen survey maps of 1853 and 1859. This is the first appearance of the manuscript Ord Survey as a printed map and is therefore of considerable importance. Bancroft and Thayer were real estate brokers active in the 1870's; Robinson dates the map as circa 1875 (the map is undated) based on their activities and the fact that the map "was a popular wall decoration for real estates offices in the 1870's and '80's." The Ord Survey is in the middle of the map with the Hancock and Hansen surveys surrounding it. The Ord Survey shows the original pueblo buildings, the farms around them, a small group of lots, water courses and hills. In contrast, the later Hancock and Hansen Surveys divide the lands outside the original town center into much larger rectangular lots of equal size, imposing a grid pattern on the earlier meandering lots that is both visually striking and a portent of the phenomenal growth of settlement to come. Separately, we acquired the covers for the pocket map version (without the pocket map) in which someone wrote in a contemporary hand "This cover contained the copy of the 1st map of the City of Los Angeles made in 1849 by Lt. Ord and is now framed and hanging in my office. I paid $5.00 for it." Covers are dark brown cloth 16x11 with "Published By Bancroft & Thayer, Real Estate Brokers, 21 Spring Street, And W.H.J. Brooks, Searcher of Records, Los Angeles, Cal." stamped in gilt.

San Francisco: A.L. Bancroft Type: Pocket Map Size: 43x51 Scale 1:760,320 Reference: None found.
The title of the map on the cover calls it "revised and enlarged" which means larger than the 1869 issue of the map (see our #4106) that showed the San Francisco Bay area and the country west to Sacramento, north to southern Lake County and south to Santa Cruz. This 1871 map extends west to Virginia City in Nevada, north to Fort Bragg and south to Santa Cruz, adding Yosemite Valley and the Sierra Nevada gold country, Lake Tahoe, the Central Pacific Railroad completed over Donner Pass, and a large part of the Central Valley. At a scale of 12 miles to one inch, this map is twice the scale of the Bancroft/Knight Map of the Pacific States and the various spin off maps from it, thus showing more detail. Not listed by Vogdes or Wheat or in any references. Full color by county, map is folded into tan and red card board covers 16.5x11 printed with title "Bancroft's New Map Of Central California Revised And Enlarged. San Francisco: A.L. 1st edition was 1864. From Bancroft's Map the of Pacific States which appeared in 1863. Wheat says Bancroft changed the large Pacific States map in 1870, but we believe that the smaller maps such as this continue to be from the original 1863 or 1867 plates, updated to show railroad expansion and topographical changes. San francisco: H.H. Bancroft & Company Type: Covers Size: 16x10 Reference: Wheat 1132.
This map expands the coverage of the large Pacific States Map to include New Mexico, Colorado, most of Dakota and all of Montana. However, because of its relatively small size, there is much less detail shown. This same map appears in two parts in Clarke's New School Geography (see our copy) also published by Bancroft in 1866. In fact, we believe that the map was made primarily for the school geography (hence the simplification) and secondarily as a separate map. Wheat trashes the map: "we are surprised that Knight should have a hand in so inferior a job...No getting away from it, we must point the finger of shame at Knight for this map." The simplification is understandable for a school map, but showing the Green River entering the Colorado in Arizona is inexcusable at this date (especially for a school atlas!). Curiously, the companion Outline Map of the Pacific States in four sheets which accompanied the Clarke School Geography does show the Green and Colorado correctly. Notwithstanding its faults, the map is quite attractive, and, for some reason, scarce. With an excellent catalog of Bancroft's maps on the inside cover. Full color by county, and folded into stamped light brown cloth covers 16x10 with "Bancroft's Map Of The Rocky Mountain States, And The Pacific Coast." in gold. Relief shown by hachures.

San Francisco: H.H. Bancroft & Company Type: Covers Size: 16x11 Reference: Wheat 1093.
First edition, first issue of this map. Entered in 1863 and taken from Bancroft's large Map of the Pacific States of 1864, the second edition (first issued in 1863). All of California and Nevada are shown, along with the western parts of Utah and Arizona. A companion map was issued in the same year covering the northern parts of the Pacific States map: Washington, Oregon, Idaho, and Montana. This is the scarcest of the editions of this map. A second issue was published in the same year, with a different border (interlocking leaves as opposed to interlocking Coltonesque metal strips in this copy), with a clean up of various names that were cut off in this first issue along the northern and eastern borders when the plate was extracted from the large map (for instance, "Painted De" for Painted Desert appears at the 35th parallel on the eastern border of Arizona in the first issue and is removed in the second issue) and different labeling of the railroads (see our 4820). To the right of the title the Colton Company name is embossed: G.W. & C.B. Colton & Co. Publishers Of Maps, Atlases, Etc. 172 William Street. N.Y. Map is full color by county and folded into stamped lavender cloth covers 16x10.5 with "Bancroft's Map Of California, Nevada, Utah And Arizona." in gilt. Highly detailed, important map. 1st edition 1863. This map was the "mother" map for Bancroft's several issues of the pocket map versions of the northern and southern halves of this map, as well as for many later issues of this

map. It is wonderfully detailed, full of endless information on the western states, information that is found in few other maps of the same period. It differs from the 1863 edition in not having an inset map of Hawaii and in showing Montana and Idaho. With black top and bottom rollers. Full color by county, outlined by state.

The southern mate to this map was published in many more editions: 1868, 71, 73, 76 and 78. When comparing this edition to the original 1867 "mother" map, there are many changes in the eastern half of the map, especially the area around Yellowstone Lake, western Montana and eastern Idaho. BARBER, B.B.; WILLARD, A. 1835
Map Of The United States Of America With Its Territories & Districts. Including also a part of Upper & Lower Canada And Mexico. Published By B.B. Barber & A. Willard, Hartford, 1835.
Hartford: Barber and Willard Type: Separate Map Size: 71x108 Scale 1:4,118,400 Reference: Karrow 1-1486.
1st ed. was 1833; later editions by Reed & Barber. An unusual map in two sheets, showing the continent coast to coast. Tanner's influence from his North America map is evident in the west, and Long's map has influenced the plains, but Tanner's U.S. map is the primary source, in the Oregon District, the Plains, and the area east of the Mississippi. The Great Basin is filled with a table of distances and heights of mountains (which convention appears in several maps published in Hartford about this time by Thrall, Huntington, Olney's Geography, etc.). Wheat mentions the 1849 and 1850 editions of this map published by Reed and Barber, but this much earlier and different edition was unknown to him. Not in Phillips. Views of the Capital and the White House. Phelps did a related and somewhat smaller map in 1833 - see our copy. After the 1835 edition, no editions until the 1848 by Reed and Barber (see our 1849, 1850 and 1854 editions). Map is in full color.

BARKER, LUCY M. 1821
Lucy M. Barker's Map Of Connecticut.
N.P.: Manuscript Type: Wall Map Size: 38x51 Scale 1:300,000 Reference: From Howard Welsh's collection.
Manuscript map. Dated by Bridgeport (1821 incorporation of city). Howard Welsh has two sheets of notes attempting to date this map by the appearance of the Southwick "notch" of 1805 (and noting that Thompson did not identify the appearance of the notch in 1805 as a map dating device). However, we think that Thompson's approach of the appearance of towns is best here. Who was Lucy Barker? The map is very well done. Edged in golden tan silk, with black top and bottom rollers. Outline color by county.

Of the 90 plates, 75 are maps. 1st ed 2nd state,1845/1848 on titles, 1849 on some maps in volume one. 1st edition, 1st state was 1845/1848, with no maps dated later than 1848 (rare - WH). Second edition 1852 (see our copy). This is considered the first comprehensive physical atlas of the world. Robinson: "Berghaus' Physikalischer Atlas was a monumental achievement, bringing together an enormous amount of information about the physical geography of the earth and encompassing many more subjects than had been treated in the numerous smaller atlases that had been produced since the 1820's." In two volumes, the first dated 1845, the second 1848. A.K. Johnston's Physical Atlas of 1848 was based on this work. Maps are hand painted in full and outline color. Atlas volumes are bound in green cloth covered boards stamped in gold with "Berghaus' Physik. Atlas 90 Karten. I Band." and "... II Band." for volumes I and II, respectively. The spines read "Berghaus. I." and "Berghaus. II."

Of the 90 plates, 75 are maps. 1st ed 2nd state,1845/1848 on titles, 1849 on some maps in volume one. 1st edition, 1st state was 1845/1848, with no maps dated later than 1848 (rare - WH). Second edition 1852 (see our copy). This is considered the first comprehensive physical atlas of the world. Robinson: "Berghaus' Physikalischer Atlas was

a monumental achievement, bringing together an enormous amount of information about the physical geography of the earth and encompassing many more subjects than had been treated in the numerous smaller atlases that had been produced since the 1820's." In two volumes, the first dated 1845, the second 1848. A.K. Johnston's Physical Atlas of 1848 was based on this work. Maps are hand painted in full and outline color. Atlas volumes are bound in green cloth covered boards stamped in gold with "Berghaus' Physik. Atlas 90 Karten. I Band." and "... II Band." for volumes I and II, respectively. The spines read "Berghaus. I." and "Berghaus. II."

This is the most scarce of the mid 19th century German atlases, at least in the United States collections or trade. Espenhorst devotes an entire section of his book to the "Atlasfamilie Sohr-Berghaus" but the LOC has no copies of any issues. Occasionally individual maps show up under the name of Flemming or Berghaus (as in Wheat and Day). One of the most interesting maps in the atlas, found in the 32 map supplement, is a reduced edition of Arrowsmith's Map of Texas of 1841, here probably issued in 1845 or 46, the date the supplement first appeared. Also: Californien, Oregon, Utah und Neu-Mejico; Das Oregon-Gebiet, c. 1846 and based on De Mofras, here tipped in to the atlas; Mexico, Mittel-America, Texas (Wheat 745); Vereinigte Staaten (Wheat 748); Britisches Nord-America (also from Arrowsmith); and a four sheet Vereinigte Staaten von Nordamerika by F. Handtke (not seen by Wheat). It appears that all the maps were lithographed by Flemming, which was unusual for the period -- most of the other German atlas of that date were engraved. An additional six maps follow the 32 map supplement, of the areas around European Turkey and Hungary. Maps are hand painted with outline color and bound in half leather marbled paper covered boards with an orange paper label reading "Sohr's Hand-Atlas uber alle Theile der Erde." in gold; the new leather spine has "Sohr's Atlas" stamped in gilt.

BERGHAUS, HERMANN 1882
Chart Of The World On Mercator's Projection. Constructed By Hermann Berghaus. Gotha: Justus Perthes. I. Edition 1863, X. Edition 1882. Engraved by H. Eberhardt, E. Kuhn and W. Weiler. (with 32 inset maps).

Gotha: Justus Perthes Type: Wall MapChart Map Size: 93x152 Scale 1:15,000,000 Reference: cf P-Maps 1104 . Later edition, 1st ed. was 1863 (see our copy). Changes from the 1863 edition include: North and South American are now at the center of the map as opposed to the left side, many insets of cities, straits, islands, etc. are added, many more steamship lines and routes are shown, drift ice is indicated, and topography is updated in the western U.S. A dense and complicated map, more so, if that is possible, than the first edition. Printed in full color.

BETTS, JOHN 1852
By The Queens Royal Letters Patent. Betts's New Portable Terrestrial Globe. Compiled from The Latest and Best Authorities. London, John Betts, 115 Strand.
London: John Betts Type: Globe Size: 38x38 Scale 1:33,000,000 Reference: Christie's 20 May 1992, Globes, #354; Dekker p.127.
The first edition of Betts' collapsible 15-inch "umbrella" type globe. The date is estimated from the U.S. geography. Later editions continued to the end of the century. In the original wooden box with advertisements for Betts' geographical products. It is interesting that the color is printed onto the gores - thus being a fairly early example of color lithography.

BIELAWSKI, C.; HOFFMANN, J.D.; POETT, A. 1865
Topographical And Railroad Map of the Central Part of the State of California, and Part of the State Of Nevada. 1865. Compiled from Railroad Surveys, U.S. Public Land Surveys, U.S. Coast Surveys, California State Geological Survey (Prof. J.D. Whitney), and from reliable private Surveys, and Published by C. Bielawski, J.D. Hoffmann & A. Poett, Civil Engineers & Survrs. Britton & Co. Lith: San Francisco. Entered ... 1865 by J.D. Hoffmann & A. Poett ... California.
San Francisco: Britton & Co. Lith. Type: Pocket Map Size: 73x160 Scale 1:253,440 Reference: Streeter 2891; Haiman, Polish Pioneers of California, p 57-61.
This scarce map shows a large band of central California from San Francisco Bay to Virginia City, Nevada. The showing of railroads is extensive with a separate table listing the engineers for each road. Topography is delineated in "crayon" style resulting in a very clear rendition of the Coast Range and the Sierra Nevada Mountains. The mining camps are shown in great number and the overall detail is most impressive with a 4 miles to 1 inch scale. The Whitney Survey "Map of Central California" of 1873 is the only map that we know of that is comparable, yet it is eight years later, at a scale of 6 miles to 1 inch, and runs from west to east from San Francisco Bay, thus ending at Mono Lake and missing Lake Tahoe. This 1865 map runs from southwest to northeast, covering Lake Tahoe and extending to Pyramid Lake in Nevada. We have not seen any map of central California of this period that has the clarity and detail of this map. The map was copyrighted in 1865 by Hoffmann and Poett, about whom not much is known, except that Hoffmann made a "Topographical Map of Lake Tahoe..." in 1874 with Ferdinand Von Leicht (Graff 4497); it is not clear why Bielawski was not also listed on the copyright - perhaps because he was for many years surveyor for the U.S. General Land Office in San Francisco. Haiman states that Bielawski "was considered the most important person in the Land Office, that he personally surveyed and was generally recognized as the best authority on real property titles in the state." This copy is folded into untitled brown cloth covers stamped with a decorative border.
