HOWELL, READING 1792
A Map Of The State Of Pennsylvania. By Reading Howell MDCCXCII. To Thomas Mifflin Governor, The Senate, And House Of Representatives Of The Commonwealth Of Pennsylvania, This Map is respectfully Inscribed by the Author. Published 1 August 1792 for the Author, & Sold by James Phillips, George Yard, Lombard Street, London.
London: James Phillips Type: Case Map Size: 94x162 Scale 1:310,000 Reference: Wheat & Brun 433 (State I, upper & lower right), 434 (State II, upper left), 436 (State IV, lower left); Welsh Sale 477; Streeter 980; Ristow p108-110; P-Maps 679.
Wheat & Brun: "This is the best map of Pennsylvania to appear in the 18th century, and the first detailed map of the State to show its exact boundaries." This copy is a mixed state, as is usually the case, with the title and dedication in the first state. It is fully colored by county by a contemporary hand. Wheat & Brun list the first four states as 1792, with states V and VI as 1795, state VII as 1798, and state VIII as 1806. Ristow lists later editions of 1816 and 1817 published by Emmor Kimber in Philadelphia. Howell also published a smaller Map of Pennsylvania, reduced from the large map, in 1792, with later issues in 1795 and 1796; Ristow lists editions of 1811 and 1817. Howell's maps were the first maps of the state published after the revolution, and were used until Melish published his map in 1822. Samuel Lewis used Howell's map as the source for his Pennsylvania map in Carey's American Atlas of 1795. Map is dissected into 40 sections and mounted on linen. Folds into its original brown leather slip case 24x17.5 with "Howell's Map" printed on the front in ink, and then into a new dark green cloth folding case 25x18 with -"Pennsylvania R. Howell 1792" stamped on the spine in gold.

Wheat and Brun show a 1791 map of different title and smaller size that may have been the precursor of this 1811 map - both are derived from Howell's large map of Pennsylvania, first issued in 1792. This 1811 copy is the first edition in this format, with other editions in 1816 and 1817. Decorative vignettes surround the dedication in the upper right and the title in the lower right. In the lower left corner there is a view of the "Schuylkill permanent Bridge." Colored in outline, backed on thin linen and folded into red half leather marbled covered boards 15x10.

Hartford: Huntington & Willard Type: Wall Map Size: 49x67 Scale 1:7,000,000 Reference: cf Wheat 397, 400, 407.
This is the first edition of the "Washington" map, so called because it used a large oval portrait of George Washington in the map's title cartouche. Later editions were published by Phelps (altered), and Thrall (identical). A portion of the main map was used by Huntington in Darby's Gazetteer (see our #2067). Oval portrait of Washington, inset maps of North America, Boston, Washington, New York; view of "The Capital at Washington." Table of distances occupies the Great Basin. Has the famous legend in the Missouri Territory: "Missouri Territory is a vast wilderness consisting chiefly of immense plains, almost destitute of wood, except in the neighborhood of streams. It is traversed by numerous herds of Buffalo & wild Horses, and by a few roving tribes of Indians." This map is also the precursor to the United States maps that appeared in Olney's School Geography, also published in Hartford. With black top and bottom rollers and green silk edging. Full color by state or territory.

HUTCHINS, THOMAS 1778
A New Map of the Western Parts of Virginia, Pennsylvania, Maryland and North Carolina; Comprehending the River Ohio, and all the Rivers, which fall into it; Part of the River Mississippi, the Whole of the Illinois River, Lake Erie; Part of the Lakes Huron, Michigan &c. And all the Country bordering on these Lakes and Rivers. By Thos. Hutchins, Captain in the 60 Regiment of Foot. London, Published according to Act of Parliament Novembr. ye 1st, 1778 by T. Hutchins ... Engrav'd by T. Cheevers.
London: T. Hutchins Type: Case Map Size: 91x112 Scale 1:1,140,480 Reference: Streeter 1300; P-Maps 983; Ristow p 38-39; Smith, p 20-27; Brown 51.
This map was published separately and at the same time as Hutchins' "Topographical Description..." and should accompany the book. Streeter calls it "by far the best map of the west printed to that time." It was the first large scale map of the area west of the Allegheny Mountains based on personal observations, although Hutchins gives credit to Lewis Evans' "Map of the Middle Colonies" as the best prior source of information about the area. The map contains extensive printed notes which describe important aspects of the country depicted. This map ranks with the most important American maps issued in the 18th century and is now rare. Hutchins later became the first Geographer of the United States. With outline color. Map is dissected into 32 sections and mounted on linen. Folds into new green cloth folding boards and quarter leather green cloth slip case 24x16 with "Hutchin's New Map Of Western Parts Of Virginia, Etc. 1778" on the spine in gold.

Hyde states in the preface that "The inquiry and interest taken in suburban real estate during the last few years has grown rapidly to great proportions, until, many of the most prominent real estate firms are now actively engaged in promoting and improving desirable localities at a very large expense." Hyde also mentions the new Bronx River Parkway, one of the first parkways in the country: "The proposed Bronx River Reserve and Parkway is shown in green on Pages 1, 3 and 6. This important public improvement was approved by the Bronx Parkway Commission on December 27th, 1906."

IMLAY, GILBERT 1797
(Title Page to) A Topographical Description of the Western Territory of North America ... By Gilbert Imlay ... Illustrated with correct Maps of the Western Territory of North America; of the State of Kentucky, as divided into Counties, from actual Surveys by Elihu Barker; a Map of the Tenasee Government; and a Plan of the Rapids of the Ohio. The Third Edition With Great Additions. London: Printed For J. Debrett, Opposite Burlington House, Piccadilly. 1797.
London: J. Debrett Type: Title Page Size: 21x14
Reference: Howes G12; Streeter 1525; Buck 43; Graff 2091.
Clark II-41. Third and best edition. Streeter: "The most complete version of this work, in which form it was the most informative compilation on the West at the end of the 18th century." Complete text of Filson's Kentucky, Hutchins on Florida, etc., and much else. The Map of the

State of Kentucky, by Elihu Barker is a slight reduction in size from the original by Carey, but not as great a reduction as the edition of the map that appeared in Carey's American Atlas and General Atlas in 1795 (cf Wheat & Brun 641, 642). The London version of the Barker map seems to have the same information as the Philadelphia, but they are very different in engraving style with the Philadelphia copy having an "American" look. Clark is critical of the accuracy of Imlay's letters, which were probably written in Europe after he fled Kentucky and financial problems. See DAB for another critical view of Mr. Imlay.

IVES, J.C. 1861
(Title Page to) Report Upon The Colorado River of the West, Explored in 1857 and 1858 By Lieutenant Joseph C. Ives, Corps Of Topographical Engineers, Under The Direction Of The Office Of Explorations And Surveys, A.A. Humphreys, Captain Topographical Engineers, In Charge. By Order Of The Secretary Of War. Washington: Government Printing Office. 1861. Senate. 36th Congress, 1st Session. Ex. Doc.
Washington: U.S. Type: Title Page Size: 29x43
Reference: Howes I-92; Wheat 947; WC 375.
This is the scarce Senate issue with four maps by "Baron" Egloffstein. Egloffstein used a unique engraving process to achieve a superb rendering of topographical features; he used the same technique in the map is drew for Macomb's Report (see our #2699). Of the maps in Ives's Report Wheat said "The two maps were drawn by F.W. Egloffstein...the first...is one of his best." Rare in this form with the two additional geological maps in color wash. These only appear in the Senate issue. They are the same as the two "normal" maps that appear in the House and Senate issue, but they have colors overlaid to show geological formations. Report bound with blue cloth covered boards with title on spine.

New York: Lambert & Lane Type: Pocket Map Subject: Mining Event: California Gold Rush Size: 58x48 Scale 1:595,000 Reference: Wheat Gold 196 ; Heckrotte, p16.
This is one of the most attractive of the California Gold Rush period maps. Here it is published in pocket map form, with the 16 page "Appendix to Jackson's Map..." which describes the important mining centers. More ornate and detailed than Jackson's map of 1850, this is the only map to label Santa Cruz county "Branciforte." Shows for the first time, some of the mining activity in the south, which Jackson was involved with as an engineer. Map is full color by county, folded into dark green cloth covers 15x10 with "Jackson's Map Of The Mining Districts Of California" stamped in gilt.

JEFFERYS, THOMAS 1750
Thomas Jefferys Engraver Geographer to His Royal Highness the Prince of Wales, at y Corner of St. Martins Lane near Charing Cross Sells great Variety of Prints English and Foreign by the most Celebrated Masters And all Sorts of Maps and Globes. Ant: Walker. Inv: del: et Sculpt. (trade card advertisement).
N.P.: No Publisher Type: Ephemera Subject: Advertising Size: 24x17 Reference: Imago Mundi XX, p.29 (illustrated).
A rare advertisement for Jefferys' publications and products. The date is estimated. It is interesting that this does not emphasize the maps as much as the prints, reflecting the fact that he had a large business at this time as a general engraver. Apparently, he published this trade card to "mark his arrival in the Strand" (Harley, Imago Mundi XX), and to announce the opening of his new premises there. Card uncolored.

Bennett, Map and Print Sellers, No. 53, Fleet-Street. MDCCLXXVI.
London: Sayer and Bennett Type: Title Page Size: 55x38
One of the most important atlases of the American Revolutionary War period. There are 22 maps on 29 sheets. The majority of the important large scale maps of the colonies are here, appearing together for the first time after having been issued as separates by Jefferys in the 1750's and 60's. This copy is the 1st 1776 edition, with the Quebec map, without the Lake Champlain map, as issued. This copy is the same as NMM 361, except the title page says 48 copper plates rather then the 49 on NMM 361, and on the NY/NJ map it is Major Holland rather than Capt. Holland (our NY/NJ map says Major-the 1775 says Capt-our index omits Holland-the reproduction atlas map copy says Major, and Carver is eliminated (why?); probably

indicates that this was slightly before the NMM 361, as the 1775 title page is identical to this one (although we have not seen it yet-relying on P1165), except for the date. Summary of editions: 1775 (actually issued in 1776, has Evans Middle Colonies map, P1165); 1776 1st issue (our copy with 48 on TP, Quebec replaces Evans, N.Y- & N.J. is dated 1776, rather than 1775 and adds Pownall corrections and improvements); 1776 2nd issue (NMM 361, 49 on TP); 1777 (1776 on TP, N. Amer changes from Bowen/Gibson to Pownall version with 1777 on map, adds L. Champlain, P1166 -our reproduction copy); 1778 (P3659a, NMM 362, no changes from 1777); 1782 (P1169, no changes except Phillips says this copy has 1783 ed of N. Amer., inserted-later?) Our TP is a transition from 1775 to NMM361; NMM361 anticipates the Lake Champlain map in saying 49 plates. Covers are half leather brown cloth covered boards with "Jeffery's American Atlas. London MDCCLXXVI" stamped in gilt on the spine.

(Covers to) The West-India atlas: or, a compendious description of the West-Indies: illustrated with forty one correct charts and maps, taken From actual surveys. Together with an historical account of the several countries and islands which compose that part of the world. By the late Thomas Jefferys, Geographer to the King. London: Printed for Robert Sayer and John Bennett, Map, Chart, Print-Sellers, and Globe Makers, Fleet-Street, M,DCC,LXXXIII.
London: Sayer and Bennett Type: Covers Size: 55x41 Reference: cf NMM 360 (1775 edition), 366 (1796 edition); P2701 (1787 edition)
This is a superb atlas of the West Indies and a companion atlas to Jeffery's American Atlas also first issued in 1775. The latest date on the charts in this copy is 1788 (The Cape Verd Islands). There is a beautifully illustrated title page that precedes the main title page, which reads "The West Indian Atlas..." Jefferys died in 1771; Sayer and Bennet acquired his materials in preparation for this atlas, and published the atlas posthumously under his name (as they did with the American Atlas) in 1775. The heart of this atlas and the most detailed part is the sixteen sheet large chart and index sheet of the whole of the West Indies. The rest of the atlas consists of charts of the Atlantic Islands and the British Channel, as well as individual maps and charts of seventeen islands in the West Indies. Twenty seven pages of text gives the sources for the maps and charts, and a historical account of the West Indies. Three of the large chart maps also appeared in the American Atlas. Comparing the two Florida sheets in this atlas to the same sheets in the 1775 American Atlas, numerous changes to the coast lines and other features appear. That would indicate that Sayer updated the charts as the atlas was reissued - Phillips shows issues of 1775, 1781, 1787, 1794, 1796, 1807, and 1818. With the 1794 and later editions, 20 maps are added of various additional islands. Sayer and Bennet also published in 1775 a smaller version of this atlas called "The West India Islands: From Actual Survey and Observations..." that consisted of the same text, a general chart of the Islands, and the same sixteen or seventeen (depending on the edition) charts of the islands that appear in the larger version (P3942). Finally, Jefferys himself published in 1762 "A Description of the Spanish Islands and Settlements on the Coast of the West Indies" which was issued in quarto, with a general chart and 32 maps and plans of harbors and towns (P3941).

This is a superb atlas of the West Indies and a companion atlas to Jeffery's American Atlas also first issued in 1775. The latest date on the charts in this copy is 1788 (The Cape Verd Islands). There is a beautifully illustrated title page that precedes the main title page, which reads "The West Indian Atlas..." Jefferys died in 1771; Sayer and Bennet acquired his materials in preparation for this atlas, and published the atlas posthumously under his name (as they did with the American Atlas) in 1775. The heart of this atlas and the most detailed part is the sixteen sheet large chart and index sheet of the whole of the West Indies. The rest of the atlas consists of charts of the Atlantic Islands and the British Channel, as well as individual maps and charts of seventeen islands in the West Indies. Twenty seven pages of text gives the sources for the maps and charts, and a historical account of the West Indies. Three of the large chart maps also appeared in the American Atlas. Comparing the two Florida sheets in this atlas to the same sheets in the 1775 American Atlas, numerous changes to the coast lines and other features appear. That would indicate that Sayer updated the charts as the atlas was reissued - Phillips shows issues of 1775, 1781, 1787, 1794, 1796, 1807, and 1818. With the 1794 and later editions, 20 maps are added of various additional islands. Sayer and Bennet also published in 1775 a smaller version of this atlas called "The West India Islands: From Actual Survey and Observations..." that consisted of the same text, a general chart of the Islands, and the same sixteen or seventeen (depending on the edition) charts of the islands that appear in the larger version (P3942). Finally, Jefferys himself published in 1762 "A Description of the Spanish

Islands and Settlements on the Coast of the West Indies" which was issued in quarto, with a general chart and 32 maps and plans of harbors and towns (P3941).

Twenty seven pages of text gives the sources for the maps and charts, and a historical account of the West Indies. Three of the large chart maps also appeared in the American Atlas. Comparing the two Florida sheets in this atlas to the same sheets in the 1775 American Atlas, numerous changes to the coast lines and other features appear. That would indicate that Sayer updated the charts as the atlas was reissued - Phillips shows issues of 1775, 1781, 1787, 1794, 1796, 1807, and 1818. With the 1794 and later editions, 20 maps are added of various additional islands. Sayer and Bennet also published in 1775 a smaller version of this atlas called "The West India Islands: From Actual Survey and Observations..." that consisted of the same text, a general chart of the Islands, and the same sixteen or seventeen (depending on the edition) charts of the islands that appear in the larger version (P3942). Finally, Jefferys himself published in 1762 "A Description of the Spanish Islands and Settlements on the Coast of the West Indies" which was issued in quarto, with a general chart and 32 maps and plans of harbors and towns (P3941).

JEFFERYS, THOMAS 1788
(Text page to) The West-India atlas: or, a compendious description of the West-Indies: illustrated with forty one correct charts and maps, taken From actual surveys. Together with an historical account of the several countries and islands which compose that part of the world. By the late Thomas Jefferys, Geographer to the King. London: Printed for Robert Sayer and John Bennett, Map, Chart, Print-Sellers, and Globe Makers, Fleet-Street, M,DCC,LXXXIII.
London: Sayer and Bennett Type: Text Page Size: 55x38
Reference: cf NMM 360 (1775 edition), 366 (1796 edition); P2701 (1787 edition)
This is a superb atlas of the West Indies and a companion atlas to Jeffery's American Atlas also first issued in 1775. The latest date on the charts in this copy is 1788 (The Cape Verd Islands). There is a beautifully illustrated title page that precedes the main title page, which reads "The West Indian Atlas..." Jefferys died in 1771; Sayer and Bennet acquired his materials in preparation for this atlas, and published the atlas posthumously under his name (as they did with the American Atlas) in 1775. The heart of this atlas and the most detailed part is the sixteen sheet large chart and index sheet of the whole of the West Indies. The rest of the atlas consists of charts of the Atlantic Islands and the British Channel, as well as individual maps and charts of seventeen islands in the West Indies. Twenty seven pages of text gives the sources for the maps and charts, and a historical account of the West Indies. Three of the large chart maps also appeared in the American Atlas. 1st Edition, 1st issue. Most of the maps come from Colton's 1859 edition of the General Atlas, published by Johnson and Browning, indicating the Johnson connection; some do not come from this atlas, and their sources are: the New England maps (scale 1" = 9 miles) come from Colton's map of New England and then the sub-maps of Vermont and New Hampshire, Mass/Conn/R.I.; the Ohio/Indiana is still a mystery; all the 1" = 24 miles maps (Iowa, Kentucky, etc.) come from Colton's Map of the United States and the Canadas, originally published by J. Calvin Smith in 1843 (see W. Heckrotte's copies and his list of editions); and the Colton General Atlas maps used by Johnson come from Colton's Travellers Series of maps - see our copies of Penn., Indiana. Colton mentions "The National Atlas of the United States, constructed from the Public Surveys..large Folio" as in preparation in his 1855 catalogue; this may be the embryonic Johnson Atlas. Colton used his wall maps "cut up" for pocket maps and Atlases. Johnson's maps of S. America, Europe, Africa, and (in the first edition, first issue, only) China, East Indies etc., all come from D. Griffing Johnson's Map of the World, 1847. These atlas maps are updated (esp. Africa). Colton took over the publication of the World Map in 1849, issued editions to 1868 (Ristow p318). Also, Johnson's N. America map is the inset N. America in Smith's Map of the U.S., the Canadas, etc. This first issue of Johnson's Family Atlas differs from the later 1860 edition in a small N.Y. (from the Colton U.S. map), small Texas, and many of the maps have fewer views or no views or different configurations. Clearly, this was a first attempt that was refined later in the year. Another issue of this same edition was published in Richmond, Virginia, the home town of Browning (I.L.). The California map originates with Johnson's New Illustrated and Embellished County Map of the Republics of North America, 1859 (1859 our copy, 1st ed. 1856), by D.G. and A.J. Joh

JOHNSON, A.J.; COLTON, J. H. 1860
Johnson's New Illustrated & Embellished County Map Of The Republics Of North America With The Adjacent Islands & Countries, Compiled Drawn & Engraved From U. States Land & Coast Surveys, British Admiralty & other Reliable Sources. Under the Direction of A.J. Johnson. Published by J.H. Colton, 172, William Street, New York, Edition For Johnson & Browning. Richmond VA. 1860. Entered ... 1860 by J.H. Colton ... New York. Map Designed by A.J. Johnson. Engraved by D.G. Johnson, J.H. Goldthwait, W.S. Barnard, Wm. Wright, G. Rae Smith, F.H. King, James Duthie, J.L. White. (inset) Map Of The World on Mercator's Projection ...
Richmond: Johnson & Browning Type: Wall Map Size: 179x167 Scale 1:3,041,280 Reference: cf Karrow 1-0758 (with different views).
Entered in 1856 and first issued in 1857. With an inset map of the World, and views of the U.S. Capital and state symbols around an eagle, tables of Distances and Statistics from the Census of 1850. Compared to the 1859 edition (our 4012.000) Colona, Jefferson, and Shoshone are added as proposed states in the west, one of the only maps we have seen to show all three. Also, the imprint of Johnson and Browning, Richmond Virginia is very unusual and probably one of the last north south publishing collaborations on the eve of the Civil War. There is Note and list of Authorities which reads in part "The part of this Map, between the Mississippi River and Pacific Ocean, was taken (with the consent of Capt. A.A. Humphreys) principally from a map compiled from the following authorities by Lieut. G.K. Warren, Topl Engrs...In the Office of Pacific Rail Road Surveys, War Department." The map referred to must be the 1855 edition (see our copy) of Warren's General Map for the Pacific Railroad Reports. The list of Authorities is almost identical to the list on that map. Also, the map details of the west used in Johnson's map follow the 1855 edition in scope. Karrow lists many issues of this map from 1857 to 1861, with the views varying in each issue, and with Colton taking over as publisher in 1860, as in this copy. See our late Colton edition of 1890 (our #5150). With black top and bottom roller. Full color by county or territory in the U.S. and by state in Central America. Edged in dark blue silk.

New York: J.H. Colton Type: Covers Size: 38x41 Reference: Ristow p318.
Colton took over the publishing of this map from Johnson in 1849. This is a later Colton issue. Many updates have been made in North America, the Arctic, Africa, and elsewhere. The journey of a Frenchman around the world in 1854 to 1857 is shown in manuscript with interesting notes on the travel. Two stickers on the outside of the case are French in origin, further indicating that the map was most likely purchased in Paris by the Frenchman at the end of his journey in 1857 - showing that Colton was selling his maps in Europe at that time and that his maps were competitive with European maps - at least our traveler thought so. See our 1847 first edition by Johnson. Full color map with silk edging, dissected into 20 sections. Folds into half leather brown cloth covered boards 38x41 with ties, titled "Colton's World. New-York" stamped in gilt.

(Covers) The royal atlas of modern geography, exhibiting, in a series of entirely original and authentic maps, the present condition of geographical discovery and research in the several countries, empires, and states of the world by Alexander Keith Johnston ... With a special index to each map. William Blackwood and Sons, Edinburgh and London. MDCCCLXI.
Edinburgh: William Blackwood & Sons Type: Covers Size: 51x35 Reference: Phillips, 835. National Maritime Museum. Catalogue, 507.
First edition. This atlas was one of the best world atlases published in England in the second half of the 19th century. The North America map shows Colorado as a Territory - very up to date on U.S. political changes (most U.S. atlases do not show Colorado until 1862) for an English Atlas. Also shows Nevada, and a horizontal Arizona. However, the western U.S. map shows none of this -- its layout is pre-1860. Maps have a mixture of hand colored outline and printed blue color for water. Covers are half leather brown cloth covered boards with "Keith Johnston's royal atlas of modern geography" stamped in gilt on the cover, and "The Royal Atlas. Keith Johnston. W. Blackwood & Sons" on the spine.

JOHNSTON, ALEXANDER KEITH, 1804-1871; ROGERS, HENRY DARWIN 1857
Map Of The United States, British & Central America. From State Documents and Unpublished Materials By Professor H.D. Rogers of Boston U.S. and A. Keith Johnston, F.R.S.E. Geographer To The Queen.
Edinburgh: W. & A.K. Johnston Type: Case Map Size: 143x176 Scale 1:3,540,000 Reference: cf Karrow 1-0764 (1861 edition); High Ridge 13-123 (Geological issue 1859); cf Wheat 933, 934.
First edition. Very large map of North America with nine inset maps of important cities. This map contains and is the basis of all the maps that appear in the Rogers and Johnston Atlas of the United States of North America, published in the same year. It is a stunning map, very detailed in the west; Wheat did not see this map, but did comment on two of the western maps in the Atlas - "This map is...notable for its clarity, though it is equally notable for the amount of information it contains. W and A.K. Johnston, of Edinburgh, were engravers who well understood their art, and their maps are outstanding." The Proposed Pacific Railway routes are shown. This map compares favorably to the large Colton and Mitchell U.S. maps of the same date (which are also on the same scale) and generally it is more accurate. Scarce, with only the later 1861 edition (title slightly changed - "Map of the United States and Mexico, with Canada...") in Karrow. This first edition is not in any references. A later edition, 1859, was issued with geological coloring (HR 13-123). The map case has Stanford's name at the bottom of the spine, indicating that he sold the map (and perhaps printed it as he did the Atlas). See also the 1861 U.S. only edition (#5405) and the full 1869 edition (#5402).

JOHNSTONE, E. MCD. 1885

The Unique Map Of California. Copyrighted. E. McD. Johnstone. Dickman-Jones Co. Lith. S.F. (with 3 inset maps, 1 profile).
San Francisco: Dickman Jones Co. Lith. Type: Separate Map Size: 64x49 Scale 1:1,923,000
The date is estimated from the county formation (San Benito and Del Norte). This is a remarkable map with twenty vignettes of California scenes and three inset maps showing soil, temperature, and areas. Another inset shows the heights of the Sierra Nevada mountains. All these elements combine to make a beautiful map. Little is know about the maker, Johnstone, except that he drew the Climatic Map of California as well (see our #941). Printed in full color.

1st edition. Maps by F. Shallus & W. Harrison. The second American road book, after Colles. The maps are better engraved than Colles, in a style closer to the English road books of John Cary (see our 1790 copy). Descriptive text precedes the maps, describing the routes and places of interest. Smither engraved one map, I. Draper, two. The rest by Harrison & Shallus. See "New Jersey Road Maps" by Howard Rice. A second edition appeared in 1804, same maps, text rewritten. Full leather covers with no title on cover or spine.

JOSLIN, GILMAN 1846
Joslin's Six Inch Terrestrial Globe, Containing the Latest Discoveries. Boston. Gilman Joslin. 1846. Drawn and Engraved by W.B. Annin.
Boston: Gilman Joslin Type: Globe Size: 15x15 Scale 1:85,000,000 Reference: Yonge p37-38; cf Warner 100-101.
Joslin's first globe was a six inch model issued in 1839. This 1846 issue is probably the second edition (Yonge lists only the 1839 and this 1846, none in between). In color, with a three legged stand, horizon ring and brass meridian. Globe from bottom of the base to the top of the meridian is 10 inches.

JOSLIN, GILMAN 1854
(New Solar Telluric Globe). (with) Joslin's Six Inch Terrestrial Globe, Containing the Latest Discoveries...1854. Drawn and Engraved by W.B. Annin.

Boston: Gilman Joslin Type: Globe Size: 15x15 Scale 1:82,500,000 Reference: Warner p.101; see the catalog titled "Joslin's Terrestrial and Celestial Globes."
This is Joslin's six inch globe on a special mount which demonstrates the relative motions of the earth and sun. In 1853 this device won a bronze medal at the Massachusetts Charitable Mechanic Association fair which stated that it was "very simple in construction, and highly useful for illustrating Geography and Astronomy in schools." This copy lacks the metal ring around the globe which is illustrated in Joslin's catalog - it is possible that it was issued without it in some copies. Most of the horizon ring calendar is worn off. Height from base of stand to top of globe is 9 inches.

JOSLIN, GILMAN 1860
Joslin's Six Inch Terrestrial Globe, Containing the Latest Discoveries. Boston. Gilman Joslin. 1860. Drawn and Engraved by W.B. Annin.
Boston: Gilman Joslin Type: Globe Size: 15x15 Scale 1:85,000,000 Reference: cf Yonge p37-38; cf Warner 100-101.
Drawn and engraved by W.B. Annin. Very detailed physical features. Annin's name on a globe of this late date is puzzling, since he was active in the period 1815-40, as a maker of globes and (with Smith) as engraver for Cumming's School Geography and Daniel Adam's School Geography (see Ristow p.294, Tooley Dictionary). With a lovely floral iron stand. Total height of the globe and stand is 9.5 inches.

Joslin's Six Inch Terrestrial Globe, Containing the Latest Discoveries. Boston. Gilman Joslin. Drawn and Engraved by W.B. Annin.
Boston: Gilman Joslin Type: Globe Size: 15x15 Scale 1:85,000,000 Reference: Yonge p37-38; cf Warner 100-101.
The full color 6 inch globe is undated - the date is estimated from the presence of Alaska (1867). Oregon Territory is not shown (it is shown on the 1860 issue), and New Holland is removed from Australia. On a single turned wooden base with a total height of 11 inches. Very late issue of this globe.

Iowa. A sectional Map of the Black Hawk Purchase with a part of Illinois And Wisconsin. By L. Judson. Engd. by Doolittle & Munson Cini. Entered ... 1838, by L. Judson ... Ohio.
Cincinnati: Doolittle & Munson Type: Pocket Map Size: 101x55 Scale 1:320,000 Reference: Karrow 8-0629.
The first separately published map of Iowa. Not in Phillips or any other references. Karrow locates a copy at the Iowa Historical Society and lists it as the first map of Iowa. Shows the eastern part of the territory, with the sections shown, and the early towns being settled. Judson also issued a smaller scale map of Iowa and Wisconsin in the same year (Karrow 8-0630), and several maps of parts of Wisconsin, and towns in Wisconsin and Michigan. He also issued maps of Iowa City and Bloomington in 1839. Outline color by county. Folded into red leather covers 14x9 with "Iowa." stamped in gilt. Inside front cover has an advertisement for Doolittle and Munson.

KALAMA 1837
Na Mokupuni O Hawaii Nei. Kulanui Lahainaluna Maui Maraki 9 1837. He 26 mau la ka hana ana. Na Kalama i kakau.
Lahainaluna: Mission Press Type: Separate Map Size: 33x48 Scale 1:1,250,000 Reference: Fitzpatrick, Early Mapping of Hawaii, p 107-112; McCorkle, America Emergent 72; P778, 3259, 4087.
This is the first separate map of the Hawaiian Islands published in Hawaii. It was engraved and drawn by Kalama, one of the best student engravers at the Lahainaluna Mission School on Maui, who made the larger 1838 Map of the Hawaiian Islands, of which only two copies are known. This 1837 map probably served as a prototype for the 1838 map. It was the most detailed map yet published, showing many place names on the islands unfamiliar to Cook and Vancouver and not appearing on their maps, exceeded in detail only by the enlarged 1838 edition which added more place names. The first map produced by the press at Lahainaluna, under the guidance of Missionary Lorrin Andrews, was a world map in 1834, followed by five school atlas maps in 1836. In 1840 a small school atlas was completed, followed by a larger school atlas in 1840 and again in1842, primarily copied from Olney's School Atlas (see our #2430 for the 1837 Olney and P3259 and P4087 for "He Mau Palapala Aina A Me Na Niele E Pili Ana," the Hawaiian school atlases). This 1837 map is larger than the atlas maps and was issued as a separate. It is known in only three collections (and was unknown to Fitzpatrick) and is rare. Kalama went on to become one of the best surveyors in the islands. Outline color.

KAYSER, G.; WORRET, CHARLES 1863
Military Map of a part of Eastn. Virginia Department of Maj: Genl: J.A. Dix Comdg 7th Army Corps completed from several Military Reconnaissances & Surveys under the Direction of Capt: Wm. Heine Topt. Engr. U.S. drawn & compiled by Lieut. Ch. Worret & G. Kayser Traced by Lieut. Ch. Worret.
N.P.: No Publisher Type: Case Map Subject: Military Event: U.S. Civil War Size: 206x176 Scale 1:40,000 Reference: Interestingly, Suffolk itself, although clearly drawn in, is not labeled on this map, indicating to us that this map was made for the command at Suffolk and probably hung on a wall there. The Union forces occupied Suffolk and surrounding area in 1862 and were attacked by Longstreet's forces in the Spring of 1863. This map was probably made at the Suffolk headquarters in early 1863 in anticipation of the battles that followed. Map lies in a new half leather marbled paper case 40x34 with "Military Map Of A Part Of Eastn. Virginia Department" stamped in gilt on the spine. cf Stephenson 559, 661.
This immense, large scale map at first appears to be manuscript, entirely hand drawn. Dissected into 35 sections and mounted on linen. Upon closer inspection, it proves to be a lithograph of a hand drawn field map, with several large sections filled in or corrected in manuscript and with the waterways colored blue. It is centered on the area around Suffolk, Virginia, extending north and east to Fort Monroe, Hampton Roads and Norfolk, west to Franklin, Zuni and the Blackwater River, and south to about nine miles south of the North Carolina border. It was probably hand drawn and lithographed for immediate field use (note the title says "Traced by Lieut. Ch. Worret") with a very small press run, and corrected and updated as needed. There is a great deal of local information shown: the names of all property owners and their farms and buildings, railroads, rivers and small streams, the large Dismal Swamp, fortifications, roads and paths and distances thereon, "old Rebl. camp," "Rebl camp," "Marmaduke Ellis (Deserter)," "Negroes," and more. A "Note" at the top right corner gives the sources of the map: "Coast lines by U.S. Coast Survey" and then a list of surveys by Maj Wetterall, Maj. Stratton, 1st Lieut. James, 1st Lieut. Ch. Worrett, Lt. Soederquist, and Geo. Kayser, that were used in the construct of this map. Below the Note is the manuscript signature of "Lieut. James Ch Engr. Suffolk" and a manuscript presentation of the map "To Brig. Gen Terry with compliments of 1st Lt. C.H. James Act. Chief Engineer Maj. Gen Pecks Staff." We have dated the map (1863) based on the Soederquist Map of Suffolk & vicinity (Stephenson 661) which Stephenson dates (1863). Soederquist's map is on the same scale as this map, and is most likely a companion map to the Soederquist map of Norfolk & Vicinity that is listed in the "Note" as a source for this map. (Continued in Reference field below).

This is the reduced issue with slightly more coverage in the east and more progressed railroad development. The detail is, of course, less, due to the smaller scale, and the minerals are not colored in. Nonetheless it is still an excellent map of the west in its time, and is far more scarce than the larger issue of 1867. Full color by state, folded into brown cloth covers 18x11.5 with "Keeler's Map Of The U.S. Territories, Pacific R.R. Routes, Mineral Lands, And Indian Reservations. 1868." stamped in gilt.

This is the only War of 1812 map in the Streeter sale. It covers the area of conflict along the U.S. and Canadian border, showing forts on the U.S. side and a great deal of detail on Canadian townships with a separate listing of towns in the various districts. The Karpinski copy adds Doolittle as engraver. The following year Kensett with Shelton put out a more general map of the U.S. showing vignettes of sea battles. Outline color. Not in Phillips. Scarce.

Magnificent, huge atlas showing the area of the 40th Parallel Survey in topographical and geological maps. Wheat notes: "These are pioneer survey maps, and as such are most interesting. Mapping the West in so broad a cross-section had never before been attempted, a portent of things to come." King, at the age of 25, was made Geologist-in-charge of the Survey in 1867. He was formally ordered "to examine and describe the geological structure, geographical condition and natural resources of a belt of country extending from the 120th meridian eastward to the 105th meridian, along the 40th parallel of latitude with sufficient expansion north and south to include the lines of 'Central' and 'Union Pacific' railroads..." (Wheat). The topographical sheets depict features by brush shading rather than hachuring. In original binding -rare. Bound in green half leather with a label on the front, "Geological and Topographical Atlas Accompanying the Report of the Geological Exploration of the Fortieth Parallel. Clarence King, Geologist in Charge."

LA PEROUSE, JEAN-FRANCOIS DE GALAUP, COMTE DE, 1741-1788 1797
(Covers to) Atlas du voyage de La Perouse. (title page only) Dessine par J. M. Moreau le Jeune. Grave par Ph. Triere. L. Aubert scripsit.
Paris: L'Imprimerie de la Republique Type: Covers Size: 56x41
La Perouse set sail from France in 1785 to continue the discoveries of Captain Cook. He was shipwrecked in 1788 but his narrative, maps, and views survived and were published in 1797. This copy consists of the Atlas only to the First French edition. It is an exceptional copy, with very strong impressions. It should be compared to the smaller English Atlas of 1799. Maps are without color and bound in half leather brown marbled paper covered boards with "La Perouse's Voyages. Atlas" stamped in gilt on the spine. Issued to accompany: Voyage de la Perouse autour du monde ... an V (1797)

LAKE, D.J.; BEERS, S.N. 1860
Map Of The Vicinity Of Philadelphia, From actual Surveys by D.J. Lake And S.N. Beers. Assisted by F.W. Beers, L.B. Lake & D.G. Beers. J.E. Gillette & Co. Publishers, 517, 519 & 521 Minor Street, Philadelphia. 1869 (sic, see notes). Entered ... John E. Gillette in the year 1860 ... Pennsylvania. (with 16 inset maps).
Philadelphia: Gillette & Co. Type: Case Map Size: 172x165 Scale 1:63,360 Reference: cf Phillips Phila. Maps 429; Ristow p397.
One issue of 8 issues (Ristow). This issue has inset maps and business directories of Philadelphia, Germantown, Frankford, Bridesburg plus five small towns (all at the top), and Manayunk, Falls of Schuykill, Hestonville, Paschallville, Tacony and Holmesburg at the bottom. Other issues of the map have Philadelphia and Trenton and Philadelphia and Camden in the titles. Lake and Beers may have done eight issues to cover different parts of the local market, much in the manner of Beers' six different issues of his Atlas of New York and Vicinity of 1867-8. The date of 1860 on the map has been changed to 1869 by someone drawing the "9" in place of the "0" which probably had rubbed off - the artist thought incorrectly that the date was 1869 (unless there was an unrecorded later issue and it really was a "9"). Full color map, dissected into 36 sections, and backed and bordered in linen. Folds into blue marbled end sheets 31x28, and is laid into a new green cloth folding case with "Vicinity Of Philadelphia Lake And Beers1869" stamped in gilt on the spine.

LANCASTER, CYRUS; WILSON, JAMES 1836
Wilson's New American Thirteen Inch Terrestrial Globe, Exhibiting with the Greatest Possible Accuracy, The Positions of the Principal Known Places of the Earth; with the Tracks of Various Circumnavigators, Together with New Discoveries and Political Alterations Down to the present Period: 1836. By Cyrus Lancaster, Albany St. N.Y. S. Wood & Sons Agents N. York.
Albany: Cyrus Lancaster Type: Globe Size: 28x28 Scale 1:40,000,000 Reference: Warner p.137; Yonge p.76-77; Dekker/van der Krogt p. 131-33; Kimball p.21.
The second year of production of Wilson's Thirteen Inch Globe by Cyrus Lancaster. Compared to the last Wilson issue of 1834 (see our #4310) we cannot detect any changes in the geography. In fact, both the 1834 and the 1836 are out of date regarding the United States - Arkansas is shown in enlarged pre 1824 form and Northwestern Territory is shown where Michigan Territory should be. But then most of the early American globes did not keep current with the changes to political geography. With a four leg table stand. Total height from base to top is 18 inches.

LANCASTER, CYRUS; WILSON, JAMES 1850
Wilson's New American Thirteen Inch Terrestrial Globe, Exhibiting with the Greatest Possible Accuracy, The Positions of the Principal Known Places of the Earth; with the Tracks of Various Circumnavigators, Together with New Discoveries and Political Alterations Down to the present Period 1850. By Cyrus Lancaster, Albany, N.Y.
Albany: Cyrus Lancaster Type: Globe Size: 33x33 Scale 1:40,000,000 Reference: Warner p.137; Yonge p.79; Dekker/van der Krogt p. 131-33; Kimball p.21.
Wilson began making thirteen inch globes in 1821 (see Yonge p.69) and in 1835 Cyrus Lancaster (having assumed leadership of the firm after the death of Wilson's two sons in 1833) brought out a new edition of the thirteen inch globe with the American eagle in the cartouche (Dekker/van der Krogt p. 132). This 1850 edition of the terrestrial globe is not recorded in any of the listings - only an 1850 celestial globe is listed by Kimball. Therefore it is the latest known example of Wilson's terrestrial globe. The plates are clearly tired, the image of the cartouche is weak and some of the mountain ranges are barely visible. But there is much new engraving in North America, showing the new divisions in the west - California, Oregon, Utah, New Mexico, and the new cities - Mormon City, Sacramento, Stockton, Albuquerque, etc. It has been suggested that this is the first showing of Mormon City on a globe. With a four legged table stand and horizon ring; total height from base to top is 18 inches.

Reed, Cincinnati, O. Printed by J.H. Colton & Co. N.Y. Copy right transferred to Geo. Thompson & Co. Entered ... 1849 ... Arkansas, by C. Langtree.
Little Rock: C. Langtree Type: Covers Size: 16x10
Reference: None found.
The copyright date is 1848 and probably the first edition was issued then or in 1849. This is the largest scale pre Civil War state map of Arkansas that we have seen, and it is highly detailed in its showing of lands owned by the U.S., the state, private grants, Seminary lands, and Salt Spring lands. It is not listed in any of the standard references. Colton did not list it in his catalog, listing instead the D.F. Shall "Railroad & Township Map of Arkansas" (see our #4506). Map is full color by county, folded into light brown patterned cloth covers 16x10 with title "Langtree's New Sectional Map Of The Sate Of Arkansas Field And Dolley Little Rock" stamped in gilt. Scarce. Prime meridian is Washington D.C.

First edition. Large, four sectioned map in original case; each sheet is dissected into 16 sections). Ten inset maps. Editions to 1850. A large, impressive map, with a unique title indicating Purdy's attempt to create a new name for the region discovered by Cabot, and/or an attempt by Laurie and Whittle to sell more maps (see Fredonia map of 1833). The main organizing feature of the map is the drainage of the St. Lawrence River and the Great Lakes. The inset maps are very detailed and several notes discuss Cabot's explorations. Tanner mentions this map as a source in his preface to the American Atlas, as does Melish in his Geographical Description of the United States. Stevens and Tree list editions of 1814, 1821, and 1821/25; Winearls adds editions of 1828 (May), 1828 (June), 1838, and 1850. With outline color. Folds into original marbled cardboard slip case 21x16.5 with a label reading "Cabotia. Jo Gratz" in ms, and "Sold by Wm. Allen, 32 Dame Strt." printed in ink.

LAY, AMOS 1812
(Covers to) Map Of The Northern Part of the State Of New York. Compiled from actual Survey By Amos Lay 1812. Entered ... 16th day of July 1812 by Amos Lay ... New-York.
New York: Amos Lay Type: Covers Size: 22x14 Scale 1:443,529 Reference: Ristow p99,103;P-Maps p508.
2nd Lay map of N.Y. State; 1st was in 1801. In 1817 Lay extended the State map south to include New York City. This map extends only to the Pennsylvania border. Lay's 1801 map covers only the most northern parts of the state. For some reason, his 3 editions of the state map expand coverage from north to south ending with complete coverage in the 3rd edition. Phillips states that this map was engraved by Samuel Maverick in Newark, New Jersey, although nothing on our copy indicates this. Shows the Proposed Canal from Rome to the west, and shows Indian Reservations in yellow. Much information on land surveys and development, Military tracts, and evolving towns. Signature of Franklin Bache on inside cover. Bache was the great grandson of Benjamin Franklin, brother of A.D. Bache (head of the Coast Survey), and a noted teacher and scientist. Bache was in the War of 1812, and it is possible that this map was acquired for use therein, as it shows many of the areas of the conflict. Dissected into 40 sections and mounted on linen. Outline color by county. Map folds into original marbled card covers 22x14, and into a new tan cloth folding case 23x15 with "Northern Part Of New York Amos Lay 1812" stamped in gold on the spine.

LAY, AMOS 1832
Lay's Map of the United States. Compiled from the Latest and best Authorities and Actual Surveys By Amos Lay, Geographer and Map Publisher New York 1832. Engraved by O.H. & D.L. Throop & Wm. Chapin, New York. O.H. Throop, del. Entered ... May 8th 1827 By Amos Lay ... New York. (inset) Florida.
New York: Amos Lay Type: Wall Map Size: 130x151 Scale 1:1,900,800 Reference: Streeter Texas 1094B; Karrow 1-14678(1833 edition); Ristow p.99.
Changes from the 1828 edition include: the Michigan Peninsula has been completely redrawn (probably following Tanner's 1832 Map of the United States, our #4406), the Statistical Tables have been filled in for 1830, and Texas is extensively altered adding much of the information from the Steven Austin Map of Texas of 1830, although incorrectly placing Galveston at the mouth of the Trinity River. Lay's showing of Texas in this edition, while not correct in every respect, is the best detailed depiction of Texas on any large map of the United States until Tanner's 1836 edition of his Map of the United States. With black top and bottom rollers, and light yellow cloth edging. Map is unvarnished and has blue outline color by state.

LESTER, WILLIAM JUN. 1833
Map of New London and Windham Counties In Conn. from Actual Survey.
New Haven: Daggett & Ely Type: Wall Map Size: 89x70 Scale 1:05,000 Reference: Thompson 88.
One of the first county wall maps of a New England state. Nothing is known about William Lester and this and the Norwich map may be the only maps he made. There are eight inset maps of towns in the counties and a large inset "Geological Map of Windham & New London Counties From the surveys of Lt. W.W. Mather, U.S.M.A. 1832." A small red paste on label says "Colored And Put Up by C.S. Williams, N. Haven, Conn." One of the insets shows the projected Boston, Norwich & New London Rail Road - the earliest charting of a Connecticut railroad (Thompson). The map is exceedingly well done, with the drawing and the engraving of the highest quality for the period. It is rare - the only reference found was in Thompson's listing.

LEWIS, SAMUEL 1816
A New and correct Map of The United States Of North America; Exhibiting The Counties, Towns, Roads &c. in each State. Carefully compiled from Surveys and the most Authentic Documents, By Samuel Lewis. W. & S. Harrison sculpt. Philadelphia, Published by Emmor Kimber 1816. Copy Right secured according to Law.
Philadelphia: Emmor Kimber Type: Wall Map Size: 172x187 Scale 1:1,350,000 Reference: cf Karrow 1-1423; Ristow p266; Schwartz & Ehrenberg p235; cf Karpinski 39 (1816, 1819 editions).
This is the first complete edition of this map, the largest wall map of the United States produced by Americans at that time (although Karrow 1-1418 lists an almost complete 1815 edition). Differences from the 1818 edition include Illinois and Indiana shown as Territories, a large Mississippi with no Alabama, and no Arkansas Territory. Also, there are far fewer roads shown, and fewer settlements laid down, especially in Canada. See our #432 for a proposal for publishing this map. With black top and bottom rollers and dark green linen edging. Outline color by state or territory.

LEWIS, SAMUEL 1817
A Correct Map of the United States, With The West Indies, from the best Authorities by Samuel Lewis 1817. 2nd Edition. Containing the Seat of War &c. Published by T.L. Plowman, Philadelphia, 1813. Entered ... 22nd Mar.
Philadelphia: T.L. Plowman Type: Case Map Size: 99x95 Scale 1:4,850,000 Reference: Ristow p266 (1820 ed.); cf Karrow 1-1452 (1820 ed.); cf Amer. Phil. Soc. 563 (1811 and 1813 ed.).
The U.S. portion of the map is identical to Maclure's 1809 base map. This map seems to have a long history. It first appears as the Maclure base in 1809 (indicating that it must have been published as a Political map at that time, but we can find no record of it), then it shows up in Amer. Phil. Soc. 563 as the same map but dated 1811, then a second copy in the same holding dated 1813 and having "2nd edition, Containing the Seat of War &c." - both copies by T.L. Plowman of Philadelphia. This is a portion of the map here - it has the same notations, including the 1813 date, but three sections have been added, including Nova Scotia and Newfoundland, the West Indies, Central America and part of South America. And it has a new title (as above) and is dated 1817 - the title is a paste on slip which presumably covers the earlier title - A Map of the United States of America (as on Maclure). Ristow and Karrow then list an 1820 edition of this same map. The title mentioning the Seat of War indicates that the map had use during the War of 1812. After Plowman's name is "entered according to act of Congress 22nd Mar." With outline color by state and cloth edging. Dissected into 24 sections and folding into half leather marbled paper covered boards 27x17 with ties.

LEWIS, SAMUEL 1818
A New and Correct Map of the United States of North America; Exhibiting the Counties, Towns, Roads &c. in Each State. Carefully Compiled from Surveys and the Most Authentic Documents, by Samuel Lewis. W. & S. Harrison, sculpt. Philadelphia, Published by Kimber & Sharpless for Emmor Kimber 1818.
Philadelphia: Kimber & Sharpless for Emmor Kimber Type: Wall Map Size: 172x187 Scale 1:1,350,000 Reference: cf Karrow 1-1441 (1819 edition); Ristow p266; Schwartz & Ehrenberg p235; cf Karpinski 39 (1816, 1819 editions).
This is the second, unrecorded edition. The first complete edition was 1816, and the third edition, 1819. Ristow notes an incomplete issue (only the title sheet) of 1815. The 1818 and 1819 editions add an inset map of east Florida. This 1818 edition has a printed notation on the U.S. Mexican boundary: "Boundary between the U. States and the Spanish Provinces agreeable to the Treaty of 1819." This indicates that the map was published late in 1818 or early in 1819, either in anticipation of the February, 1819 signing of the treaty, or just after it. This is a huge map, almost six feet square, full of detail on roads, large and small towns, and areas that were "settling up." Like other large U.S. maps (other than the Melish) of the period (Shelton & Kensett, Varle, Bradley, Arrowsmith, Tardieu), this map extends west to just beyond the Mississippi River. It ranks as the largest in size and scale and is certainly the most detailed. And it is rare, with this 1818 copy being perhaps unique. It must have drawn much of its road information from the Bradley postal map of 1804/12. It is similar to the Arrowsmith 1819 in the northwestern areas, but closer to the Tardieu 1818 in the Michigan Peninsula area. It is not clear to us whether Lewis borrowed from Arrowsmith and Tardieu or vice versa, probably it worked both ways. For an enthusiastic contemporary evaluation of the first edition, see our 1815 copy of the advertisement for this map ("It is, we believe, much the largest specimen of geographical design ever produced in the United States...we do not think it equaled by any large map of European workmanship we have ever examined"). Lewis also made a smaller wall map of the U.S. titled "Traveler's Guide: A New and Correct Map of the United States..." in 1819, and another smaller still in 1817 titled "Correct Map of the United States with the West Indies..." (see our copies).

LEWIS, SAMUEL 1819
The travellers guide. A new and correct map of the United States, including great portions of Missouri Territory, Upper & Lower Canada, Nova Scotia, New Brunswick, The Floridas, Spanish Provinces &c. Collected and compiled from the most undoubted authorities by Samuel Lewis, Geographer and Draftsman, 1819. Published, printed and coloured by Henry Charles, Philada. Copy Right secured according to law.
Phila.: Henry Charles Type: Wall Map Size: 76x104 Scale 1:4,100,000 Reference: Ristow p. 266. cf Phillips Maps of America, p. 880 (Kimber ed.); Wheat, 331.
Highly detailed, goes west to 110th meridian. Streeter 3804, 3803. Probably influenced by Melish, nonetheless this is an outstanding map, with much of interest in the Missouri Territory. There is a small vignette of a "Traveler" placed over the title, indicating that this was a map to be used as a travel guide. Shows the new Alabama Territory, an interesting configuration of Illinois around Lake Michigan, and strange east west running mountain ranges leading to the Rockies. Lewis and Clark information is incorporated in the upper Missouri River area. The northern boundary with Canada is strange: it follows the 47.5 parallel and the Upper Missouri River. Outline color. Prime meridians: Greenwich and Philadelphia.

LISLE, GUILLAUME DE, 1675-1726 1731
(Covers to) (Atlas de Geographie)
Paris: Guillaume DeLisle, Quai de l'Horloge Type: Covers Size: 55x40 Reference: cf P533, 535; Tooley, Mapping of America p.1-28.; Martin & Martin, 14 & 19; Wheat 99; Cumming 170.
DeLisle is important as the first "scientific" cartographer who incorporated the most current information on exploration and topography into his maps. His maps of America contain many innovations: discarding the fallacy of California as an island, first naming of Texas, first correct delineation of the Mississippi Valley, and first correct longitudes of America. Lloyd Brown states that DeLisle "undertook a complete reform of a system of geography that had been in force since the second century, and by the time he was twenty five he had very nearly accomplished his purpose." This copy is without title page, as issued. This is a relatively early edition of DeLisle's untitled atlas, published in Paris, with most of the maps having the "Quai de l'Horloge" imprint. All of the important maps of the Americas are present: Hemisphere Occidental, 1st issue 1724; Carte d'Amerique, 1st issue, 2nd state 1722; L'Amerique Septentrionale, 2nd issue 1700-1708 ; L'Amerique Meridionale, 3rd issue 1700-1708; Carte du Canada, 2nd issue 1703-1708; Carte de la

Louisiane, 1st issue, 2nd state with New Orleans 1718; Carte du Mexique et de la Floride, 2nd issue 1703-1708; Carte de l'Isle de Saint Dominque, 1st issue 1725; Carte des Antilles, 1st issue 1717; Carte de la Terre Ferme du Peru, du Brazil, 2nd issue 1703-1708; and Carte du Paraguay du Chili, 2nd issue 1703-1708. Only two of the ninety four maps were issued after De l'Isle's death in 1826: "Carte du... Senegal... Ouvrage Posthume... Par... La Veuve Delisle 1826" and "Alexandri Magni Imperium...Opus Posthumum...1731." Early Paris editions (ie before Buache became publisher in 1732) of DeLisle's atlas with the full 94 maps are scarce - the LOC has none.

LUBRECHT, CHARLES; ROSA, R. 1864
(Covers to) The American Continent. Topographical and railroad map of the United States, British Possessions, West Indies, Mexico and Central America. Compiled from the best authorities, by R. Rosa, late Col. 46th Regt. N.Y.S. Vol. Published by Ch. Lubrecht & Co., 12 Frankfort Street, New York. 1864. Agents For Great Britain: Bacon & Co., 48 Paternoster Row, London, England. For Germany, Switzerland And Italy: Fr. Volkmar, Leipsic. Lubrecht & Co., Stuttgart. Revised Edition. Entered ... 1864, by Ch. Lubrecht & Co. ... New York. (with) Central America.
New York: Charles Lubrecht & Co. Type: Covers
Subject: Railroad Size: 25x21 Reference: Phillips Maps of America, p. 912; Karrow 1-1654; cf Modelski 53 (1872 larger Haasis & Lubrecht ed.)
1st edition. 2nd edition was1865, another edition in 1869 (Karrow 1-1683). German edition published in 1864.

(Karrow 1-1655). Inset of Central America, text on top of map describing British American Possessions, Time Tables, and U.S. Census for 1860. We can find no earlier edition of this map, so the "Revised Edition" is puzzling. Lubrecht lists three foreign publishers for this map: Bacon in London, Volkmar in Leipsic, and Lubrecht & Co. in Stuttgart. An edition in German is described in Karrow. Later, this map became the more elaborate 1871 "American Union Railroad Map of the United States..." by Hassis & Lubrecht, also published by D.L. Gurnsey (see our copy, WH's copy, and Heaston Cat. 19 for a reproduction). The Proposed transcontinental railroad is shown going south of Salt Lake City, Wyoming is still part of Dakota, and a Proposed Southern Pacific Railroad runs from Fort Smith to Sacramento. Full color by state. Map is dissected into 24 sections and mounted on linen. Folded into black paper covered boards 24.5x21 with "The American Continent" stamped in gilt. Relief shown by hachures.

(Covers to) A General Atlas, Of All The Known Countries In The World. Baltimore: Published by Fielding Lucas, Junr. No. 138, Market Street. (1822)
Baltimore: Fielding Lucas Type: Covers Size: 36x30
Reference: Foster, p. 190; Sabin sub 42611; Karpinski 94.
This is a very unusual Lucas atlas - according to Foster, only two copies are known. The engraved colored title page shows a globe and books on a table, with pages open listing Lucas' products: "Drawing Materials of every kind, Paper of all sizes, Mathematical Instruments, Globes, Maps, and Atlases of every description suitable for Colleges and Schools constantly for sale by the Publisher." It has 31 of the Tanner and Harrison engraved maps of the continents and foreign countries that appeared in the (1815) and (1816) "New And Elegant General Atlas" (only Netherlands bears Lucas' imprint, engraved by Young & Delleker, and is basically the same as the map that appears in the 1823 "General Atlas Containing Distinct Maps..."). Of the remaining 36 maps, 8 are of South America and the West Indies and are unchanged in the 1823 atlas; the other 28 maps are in many cases early states of the new U.S. maps that appear in the 1823 atlas and replace the Tanner engraved U.S. maps of 1815 and 1816 atlases. They all have Lucas' imprint and show various engravers, Welch, Young & Delker, Cone & Freeman, Kneass, and Hufty. Compared to the early 1823 atlas (our #4584), 16 of the 28 U.S. maps are earlier issues, with only one being a later issue - New Hampshire shows Merrimack County (1823) which does not appear on the early 1823 atlas map (this was probably drawn in anticipation of creation). Of particular note are: Louisiana, a double page map engraved by Harrison and "Reduced from W. Darby's Four Sheet Map" which is dated 1817 as does not show Alabama or Arkansas Territory; and a map of "North Western and Michigan Territories" which is the same base map as the 1823 "Michigan Ter." but shows a much smaller Michigan in a configuration that Paullin dates as 1819 with a large North Western Territory extending to the west. Karpinski 94 incorrectly dates this map as "certainly as late as 1824"

while mentioning that Phillips dates it 1819 (?). We cannot find the Phillips entry, bu

The first edition, first state (see our first edition, second state for comparison, #444) of Lucas' best general atlas and the finest general atlas produced in the U.S. at the time (In asserting this we omit the Tanner and Finley American Atlases of 1823 and 1826 respectively because they were not general atlases - cartographically they may have been superior to the Lucas, but not as broad in coverage). The quality of the engraving (most of the U.S. maps were engraved by B.T. Welch, others by Young & Delker, J.V.N. Throop, Cone & Freeman, and Kneass) is superb, the detail is very fine, and the coloring is delicate and elegant. While the same Lucas drawn base maps were used iin this atlas and the 1822 American Atlas by Carey and Lea (and thereby created strained relations between him and Carey and Lea), the maps in this Lucas Atlas are far superior in quality - Welch reengraved many of the maps for Lucas that Young & Delker had engraved for Carey and Lea. It is interesting to note that the Carey and Lea maps are usually earlier states of the Lucas maps. The Atlantic Islands and the West Indies Island Maps are mostly copied from Thomson's General Atlas of 1817 (see our copy, #1007) as is the Mountains and Rivers plate (reduced). Many maps are derived from the earlier Lucas Atlas of 1815-17 which copied the Oddy Atlas maps for the non U.S. state maps. Some copies have solid color. Maps of Mexico, Canada, and N. America (updated by Lucas in the Arctic), are copied from Arrowsmith's "General Atlas" of 1823 (first ed. was 1817). The classical maps derive from Melish's "Atlas of Ancient Geography" of 1815. Half leather with marbled paper covered boards, thick outline color, title on spine - "Lucas Cabinet Atlas."

We believe this is Lucas' largest separate map of Baltimore. Papenfuse illustrates editions of 1822, 1836 and 1841. This 1852 issue may be the last (Ristow). It is interesting to note that the copyright has been renewed to 1852, indicating that Lucas was still active as a map publisher. Full color. Map is dissected into 18 sections, edged in green silk, and mounted on linen. Folds with marbled end sheets into a new mint green cloth folding case 19.5x13 with "Baltimore F. Lucas 1852" stamped in gold on the spine.

MACLURE, WILLIAM 1809
(Title Page to) Observations on the Geology of the United States, explanatory of a Geological Map. By William Maclure. Read January 20th, 1809. (In) Transactions of the American Philosophical Society, Held at Philadelphia, for promoting Useful Knowledge. Volume VI. Published by C. and A. Conrad and Co. Philadelphia. ... Jane Aitken, Printer. 1809.

Philadelphia: C. & A. Conrad Type: Title Page Subject: Geology Size: 28x23 Reference: Marcou 25; Merrill p217; White-Article.
1st edition of the first geological map of U.S. A portion of a map of the U.S. by Samuel Lewis is used to make this map. The full sheet of paper was put on a larger plate and pulled, leaving the upper and right side without borders, as issued. Uncut and untrimmed, the map appears here with Maclure's original essay on the geology of the U.S. In 1817 Maclure published an expanded versus of his essay, using the small Melish Map of the U.S. as a base. Maclure was dissatisfied with the Lewis map because of its rendering of the mountains, and an errata slip is attached to the back of p 423 explaining this (and stating that originally it was intended to use a reduction of the Bradley U.S. map). See Marcou 1858 for more discussion of the Lewis map. Maclure did a Paris printing of the article and Map (using a map by Volney as a base) in 1811, in French. The Lewis map is most likely the Map of the U.S. published in the 2nd edition of Carey's American Atlas, 1809 (P-Maps p 876,Walsh). Maclure's map and essay are very rare. There is an inscription on the title page to "Mons. F.A. Michaux-Paris, from his friend..." Map bound into the back of paper covered boards with the title handwritten on the spine.
Map in full color by geologic structure.

(Title Page to) Observations on the Geology of the United States of America; With Some Remarks on the Effect Produced on the Nature and Fertility of Soils, By the Decomposition of the Different Classes of Rocks; And An Application to the Fertility of Every State in the Union, In Reference to the Accompanying Geological Map. (with) Essay On The Formation of Rocks, Or An Inquiry Into the Probable Origin of Their Present Form and Structure. By William Maclure. ... Philadelphia, Printed by John Wilbank ... 1838.
Philadelphia: A. Small Type: Title Page Subject: Geology Size: 22x13 Reference: Howes M161; White 1817B; Sabin 43552 and 43551 (Essay).
The title page is dated 1817 and the text is unchanged from the 1817 edition, but the Melish base map is changed from the 1817 edition Melish map to one that shows all of Florida and Missouri and Arkansas (with Arkansas in an 1828 formation). The map is the second state (White 1817B), although it is really an entirely different map. It is similar to the Map of The United States that appears in Melish's Traveler's Guide of 1822 and in Carey and Lea's American Atlas, but it has been reengraved, and the title is changed to United States of North America. It is colored geologically, but there is no color key. The same map appears in the Jackson Wreath of 1829, but in an earlier state. Bound in at the back is the "Essay..." mentioned above. This copy belonged to Francis P. Farquhar, noted California historian. Bound in brown cloth covers with "Geology" printed in gold on the spine.

A group of five full color maps and a view of the U.S. Capital, plus two female figures. The largest map is the Complete Map of the Rail Roads..., which shows the eastern United States with all the railroads in operations and projected. This is a Civil War map in its focus, and typically Magnus in its packing together several maps and views. Another edition, not listed, adds soldiers to the left and right of the main map, illustrating Hardee's tactics (of fighting). The large map is entered in 1859, and the whole production is entered in 1861.

MARTIN DE MOUSSY, V. (VICTOR), 1810-1869 1873
(Covers to) Description geographique et statistique de la Confederation Argentine par V. Martin de Moussy ... Deuxieme edition atlas. Paris Librairie de Firmin Didot Freres, Fils et Cie. Imprimeurs de l'Institut, Rue Jacob, 56. 1873. Imprimerie Adolphe Laine, Rue des Saints-Peres, 19.
Paris: Firmin Didot Freres. Type: Covers Size: 48x34
This was the first atlas of Argentina. Phillips notes that this atlas accompanied three volumes of text of the same title, also published in 1873. Phillips does not note this second edition of the same date as the first, adding one map. Martin de Moussy was unable to finish the atlas because of illness and it was completed by L. Bouvet. A beautifully engraved title page precedes the full title page and reads "Atlas de la Confederation Argentine. Bachelier Lith. Gve. Sanier, del. Imp. Lemercier & Cie. Paris." Most of the maps are without color; a few are hand painted in full color. Atlas is bound in quarter leather black cloth covered boards with "Atlas de la Confederation Argentine" stamped in gold on the front; spine is embossed with title "M. De Moussy. Description de la Confederation Argentine. Atlas."

This is a very attractive and scarce atlas by a cartographer from Naples. Not in Phillips or British Museum. Marzolla prints extensive notes with his maps, listing his cartographic sources and giving political and statistical information on the areas covered. No title page (probably issued that way) and with a manuscript list of contents. The map of "Nuova California" is based on the Hypolite Ferry map of 1850 and is discussed by Wheat. The maps are dated from 1840 to 1856. Outline color. The covers are brown paper covered boards with a leather spine embossed with "Marzolla. Atlante geografico. G.B." in gilt.
