With insets of the West Indies and a Statistical Table. This map has the distinction of being the first large scale detailed map made in the U.S. that showed the entire country from the Atlantic to the Pacific. This copy is an early state of the first edition -this is Martin's third state of the first edition and Ristow's fourth state (Ristow discovered a town and trail added in Ohio - Adelphi - making for a sub state of Martin's third state). The first state was an incomplete proof copy, making this the second/third state of the completed copy. The differences between this and the first complete state are small: Mansfield, Wooster, and Adelphi (and a trail from Adelphi to Athens and Chillicothe) added in Ohio, and "Vevay or" added before "Swiss Vineyards" in southeastern Indiana. Martin and Ristow identify seven states of the 1816 edition. Melish published new editions in 1818 (five states), 1819 (two states), 1820 (eight states), 1822 (two states), and 1823 (one state) for a total of twenty five different issues. Notwithstanding the many issues, the map has become extremely rare. A book accompanied the map (though issued separately) titled "A Geographical Description of the United States..." (see our #2424). Outline color by state or territory. This copy is dissected into 40 sections, backed with linen, and edged in brown cloth. It folds with marbled end sheets into new blue cloth folding boards and slip case 24.5x16.5 with leather label on spine reading "Melish. Map Of The United States. 1816" in gold.

MELISH, JOHN 1820
Map of Illinois Constructed from the Surveys in the General Land Office and other Documents By John Melish. Saml. Harrison, sct. Entered according to Act of Congress the 16th day of April 1818. Philadelphia. Published by John Melish. Improved to 1820.
Philadelphia: John Melish Type: Separate Map Size: 67x49 Scale 1:950,400 Reference: Ristow 166-168; Karrow 1409, 1411; Schwartz & Ehrenberg p239 (Plate 146).
Melish, in his first edition of "A Geographical Description of the United States," (1816) wrote of his plans to publish a series of sheet maps on a uniform scale that would form an atlas of the United States. He reiterated this plan in the 2nd and 3rd editions of the "Geographical Description" and expanded upon it in "A Geographical Description of the World" in 1818. According to Ristow, this plan to publish the maps at the same scale was "a new and revolutionary idea that facilitated size comparisons." Indiana was the first to be published in 1817. Tennessee was published in 1817. The Illinois map followed in 1818, with an "improved" edition in 1819. No mention is made in any sources of this map, "improved to 1820." Alabama was completed in 1818, Mississippi in 1819, and Louisiana in 1820. Only these six maps were completed before Melish died in 1822. A copy of the 1818 Illinois map is held at the Library of Congress. The 1819 map is held at the Newberry Library and the National Archives. No copy of the 1820 edition has been mentioned in the references. The map is in outline color by county with township and survey lines shown.

Entered ... 16th day of June 1820. Published by James Finlayson Agent Philada. Successor to John Melish, Improved to 1823. (inset) West Indies.
Philadelphia: James Finlayson Type: Case Map Size: 109x143 Scale 1:3,801,600 Reference: Martin/Ristow 24; Streeter 3812.
The last edition of Melish's map of the United States, first published in 1816, and the 25th state identified by Martin/Ristow. This edition has the three additional sheets at the bottom of the map (added in the second state of the 1822 edition) that expand the coverage of Mexico and the West Indies. Compared to the first 1816 edition, there are many changes in the Great Plains area of the U.S. (that first appeared in the 1822 edition) based on Long's Map of 1822 (although Melish does not mention Long in his preface to the Geographical Description edition of 1822). Ristow (A la Carte) says there are no changes between between the 1823 edition and the second state of the 1822 edition, other than the change in publisher and date. Outline color by state or territory. The map is dissected into 50 sections, backed with linen, and edged in white silk. It folds into a new dark blue cloth folding case 25x17 with black ties; the spine is embossed with "Map Of The United States. John Melish. 1823" in gold.

This is an unusual survivor - in about 1854 someone cut out the Northwestern one third of John Melish's large Map of the United States (1823 edition) and updated it to show the states, territories and proposed territories of that period, notably Kansas and Nebraska but no Gadsden Purchase, and Shoshone and Dakota (which are usually seen on circa 1858-59 maps). The new boundaries are hand colored with white past down labels for names of states and territories. It might have been used as a school map in the west - we found it in a small town in the California gold country. This portion is dissected into 15 sections mounted on linen with silk edging, and folds down to 23x15.

MEYER, JOSEPH, 1796-1856 1860
(Covers to) Grosser Hand-Atlas uber alle Theile der Erde in 170 Karten. Herausgegeben von J. Meyer. Hildburghausen Verlag des Bibliographischen Instituts. (1860)
Hildburghausen: Bibliographischen Instituts Type: Covers Size: 38x50 Reference: Espenhorst, J. Andree, Stieler, Meyer & Co., 3.3.1; not in Phillips.
This is Meyer's grandest production, a real tour de force that has fifty maps of the Americas including thirty three maps that are derived from the Tanner/Mitchell Universal atlas maps of the various U.S. States and Territories, Canada, and South America and are dated from 1844 to 1854 (with most dated 1844 or 1845). Many of the maps in this atlas have Philadelphia as a place of publication (along with several other cities) indicating that there may have been an arrangement with Tanner and/or Mitchell to copy the maps. The U.S. maps dated 1844-46 all appear to derive from a late 1830s edition of Tanner's Universal atlas. Those dated from 1850-54 derive from the Mitchell and Thomas Cowperthwait issues of the Universal atlas from 1850-54. Espenhorst lists a separate atlas (3.3.3) published in 1860 with these U.S. maps only, titled "Grosse und vollstandiger Auswanderungs-Atlas fur Nordamerika." The Iowa, Wisconsin, and Texas maps are not copied from the Universal atlas, but all the others are almost exact copies and it is strange that no credit is given to Tanner or Mitchell. Notwithstanding that, the copies are beautifully done and in some cases (the California map adds an inset of San Francisco Bay not on the Mitchell version) superior to the American originals. Wheat misses the Tanner/Mitchell derivation in the two maps he cites. The other maps in the atlas are all superbly engraved and the city maps have exquisite views -- all combining to make this the finest German atlas of the mid 19th century. Full and outline hand coloring. Maps are bound in half leather marbled boards with "Meyer's Grosser Hand-Atlas aller Theile der Erde." stamped on the spine in gilt. Scarce.

MITCHELL, JOHN 1756
Amerique Septentrionale avec les Routes, Distances en miles, Limites et Establissements Francois et Anglais. Par le Docteur Mitchel, Traduit de l'Anglois. A Paris, Par le Rouge Ingr. Geographe du Roy rue des Grands Augustins 1756.
Paris: Le Rouge Type: Case Map Size: 133x192 Scale 1:2,000,000 Reference: Stephenson (A la Carte) p109.
1st French edition, 8 sheets. Very interesting French reengraving of Mitchell's map, emphasizing their territorial claims at the expense of the British claims; in particular they add an area of "contestations" between French claims and the English claims.

MITCHELL, JOHN 1757
A Map of the British and French Dominions in North America with the Roads, Distances, Limits and Extent of the Settlements.
London: John Mitchell Type: Case Map Size: 135x193 Scale 1:2,000,000 Reference: Stevens 54(c), Stephenson (A la Carte) p109.
This is the second edition of this important map, dated 1755 but published in 1757, according to the British Museum. The only change from the first issue is the addition of several panels of interesting text in ocean. The original eight printed sheets of the map are here assembled in two large panels (each with four sheets) each dissected into 36 sections and mounted on linen. Uncolored, as issued. In the sixth line of the first column of the text this issue is referred to as the Second Edition One of the most important maps in American history, it went through five editions (see Stevens). We believe this second edition is scarcer than the other editions as it appears less often on the market. Compare to the first French edition of 1856 (our copy) regarding the conflicting claims of the British and French to American territory.

MITCHELL, JOHN; RAYNAL, G.T.; ZATTA, ANTONIO 1778
(Title Page to) Storia Dell' America Settentrionale Del Signor Abate Raynal Continuata fino al present, con Carte Geografiche rappresentanti il Teatro della Guerra Civile tra la Gran Bretagna, e le Colonie Unite. A SS. EE. Li Signori Rifoormatori Dello Studio Di Padova. In Venezia, Dalle Stampe Di Antonio Zatta Con Licenza De Superiori, E Privilegio. M. DCC. LXXVIII.
Venezia: Antonio Zatta Type: Title Page Size: 41x27 Reference: Sabin 68109; Stephenson "A la Carte" p. 113; cf P 650, 651.
In addition to a two volume Italian translation of Raynal's History of North America, this book contains the first edition of Zatta's twelve sheet version of Mitchell's Map of North America, plus three other maps: Il Canada, Le Isole di Terra Nuova e Capo Breton, and La Baja D' Hudson. All of these maps appeared also in Zatta's Atlante Novissimo published from 1779-1785. A second edition of the Zatta/Mitchell maps was published in 1791 (see P651). Zatta's version of Mitchell is not an exact or complete copy: the Zatta maps do not cover the far western portions of Mitchell's map, many geographical changes are

introduced, and Bermuda is depicted as well as Jamaica., neither of which are shown by Mitchell. A separate map covers Newfoundland and Cape Breton, on the same scale. Maps are hand painted with outline color. Covers are quarter leather light brown marbled paper covered boards with "Raynal. Storia Dell' America Settentrionale. 1778" stamped in gilt on the new leather spine.

First edition. Has Carey and Hart borders. Ristow's second 1846 issue. The first issue by Mitchell alone, without Tanner's name on the title page. Tanner issued this atlas first in 1836 with engraved maps, then it was taken over by Carey and Hart in 1843 and converted by them to lithographic maps in 1845. In 1846 Mitchell took over the publishing of this atlas and continued until 1849, after which it was published until 1860 by Thomas, Cowperthwait and then Charles DeSilver. This atlas is important in American printing history in that it was the first American atlas to be converted from engraved map plates to lithographic map plates - greatly reducing the cost of production and thus making the book made widely affordable by the general public. The maps are in full color; atlas is bound in half leather marbled paper covered boards with "Mitchell's Universal Atlas" stamped in gilt on front label.

MITCHELL, SAMUEL AUGUSTUS 1852
A New Map of The States Of Texas & California, The Territories Of Oregon, New Mexico, Utah and the Regions adjacent. Compiled from the most recent authorities. Philadelphia: Published by S. Augustus Mitchell. 1852. Entered ... 1850, by Thomas, Cowperthwait & Co. ... Pennsylvania. (on verso) A New Map of Texas Oregon And California With The Regions Adjoining. Compiled from the most recent authorities. Philadelphia, Published by S. Augustus Mitchell, N.E. Corner Of Market & Seventh Streets. 1846. Entered ... 1845, by H.N. Burroughs ... Pennsylvania.
Philadelphia: S. Augustus Mitchell Type: Wall Map Size: 63x59 Scale 1:6,652,800 Reference: cf Wheat 726.
Later wall map version of the 1846 "New Map," with the 1846 map on verso. Both sides have the decorative borders not found on the pocket map issues. The western topography and political delineation has been completely redrawn in California, Utah, New Mexico and Texas, when compared to the 1846 1st edition. This map says entered in 1850, but we can find no record of an 1850 issue, only an 1851. However, the atlas map in the 1852 Universal Atlas follows this larger 1852 map (it is taken from the same plate) and it was in 1850 that Thomas Cowperthwait took over the atlas publication from Mitchell, and probably this map as well. So there may be an 1850 issue. Not seen by Wheat - Wheat 726 is the 1851 issue of this map as it appears as an inset (with an inset within it of the Gold Regions) in Mitchell's 1851 Reference and Distance Map of the U.S. (W.H. has a separate Pocket Map issue of this 1851 map without the Gold Region inset; the 1852 issue has towns added in the Gold Region that do not appear on the 1851 edition). The map still has the original table of "Emigrant Route from Missouri to Oregon" with distances. During restoration, when the linen was removed from the back of this map, we discovered the 1846 first edition printed on the verso. Apparently the printer reused some of the 1846 edition unbacked wall maps as stock for the 1852 wall map edition. The linen backing conveniently hid the old map.

(with map) Mitchell's New Traveller's Guide Through The United States, Showing the Rail Roads, Canals, Stage Roads &c. ... Drawn and Engraved by Ira S. Drake. Philadelphia 1849 Published by Thomas, Cowperthwait & Co. Entered ... 1848, by Thomas, Cowperthwait, & Co. ... Pennsylvania. (with 5 inset maps).
Philadelphia: Thomas, Cowperthwait & Co. Type: Covers Subject: RoadsCanalsRailroad Size: 15x9 Reference: Karrow 1-1565; Howes M690; (not in Wheat); Buck 284.
This is a major revision of the guide with an entirely new map by Ira S. Drake (about whom we find nothing) with five inset maps entitled - "Vicinity Of Niagara Falls", "Map

Of The Copper Mine Region", "Map of the Gold and Quicksilver district of California", "Map of the Maritime and Overland Routes to California", and "Map Of New England Or Eastern States". The map emphasis on the California gold rush is clear, although the 128 pages of expanded text do not yet list routes to the gold fields, while they do add routes west from St. Louis and Independence. The main map is larger than the earlier Mitchell/Young maps, but shows roughly the same area on a somewhat larger scale. An "Advertisement" (actually a preface) dated Nov. 1, 1848, states: "The following work is similar in design to 'Mitchell's Traveller's Guide,' first published about twelve years ago, and which has been so extremely patronized, that it may be safely asserted no book of the kind ever printed in this country has met with so wide a circulation." Covers are black stamped leather with "Mitchell's New Traveller's Guide Through The United States" and a beautiful illustration of a steam boat and train stamped in gilt. Map is outline color. Catalogue of Thomas, Cowperthwait School Books included in the text.

MITCHELL, SAMUEL AUGUSTUS; THOMAS, COWPERTHWAIT & CO. 1846
Geographical Description Of The State Of Texas; Also, Of That Part Of The West Coast Of North America, Which Includes Oregon, And Upper California. With Maps. Philadelphia: Thomas, Cowperthwait & Co. 1846. (on verso) Entered ... 1846, by Thomas, Cowperthwait & Co. ... Pennsylvania. (with) Map Of That Part Of The West Coast Of North America Comprising Oregon And Upper California. (with) Map Of The State Of Texas With Portions Of The Adjoining Regions.
Philadelphia: Thomas, Cowperthwait & Co. Type: Guide Book Size: 14x9 Scale 1:10,137,600 Reference: Streeter 3325; Howes M688 (not in Cowan, Graff, Eberstadt, Decker, Sabin, Wheat, Wagner Camp).
A rare guide and map (actually two maps on one sheet) that is a "cousin" of Mitchell's "Accompaniment to Mitchell's New Map of Texas, Oregon and California with The Regions Adjoining" also issued in 1846. Although Howes lists this under Mitchell, Mitchell's name is not on any part of the guide or map; Streeter lists it under Thomas, Cowperthwait & Co., the publisher. There are 62 pages of text and several woodcut illustrations. The two full color maps are titled "Map of That Part of the West Coast of North America Comprising Oregon and Upper California" (26x20) and "Map of the State of Texas With Portions of the Adjoining Regions" (26x20) both printed on one sheet. These maps are earlier states of similar maps with slightly different titles that appear in Mitchell's School Atlas of 1846, maps #13 and #15. The School Atlas was published by Thomas, Cowperthwait & Co. and the maps in it were copyrighted by Mitchell (this may be the reason Howes lists this "Geographical Description..." under Mitchell). The stamped leather covers 13.5x8 to both of these guides are the same with the exception that they are red in this copy. So I presume that Thomas, Cowperthwait issued this to compete with Mitchell's guide, yet somehow had Mitchell's cooperation in using the maps and the covers (assuming that Mitchell had some control over these). The two maps are impressive taken together and although smaller than Mitchell's "New Map of Texas, Oregon and California" they are very elegant. This guide is much rarer that Mitchell's guide and sold for two and one half times more at the Streeter sale.

Philadelphia: S.A. Mitchell Type: Case Map Size: 114x90 Scale 1:2,914,560 Reference: Karrow 1-1473; Ristow p309.
1st edition, 1st wall map issued by Mitchell. This edition does not have the counties delineated and numbered. Ristow mistakenly says all editions have the townships (he means counties) numbered, but this one, the first, does not, thereby eliminating the index of counties and thus showing more of the western territory. This map predates the Traveler's Guide by 1 year, and thus is Mitchell's first "original" production, as opposed to the Finley material he reissued as the American Atlas and Pocket Maps. The case for the map has a leather label saying "Traveler's Map of the United States." Copyright date is October 10, 1831. There is no other date on the map. Ristow thinks the map was issued in early 1832, but it is not in Phillips until 1834 edition (which probably has the counties indicated by number and the 1831 copyright), so Ristow may not have seen this edition, but rather the 1834. The map is hand painted in bright full color by state (insets by county),

dissected in 24 sections with green paper end sheets, mounted on linen and edged in pink silk. The covers 24x20 are half red leather marbled paper covered boards with ties and a leather label embossed with "Traveller's Map Of The United States" in gilt.

(Covers to) Atlas minor: or a new and curious set of sixty-two maps, in which are shewn all the empires, kingdoms, countries, states, in all the known parts of the earth; with their bounds, divisions, chief cities & towns, the whole composed & laid down agreable to modern history. By Herman Moll, Geographer. (3rd ed.) London, Printed for Thos. Bowles in St. Pauls Church Yard & John Bowles at the Black Horse in Cornhill (1736?)
London: Thos. Bowles and John Bowles Type: Covers Size: 25x20
Contains 62 hand col. double-page engraved maps (10 folding). Contemporary ink inscription on front blank endpaper. Newer full polished calf with original gilt-lettered red leather label. A few minor repairs. The Atlas Minor was first published in 1729 and reprinted in 1732. This ed. has new engraved title-page with contents and revised maps. The maps in the third ed. are similar to those of the 2nd, except that a number of the American maps contain added place names. Like most of Moll's works, the majority of the maps are undated, although the maps of Great Tartary (no. 32) and "The West Part of Barbary" (no. 41) are dated 1732. The deciding factor which makes this copy the 3rd. ed. is map no. 13 (Germany) which carries the added legend, "Lorrain was ceded to France A.D. 1736 ..." Includes 29 maps of Europe, 10 of Asia, 5 of Africa and 18 of the Americas, including the double-hemisphere world map (no. 1) and the map of America (no. 45) that show California as an island. The Rumsey Collection copy includes 17 extra inserted, uncolored, undated maps (13 folding, 2 manuscript), 7 of which deal with the West Coast of Africa, and 2 of which are manuscript maps of the harbors at Bahia, Rio de Janeiro, the mouth of the Amazon River and Straits of Magellan, all with captions and place names in French; 3 others are of Upper and Lower Canada. The 17 maps appear to have been taken from several later 18th century sources, and were probably extracted from Kitchen's Pocket Atlas, Child's Universal Traveller, the English ed. of Du Halde's Description of China, and other works. A folded world map shows George Anson's tract on his voyage of circumnavigation in 1740-1744, and is probably from one of the numerous eds. of his Voyage. Includes folded descriptions from John Howell Books and the Argonaut Book Shop.

New Haven: N. & S.S. Jocelyn Type: Title Page Size: 28x22
This is the first edition (and perhaps the only edition). The title calls for ten maps, but there are actually 11 maps, one U.S. map and ten state maps. Each state map (actually, groups of states) is accompanied by an index sheet of places on the map. The state maps appear in the 1825 Universal atlas by Morse (see our #3812) where some of the maps are updated. Pasted on the cover is a slip with a lovely engraving of a globe with "Morse's new atlas of the United States on an improved plan..." on it. Scarce.

New York: Wm. M. Franklin Type: Book Map Size: 60x97 Scale 1:2,700,000 Reference: Wheat 1126; Howes M885; Sabin 51274.
Mullan/Freyhold map, titled "General Map of the North Pacific States and Territories Belonging to the United States and of British Columbia ... Exhibiting Mail Routes, Gold Mines ... Drawn by Edward Freyhold, T.E." Strange Owyhee depiction - shows Kearney River and the Jordan Creek flowing into the Owyhee and a road from "Star City" on the Humboldt (which is actually in Buena Vista Valley south of the Humboldt!) going north through the Owyhee to Boise. Map is very incorrect regarding northern Nevada and Southeastern Oregon. Further study needed. Explore the relationship to Williamson's map of 1866. Kearney River comes from the Dixon map of 1860, but Dixon puts the Kearney where Freyhold puts the Jordan. Much detail on the Owyhee Mines in the addenda. Bound with brown linen covered boards with title on the spine.

NEW YORK 1790
(Deed from the state of New York, signed by Governor George Clinton, Granting 600 acres of land to Thomas Garrison in the township of Cincinnatus, Montgomery County).
N.P.: No Publisher Type: Ephemera Subject: Deed/Survey Size: 30x47 Reference: Ristow, W.W. American maps and mapmakers, p. 76.
An early deed with the large (9cm diameter) seal of the state attached. The State granted lands in what was designated as the Military Tract to Revolutionary War veterans. The tract comprised twenty five townships of 60,000 acres each, each consisting of 100 lots of 600 acres. Grantees received one lot. Thomas Garrison was granted lot 80 of Township 25, Cincinnatus, by this deed. In 1793, Simeon DeWitt produced a map of the Military Tract, one of his first surveys. The Military Tract was one of the first uses of Township surveys built on square lots of uniform size. Eventually, the U.S. Land Office used a 660 acre unit (1 mile square) as the building block for its surveys in Ohio and westward. Printed form filled in with pen-and-ink and including the signature of Geo. Clinton.

This Quarto issue of the report is the House issue, except for volume XI which is the Senate issue. W. Heckrotte has an unusual copy of the Warren U.S. map found in this report. It is dissected on linen and is an earlier version of the map published with the Quarto report. It has 40 authorities vs. 42 in the quarto issue map, shorter note to left of authorities, lots of plate differences, especially: nothing in Owyhee area, differences in N.M., Calif., etc. Looks like someone asked for the map before it was finished -see the Lack of ocean lines in the top half south of Gray's Harbor. In 13 volumes. Bound in full leather with "Explorations and Surveys for a Railroad to the Pacific Ocean" and the volume number on the spine in gold.

Washington: T. Ford XII.A.O.P. Nicholson I-XI Type: Book Map Subject: U.S. War Dept. Size: 106x116 Scale 1:3,000,000
The general map published with the Pacific Railroad Survey Reports. This map had earlier issues and later issues. A preliminary listed of those would be: 1855 (our #2289); 1857 (WH and AH's copies)- blank areas in eastern Oregon, fewer authorities; 1857 published with the reports; 1858 early (see Schubert);1858 late (our #2750); 1867 (our #2594). We suspect there are other states and issues, particularly in the period of 1859 to 1866. This is one of the most important maps of the West in the 1850's and 1860's and a study of its different states shows the rapid growth of topographical information from government exploration and mapping. Without color.

PAZ SOLDAN, MARIANO FELIPE, 1821-1886 1865
(Covers to) Atlas geografico del Peru, publicado a expensas del Gobierno Peruano, siendo Presidente el Libertador Gran Mariscal Ramon Castilla, por Mariano Felipe Paz Soldan ... Paris, Libreria de Augusto Durand, Calle de Gres-Sorbonne, 7. 1865. Paris. - Imprenta de Ad. Laine y J. Havard, Calle des Saints-Peres, No. 19.
Paris: Libreria de Augusto Durand. Type: Covers Size: 54x43
The first Atlas of Peru, with wonderful maps, plans, thematic maps, views and statistical information. The atlas exudes the optimism of the period. In addition to the forty five maps and plans, there are twenty three views and scenes, including a very large fold out panorama of Paz Soldan's home city of Arequipa. This issue's title page is the same as Sabin's; the title of the copy listed in Phillips does not have the dedication to Castilla and has Fermin Didot Hermanos as the publisher - which is also the case with the copy owned and described by Michael Layman in TM C. Apparently there were two Spanish issues made in the same year in Paris; Durand also published a Paris edition in French in 1865. The contents of our copy and Layland's copy appear to be identical, so perhaps only the title pages were different. Nine of the Department maps in our copy are hand colored, with the rest uncolored (normally the Department maps are uncolored). Paz Soldan published a large six sheet Mapa del Peru in 1864 (see The Map Collector). Atlas is bound in half leather brown marbled paper covered boards with "Paz Soldan. Atlas Geografico Del Peru" stamped in gold on the spine. David Rumsey Collection copy lacks pl. LIV.

Map includes a chart of meteorological observations giving remarks, the temperature reading, and the altitude. Buffalo are present in "inumerable bands," and it is suggested that the dung be used for fuel. Timber is scarce , except on the islands. It is noted that the Pawnee pose a threat to the traveler as they are likely to rob the emigrants along the route. A note from Fremont's report about the first viewing of the buffalo is included below the map.

Map includes a chart of meteorological observations giving remarks, the temperature reading, and the altitude. From the notes on the map, this appears to have been a difficult stretch of road. No game was found 30 miles each way from Fort Laramie. Grass was scanty as was fuel. It is stated that, "Sioux Indians are not to be trusted." Notes from Fremont's report states that Fort Laramie should be used as an established military post. It would make the whole area safer and could also continue to be a trading post.

This section of the map includes the Wind River Mountains and a discussion of the continental divide by Fremont. In his report Fremont states, "We mounted the barometer in the snow of the summit ... giving 13, 570 feet for the elevation above the Gulf of Mexico. Fields of snow lay far below us: boundless mountains stretched before us. A stillness the most profound, and a terrible solitude, forced themselves constantly on the mind as the great features of this place." This section traverses the war ground of the Indians, and so it is noted that guards and watches should be in place.

The accompanying notes state, "This is the most trying section for the traveller on the whole route. Water, though good and plenty, is difficult to reach, as the river is hemmed in by high and vertical rocks and many of the bystreams are without water in the dry season. Grass is only to be found at the marked camping places, and barely sufficient to keep strong animals from starvation. Game there is none. The road is very rough by volcanic rocks, detrimental to wagons and carts. In sage bushes consists the only Fuel. Lucky, that by all these hardships the traveller is not harassed by the Indians, who are peacable & harmless."

Fremont notes that the distance from the mouth of the Kansas to "this place" is about 2,000 miles. They were greeted at Fort Wallah-Wallah by Mr. McKinley, the commander of the post, who received them "with great civility."

1st edition. The unique maps show progressively receding cloud borders to indicate the expansion of geographical knowledge over time. This atlas may have influenced Emma Willard's "Atlas to Accompany a System of Universal History" - 1835. Willard's Atlas uses the "cloud" maps in a very similar way. See our copy of Willard. Full color. Atlas is bound in half red leather marbled paper covered boards with a label printed with "An Historical Atlas, Containing Maps of the World At Twenty-One Different Periods. With a General View of Universal History, By Edward Quin, M.A. Price L3 (pounds): 10s. Half-Bound." The spine has a red leather label embossed in gilt with "Quin's Historical Atlas."

(Covers to) Rand, McNally & Co.'s new geological map of Colorado. Copyright, 1879, by Rand, McNally & Co.
Chicago: Rand McNally & Co. Type: Covers Subject: GeologyMining Size: 17x12 Reference: cf Ellis 82 (1880 edition); Phillips Maps of America, p.242.
This is a very unusual map for Rand McNally to issue - geological maps were not common in their catalog and this may be the only one they published. It was probably the interest in mining that motivated publication and the inclusion of "Mineralogical References" in the map key. The main source for the geological formations was Hayden's General Geological Map of Colorado that appeared in his 1877 Atlas of Colorado. But Rand McNally's map has much more detail on towns and railroads than Hayden and is a much superior map in that respect. Ellis 82 is the 1880 edition, which was also issued without geological coloring as "Rand McNally & Co.'s New Sectional Map of Colorado." This map is in printed full color, folded into dark blue cloth covers 16.5x10 titled "Rand, McNally & Co's geological and mineralogical maps Of Colorado" in gold.

(Covers to) Rand, McNally & Co's New Township Map Of Montana. Entered ... 1884 by Rand, McNally & Co., Chicago.
Chicago: Rand McNally & Co. Type: Covers Size: 18x11 Reference: None found.
A very attractive and detailed map of the state, probably produced by lithography, which is unusual for Rand McNally, because they normally used wax engraving for their maps. The coloring is also by hand, again not the norm for this firm. Rand McNally did a large scale map of California and Nevada (see our 1888 copy) which was wax engraved. Some uncredited, skillful cartographer produced this map of Montana for Rand McNally. Covers are dark brown cloth 17.5x11 with "Rand, McNally & Co's New Indexed Large Scale County And Township Map Of Montana." embossed in gold. Prime meridians are Greenwich and Washington D.C. Relief shown by shadings.

This is a composite of all 13 maps. The owner of the 13 maps did not include the 2 western maps in this group for some reason, roughly Dakota and Indian Territory, or they may have been lost over time. Each set of these maps was made to order custom by Rand McNally so it is possible that these 13 maps comprise the entire set. The other 2 maps of the western US to the pacific are in the set but they are at a smaller scale so they are not in this composite image.

Rand, McNally & Co's. New Eighteen Inch Terrestrial Globe ... Copyright, 1894, by Rand, McNally & Co.
Chicago: Rand McNally Type: Globe Size: 46x46 Scale 1:28,000,000 Reference: cf Warner p121; cf Dekker p139-41.
Rand McNally's first globe was a 12 inch terrestrial produced in 1887 (Warner). This 18 inch floor globe appeared seven years later and is an impressive production. The graphic elements are very clearly rendered, in the best fashion of wax engraving. A horizon ring is still employed, with a metal stand that is unique and unusual, apparently of the "Aesthetic Revival" school of design that flourished at the end of the 19th century. Isothermal lines are shown for January and July, as are submarine telegraph cables. The gores show a water mark "& Sons" with a "96" below, so this globe had been issued in 1896. The political geography is pre 1898 and the Spanish American War (see Cuba, etc.). Total height from base to top of globe is 48 inches.
