Sheet 1. Crottingen (2. Schlattern). Karte des Deutschen Reiches.
Reichsamt fur Landesaufnahme Type: Atlas Map Size: 30x39 Scale 1:100,000
Date estimated based on the apparent library acquisition date usually stamped on the back of the map sheet. Mounted on linen in 4 panels. Includes Sheet 2. Publishing bookstore and distributor: R. Eisenschmidt, Verlags-Buchhandlung. Haupt-Vertrieb der Karten der Konigl. Landes-Aufnahme. Armee- und Marine-Haus. Berlin N.W., 7. Comparing our sheets to those at the Library of Congress shows that most of our sheets were published 5 to 10 years before the stamped acquisition date. A few sheets are duplicated and placed under similar list numbers.This map series is remarkable for the level of fine detail. As a consequence, it was scanned at 800 PPI providing four times the resolution of the typical detailed map scan of 400 PPI. At least ten separate symbols for special buildings were utilized, a method enhanced by placing an abbreviation next to the symbol. Structures with special symbols include: churches, chapels, monuments, windmills, water mills, stamp mills, forester's lodges, watchtowers, ruins, forts, quarries, clay pits, lime kilns, and coke-ovens. Factories, brick works, powder magazines electric power plants, and many other important buildings are differentiated by means of abbreviation. Houses appear as black blocks, either rectangular or shaped like the ground plan of the building. Many other features are differentiated, for example there are four different qualities of roads plus bridle paths and footpaths. Vegetation is minutely classified including separate symbols for broadleaf trees, evergreens, underbrush, heather, dry meadows, wet meadows, swamps, orchards, gardens, vineyards, and parks. Relief is shown by hachures. Spot elevations are given in meters above sea level.

REID, JOHN 1795
Plan of the City of Washington in the Territory of Columbia ceded by the States of Virginia And Maryland to the United States of America and by them established as the Seat of their Government, after the Year 1800. Rollinson sculp. N. York. Published by J. Reid L. Wayland and C. Smith 1795.
New York: J. Reid, L. Wayland and C. Smith Type: Separate Map Size: 40x52 Scale 1:19,800 Reference: Wheat and Brun 537; Stauffer 2-2724.
State I of this map (State II lists only J. Reid as publisher). This map is taken from the first official plan of Washington published by Andrew Ellicott in 1792 (see Wheat & Brun 531). The Reid map is not an exact copy, with the title moved from the upper right to the lower left, several notes not included, and other elements moved. An exact copy of Reid's map appears in the London edition of Winterbotham's "View of the United States of America" (see our #3885). Howes gives precedence to the London edition, so it is not clear if Reid or Russell copied the Ellicott first. The Reid American Atlas index does not call for the Washington map, leading to the assumption that it was added to some copies afterwards, and speculation that it may have been sold as a separate. Scarce.

RICHARDSON, C.S. 1864
Richardson's Map Of West Virginia Showing the principal Creeks, Rivers and Line of Internal

Improvements. Designed for the use of Oil, Coal, Land & Mining Companies. Sold by John Olcott, 36 Pine St. New York. Second Edition. Richardson & Son, Civil ad Mining Engineers, Mineral Surveyors &c. 36 Pine St. N.Y. and Charleston West Va. A. Brown & Co. 47 Nassau St. N.Y. Entered ... 1864, by C.S. Richardson ... New York.
Charleston, West Virginia: Richardson & Son. Type: Separate Map Subject: Oil Size: 64x45 Scale 1:760,320
Reference: P-Maps 1067; Tooley Dictionary p 538.
Copyright 1864. The first separate map of West Virginia listed in Phillips. No other references found - precedes the two West Virginia oil maps listed in Streeter (3919, 3924). Folded originally, now flat. Virginia is shown as East Virginia. Shows Oil Works, Iron Mines, Coal Mines, as well as several manuscript notions on the location of coal and oil deposits. An attractive map with ornate decorative border, and most likely the first separately published map of this new state. Outline color showing state borders. Not in Stephenson. Tooley lists an (1862) edition (although West Virginia was created in 1863) and the 1864. Tooley also lists a map of Texas by this same Richardson, 1860 - we believe this is incorrect - the Texas map was by Willard Richardson (see Day, Maps of Texas). Scarce.

ROBINSON, LEWIS 1833
Map of the United States. Compiled From The Latest Authorities. Published By Lewis Robinson. Reading Vt. 1833. Engraved by J.G. Darby.
Reading (Vt.): Lewis Robinson Type: Wall Map Size: 101x121 Scale 1:2,407,680 Reference: Ristow p271; cf Karrow 1-1490 (1835 ed.).
The first edition. This differs from the later editions in not having any inset maps of cities and the Florida peninsula. There are far fewer towns and counties in the mid west and west. The Statistical Table is present under the title, but the two tables of towns are not present on the left side of the map. All in all, this has the look of a preliminary edition, with much information left out that appears in edition immediately following this one. Nonetheless, it is still a marvelous map, given its origins in Reading, Vermont.

With black top and bottom rollers and outline color by state.

Denver: H.L. Thayer Type: Pocket Map Size: 64x80 Scale 1:887,040 Reference: Ellis 84.
This is the third and last issue of this map, published in early 1880. Later in the year, Thayer changed to his version of the Bien / Roeser GLO map (see our #2810). It was first issued in 1878, with a second edition in 1879. Ellis is not fond of this map ("Too much general hachures to show mountains, very few mountain names, towns not too generously supplied, roads not clearly shown, etc.") We find it a very attractive map, however the high degree of hachuring does somewhat limit its clarity. Map is folded into brown cloth covers 15x9 with purple label reading "Thayer's New Map Of The State Of Colorado. One Dollar."

This is the earliest map of the Pennsylvania Oil District that we have seen. It predates the 1865 maps by Beers, Colton and Plumb, Townsend and Dale, Hunt, and Howe (1866). It is large scale and shows excellent detail. Individual wells are shown, and operating wells are distinguished from wells being drilled. An extension flap is attached to the upper left corner of the map showing the East Branch of Oil Creek. Folded into dark green textured cloth covers 18.5x10 with "Map Of The Oil District" in gilt. Not in Streeter (unusual because Streeter has all the other important Oil maps) or any references. Scarce.

SAVORY, WILLIAM; SUMNER, WILLIAM; TAYLOR, ALLEN 1833
Map Of The Western Reserve Including the Fire Lands In Ohio. Published By Allen Taylor, Nelson-Portage County, Ohio. Revised & Corrected March 1, 1833. Copyright Secured ... Engraved by Savory, Pitt.
Nelson, Ohio: Allen Taylor Type: Separate Map Size: 41x50 Scale 1:410,000 Reference: Streeter 1371, 1364 (first edition); HRB Cat 15, #37.
Second edition (first edition 1826) of one of the earliest locally produced maps of Northeastern Ohio. Streeter on the first edition: "the finest map produced by an Ohio engraver and pioneer printer." Streeter incorrectly names the mapmaker as "Savery Pitt." Actually, in the lower right corner of the map the engraver is listed as "Savory, Pitt." HRB located a William Savery in Pittsburgh working as an engraver during this period, so we assume he engraved this map. The publisher of the 1826 edition was William Sumner. There is text and population statistics under the map, regarding the history of the area. Harris' Pittsburgh business directory for the year 1837, and the Standard history of Pittsburg, Pennsylvania give name as William Savory (see "Map of the Western Reserve including the Fire Lands in Ohio" at http://web.ulib.csuohio.edu/SpecColl/maps/SavoryPitt.html .

Apostolischen Majestat Franz Josef Dem Ersten Kaiser Von Oesterreich, &. &. &. In Allertiefster Ehrfurcht Gewidmet. Im K.K. Militarisch-Geografischen Institute durch Hauptmann Josef Scheda des k.k. Ingenieur-Geografen-Corps. Abtheilungs-Chef im obigen Institute. Ritter mehrerer hohen Orden, Besitzer der grossen goldenen Medaille fur Kunst und Wissenschaft von Oesterreich, Preussen, Hannover und Sachsen, Mitglied des geografischen Vereins zu Berlin und Darmstadt, berbeitet und herausgegeben. (title sheet illustration) T. Haselwander fec. F. Bruckl sculp.
Wien: Expeditions-Bureau Type: Covers Size: 26x21 Reference: Tooley Dictionary.
By Joseph Scheda, Engineer of the Geographic Corps, Militarisch Geografischen Institute, Austria. Comprised of 20 sheets, each dissected into 6 sections. Incredible detail throughout the map. A triumph of Austrian/German engraving. The 20 sheets cover most of middle and southern Europe. With an index map titled "Ubersicht zur Zusammenstellung der Blaetter fur die General Karte des oesterreichischen Kaiserstaates." Scheda did a 25 sheet map of Europe. Scheda lived from 1815-1888 (Phillips) and did a Hand Atlas in 1879 with A. Steinhauser (Phillips 6201) which we gather was largely a Physical Atlas. Outline color. Map sheets fold each with a paste down label on the end sheet showing its corresponding portion of the map and roman numeral as shown in the index map. The sheets are then folded into a maroon cloth covered folding board and outer quarter leather maroon cloth slip case 26x21 with "General-Karte Der Oesterreichischen Monarchie von J. Scheda" and a decorative design with an illustration of a globe stamped in gilt on the spine.

Composite of all 20 sheets. By Joseph Scheda, Engineer of the Geographic Corps, Militarisch Geografischen Institute, Austria. Comprised of 20 sheets, each dissected into 6 sections. Incredible detail throughout the map. A triumph of Austrian/German engraving. The 20 sheets cover most of middle and southern Europe. With an index map titled "Ubersicht zur Zusammenstellung der Blaetter fur die General Karte des oesterreichischen Kaiserstaates." Scheda did a 25 sheet map of Europe. Scheda lived from 1815-1888 (Phillips) and did a Hand Atlas in 1879 with A. Steinhauser (Phillips 6201) which we gather was largely a Physical Atlas. Outline color. Map sheets fold each with a paste down label on the end sheet showing its corresponding portion of the map and roman numeral as shown in the index map. The sheets are then folded into a maroon cloth covered folding board and outer quarter leather maroon cloth slip case 26x21 with "General-Karte Der Oesterreichischen Monarchie von J.
