SHELTON, W.; KENSETT, T. 1816
A Map of the United States and British Provinces of Upper and Lower Canada with other parts adjacent By Shelton & Kensett ... (above the title) To The President The Senators and Representatives of the United States This Map Of The United States Of America Is most Respectfully Dedicated by Shelton & Kensett 1816. Entered According ... October 1st, 1816 ... Connecticut. Projected by Thomas Kensett. A. Doolittle Sc.
N.P.: Shelton & Kensett Type: Case Map Size: 119x138 Scale 1:1,838,000 Reference: Karrow 1-1422; Schwartz & Ehrenberg p. 235; Karpinski 38.
Large map of the United States based on the Arrowsmith/Tardieu maps of the same period, with a similar "Falls of Niagara" cartouche. Engraved by Amos Doolittle. Interestingly, credit for the cartouche is given to Tardieu, who copied it from Arrowsmith (perhaps evidence of a prejudice against the British from the War of 1812?). This map is far superior to either the Arrowsmith or Tardieu maps: in the west it incorporates both of Pike's maps of the Upper Mississippi and the western tributaries of the Mississippi and the Missouri; east of the Mississippi, it uses much from the Bradley "Postal" map of the United States of 1804/1812, including public survey lines, county formations, township boundaries, roads, etc. There are two very interesting inset maps and a commentary on ancient fortifications along the Ohio River. This highly detailed and accurate map must be one of the best of its period. Outline color by states. Maps is dissected into 35 sections and folds into marbled paper end sheet, then into a new gray cloth folding case 28x23 with "United States Shelton And Kensett 1816" stamped in gilt on the spine.

Philadelphia: Robert P. Smith Type: Pocket Map Size: 54x53 Scale 1:63,360 Reference: Ristow p. 344-345 (illustrated); P-Maps 705.
Smith considered this to be "the most successful of our maps" and it is indeed a beautiful map and a fine example of early lithography printed by P.S. Duval. Although copyrighted by Robert Pearsal Smith, Ristow states that this map was considered by Smith father, John Jay Smith, to be his own work. There is a view of Girard College and another of Laurel Hill Cemetery in the lower corners of the map engraved by A. Kollner, one of Philadelphia earliest lithographic artists. This copy is from the Kollner collection of Nicholas Biddle Wainwright, who wrote the standard book on Philadelphia lithography and also the authoritative book on Kollner. Map is folded into burgundy leather covers 14x8.5 with "Sidney's Map Of Ten Miles Around Philadelphia" in gilt.

SINCLAIR, THOMAS 1846
Map of Mexico Showing the Seat of War. Lith. of T. Sinclair, 79 So. 3rd St. Philadelphia.
Philadelphia: Thomas Sinclair Type: Pocket Map Subject: Railroad Event: Mexican U.S. War Size: 49x47 Scale 1:1:5,400,000 Reference: None found.
Very rare map with no reference to it found in any of the normal bibliographies. The date is estimated. Proposed railway lines are shown to and from San Francisco to New Orleans and Napolian (sic). The map has been distorted severely with San Francisco much too far east. Napoleon, Arkansas, now defunct (why?), according to Baldwin and Thomas' Gazetteer of 1854, was the capital of Desha County. It was situated on the Mississippi at the mouth of the Arkansas. The population was about 1,000 people, and steamboats ran three times a week to Little Rock. Why it was placed so prominently on the map is unknown. Perhaps it was vying to be a terminus for the railroad. Texas is shown at a highly detailed level. The map is in color and folds into brown cloth covers 16x10 with "Map of Mexico Showing The Seat Of War" on the front cover in gilt.

SMITH, CHARLES, FL. 1800-1822 1816
Comparative View Of The Heights Of The Principal Mountains &c. In The World. Western Hemisphere.

Eastern Hemisphere. London, Published by C. Smith, Mapseller No. 172 Strand, Augt. 1st 1816. Gardner Sculpt.
London: C. Smith Type: Wall Map Subject: Mountains/Rivers Size: 49x64 Scale 1:18,460 (altitude) Reference: British Museum World p 718; cf Wolter, The Heights of Mountains and The Lengths of Rivers.
Shows the comparative heights of mountains in the Eastern and Western Hemispheres, as well as the comparative heights of important places. A list of Authorities is given to the left of the title, and an Explanation shows how the system of numbering mountains and places works. A former owner has added "6225....White Mountains, N.H." to the table. This chart may be one of the earliest of its genre; it is not listed in Wolter's "Heights of Mountains..." (he lists the Thomson 1817 similar chart as the first of this type). The British Museum lists this Smith as the first chart of this kind. Interestingly, Smith's chart does not show the Himalayan Mountains; Thomson adds the Himalayan Mountains to his chart with a note about the recent publication of data on their heights. With black top and bottom sticks, and green silk edging. Full hand painted color.

The New Naval And Military Map Of The United States. By J. Calvin Smith, Author Of Harper's Gazetteer, Colton's County Map Of The U.S. Travellers' Guide &c. 1862. J. Baker & Co. Publishers. J.M. Atwood, Map Engraver 517 Minor St. Philadelphia, Pa. Entered ... 1862 by Robert P. Smith ... Pennsylvania. (with 5 inset maps and 3 profiles).
Philadelphia: J. Baker Type: Wall Map Size: 170x170 Scale 1:3,300,000 Reference: P-Maps, p911; Karrow 1-1643,2; Stevenson 32.5.
1st ed. Stevenson identifies 3 issues. Very beautiful and elaborate map showing the hand of Robert Pearsal Smith (has similarities graphically to his N.Y. State Map of 1860). The map is drawn by J.M. Atwood, but is credited to J.C. Smith, "Author of Harper's Gazetteer, Colton's County Map of the U.S., Traveler's Guide, &c." R.P. Smith is obviously competing with J.H. Colton by using J.C. Smith's name. Also, the population statistics for the 1860 census are listed, "in advance of official publication" (see Colton letter dated 1861 on this subject). Many inset views relating to the civil war, portraits of Union Generals, and thematic map insets. The U.S. map bears a striking resemblance to Colton's U.S. map of the same period (We suspect intentional on Smith's part) but it is different. H.H. Lloyd did a similar map in 1866 (High Ridge #18-165), probably by obtaining Smith's map copyright for this map and the New York State Map in 1865 when Smith left the map publishing business (Ristow p 377). With black top and bottom rollers. Full color by county. Inset showing crops and animals of the U.S. Table of distances. Table of time differences. Profiles route of Lieut. A.W. Whipple's route for Pacific Railroad.

SMITH, ROBERT P.; BYLES, A.D.; EVANS, G. 1853
Topographical Map Of Madison County, New York. From Actual Surveys (And Records) By Gurdon Evans. Anthony D. Byles, Publisher, 15 Minor St. Philadelphia 1853. (with 7 inset maps).
Philadelphia: A.D. Byles Type: Wall Map Size: 97x128 Scale 1:71,280 Reference: Tooley Dict.;Ristow on R.P. Smith, p388.
Early county map copyright by Smith. Unusual borders. This county was later remapped by J.H. French in 1859 for the French-Smith N.Y. State Map project. Apparently several of the early county maps like this one had to be redone for greater accuracy (Ristow). Inset maps include: Eaton Village, Oneida, Chittenango, Canastota, Cazenovia, Hamilton, and Morrisville. With black top and bottom rollers. Edged in green silk. Full color. Shows key structures, water features, roads by type, canals, railroads, subdivisions, and ownership.

SMITH, ROBERT P.; TAINTOR, S. & CO. 1861
The Washington Map Of The United States. By the Superintendent U.S. National Observatory, Washington D.C. 1861. S. Taintor & Co. Publisher, W.H. Holmes, Engraver. 334 Pennsylvania Ave. Washington D.C. F. Mahler, C.E. Head Draughtsman. Entered ... 1861 by Robert P. Smith ... Pennsylvania. (with 6 inset maps and 3 profiles).
New York: S. Taintor & Co Type: Wall Map Size: 169x169 Scale 1:3,000,000 Reference: cfPhillips Maps p911; Schwartz & Ehrenberg p. 287-88, Karrow 1-1631
Huge wall map similar in style and scale to Smith's New Naval and Military Map of the United States done in 1862. However, the Washington Map is a completely different engraving of the U.S., done by W.H. Holmes, who probably is not the same Holmes who worked with Hayden (that Holmes was born in 1846) but is most likely the Holmes mentioned in Tooley's Dictionary as the engraver for Chamber's Encyclopedia and Mitchell's Mexico (perhaps the father of the later Holmes?) The LOC copy (P-Maps 911) is dated 1862 and has in addition to Taintor, the Holmes, Harrison & Co., London, as publishers. Many inset views, portraits of the Presidents in the border, and thematic inset maps. Shows Colorado (created that year) and has an interesting, clear and stark rendition of the western topography. Another elaborate Smith production. An earlier edition, 1860, is listed by Phillips as done by M.F. Maury (Maury's name was dropped after the Civil War began because of his support for the Confederacy); also, a late edition, 1868, by H.H. Lloyd. This the first edition copyrighted by Smith. See our two 1862 editions. With black top and bottom rollers. The United States is painted in full color by county; Mexico by state. Shows settlements, transportation routes, and county boundaries. Tables of distances, and state sizes, date of admission, miles of railroads and population. Breakdown of churches by denominations. Time differences table. Ornate margins with vignettes of presidents. 1860 census by county and cities. Inset maps include geology, climate, wildlife, food crops, plants and trees, and world hemispheres. Includes topographic profiles of the United States and the North Atlantic.

See notes to other issues of this map. This is earlier than our other 1861 edition (3270) and has an unusual boundary for Utah, extending east in Nebraska in the northeast corner. Other changes from the later 1861 edition include H.G. Bond as publisher, no County formation date in the Explanation list, different map in the Zoological Distribution inset, and some changes to topography. An

earlier edition, 1860, is listed by Phillips as done by M.F. Maury (Maury's name was dropped after the Civil War began because of his support for the Confederacy); also, a late edition, 1868, by H.H. Lloyd. This the first edition copyrighted by Smith. See our two 1862 editions. With black top and bottom rollers. The United States is panted in full color by county; Mexico by state.

Also published by Holmes Harrison & Co., London. Earlier than the other 1862 in that it is basically the same as the 1861 edition, with two counties added in Kansas, elimination of the list of forts in the upper left corner, adds the London publisher, adds the list of seceding states, and adds the list of ports of entry. New York: S. Taintor & Co Type: Wall Map Size: 169x169 Scale 1:1:3,000,000 Reference: Phillips Maps p911, Karrow 1-1641.
Also published by Holmes Harrison & Co., London. Many changes from the 1861 edition in the west indicate that the 1861 edition was hurriedly put out without filling in all the topography. Under the title is a listing of the Slave States with the Note: "The States Marked thus * Claim to have seceded from the United States." Loss in the top four inches of the map, rebacked. Printed by T.P. Wagner, Philadelphia, who may have added the topographical information. This is the third Smith edition, after the 1861 and the early 1862. With black top and bottom rollers. The United States is panted in full color by county; Mexico by state. Shows settlements, transportation routes, and county boundaries. Tables of distances, and state sizes, date of admission, miles of railroads and population. Breakdown of churches by denominations. Time differences table. Ornate margins with vignettes of presidents. 1860 census by county and cities. Inset maps include geology, climate, wildlife, food crops, plants and trees, and world hemispheres. Smyth was the first Surveyor General of Canada and in 1799 wrote "A Short Topographical Description of His Majesty's Province of Upper Canada, In North America" which was sold with the map. This map is the first edition of the "Smyth Series" which went through 13 separate editions to 1858 (see Farrell, Explorations in the History of Canadian Mapping, pp152-154). Smyth's name was dropped from all editions after 1835. Faden published the map until 1818; Wyld published it after 1831. Longest publishing history of any map of the region (Farrell). See our 1818 and the Wyld 1838 for later versions. See Sabin 85205 for more on Smyth and the map. Map has outline color by hand, is dissected into 16 sections and mounted on linen. Folds into a new gray cloth folding case 23.5x16 with "Upper Canada D.W. Smyth 1800" stamped in gold on the spine. Relief shown by hachures.

SOCIETY FOR THE DIFFUSION OF USEFUL KNOWLEDGE (GREAT BRITAIN) 1844
(Covers to) Maps of the Society for the Diffusion of Useful Knowledge. Vol. 1. London: Chapman and Hall, 186, Strand, 1844.
London: Chapman and Hall Type: Covers Size: 43x37
The SDUK, as the Society was known, produced inexpensive maps to encourage broad use in education. The maps in these two volumes were issued in parts over several years. The city plans are of particular interest, with vignettes and great detail. The gnomonic star maps were issued separately in this edition in their own covers. This is the second edition, the first being by Baldwin and Cradock, with the maps issued in numbers and later bound as a set. Rumsey Collection copy originally issued without the 6 "World on a gnomonic projection" maps; copies of them have been laid in. Atlas is bound in half leather dark brown cloth covered boards with "Maps. Vol. 1," "Maps. Vol. 2" stamped in gold on the spines. Maps with outline color; geological map of England and Wales hand colored in full color.

(Covers to) Maps of the Society for the Diffusion of Useful Knowledge. Vol. 2. London: Chapman and Hall, 186, Strand, 1844.
London: Chapman and Hall Type: Covers Size: 43x37
The SDUK, as the Society was known, produced inexpensive maps to encourage broad use in education. The maps in these two volumes were issued in parts over several years. The city plans are of particular interest, with vignettes and great detail. The gnomonic star maps were issued separately in this edition in their own covers. This is the second edition, the first being by Baldwin and Cradock, with the maps issued in numbers and later bound as a set. Rumsey Collection copy originally issued without the 6 "World on a gnomonic projection" maps; copies of them have been laid in. Atlas is bound in half leather dark brown cloth covered boards with "Maps. Vol. 1," "Maps. Vol. 2" stamped in gold on the spines. Maps with outline color; geological map of England and Wales hand colored in full color.

First issued in 1887, this atlas is the successor to John Arrowsmith's London Atlas of 1858 (Stanford acquired Arrowsmith's plates upon his death). The first issue of the second edition appeared in 1893, with updated second editions of 1896, 1898, and this 1901. The third edition was issued in 1904 (see our #949) and Phillips (mistakenly) shows the next and last edition as (1928--actually 1931 according to Herbert in Imago Mundi p. 120). This is a magnificent atlas, in full color lithography, certainly the premier atlas of its day. With the bookplate of Andrew Carnegie. Custom? bound in full blue leather covered

STANFORD, EDWARD; W. & A.K. JOHNSTON LIMITED 1861
United States. W. & A.K. Johnston, Edinburgh. (inset) Plan Of Charleston, Vicinity And Harbour.
Edinburgh: W. & A.K. Johnston Type: Case Map Subject: Military Event: U.S. Civil War Size: 50x64 Scale 1:5,400,000 Reference: None found.
Separate issue of Johnston's National Atlas Map of the United States. Rare variant issue of this map: it has an inset of Charleston Vicinity and Harbor that does not appear on any other issues of the maps, and most importantly, the southern slave states and northern free states are color coded (solid red for slave and outline red for free). Two printed notes relate to the boundaries of the slave states and the cotton growing regions. The three forts at the entrance to Charleston Harbor are underlined in red. Although the presence of Minnesota Territory would indicate a date no later than 1858 (when it became a state), this map has much Civil War information and, in typical British fashion, it is probably a bit out of date as to political information, so we date it at the beginning of the war, 1861. Not in Stephenson. Map is dissected into 18 sections and mounted on linen with dark purple cloth covers 18.5x12 of Edward Stanford's map establishment, labeled with "Map Of The United States. London: Edward Stanford, 6, Charing Cross, S.W."

United States. Engraved & Lithographed by W. & A.K. Johnston, Edinburgh. (inset) The Bahama Islands Showing the position of the Paradon Grande Light House Near which the Trent was boarded by the San Jacinto, Nov. 1861.
Edinburgh: W. & A.K. Johnston Type: Case Map Event: U.S. Civil War Size: 50x64 Scale 1:5,400,000 Reference: None found.
Another National Atlas U.S. map issued separately as a Civil War map by Stanford. This is the same map as the 1861 U.S. with Charleston Inset, except that the inset is changed to a map of "The Bahama Islands Shewing the position of the Paradon Grande Light House Near which the Trent was boarded by the San Jacinto, Nov. 1861." Slave holding states are shown in printed full color. Map is dissected into 15 sections and mounted on linen with burgundy cloth end sheets 21x14 labeled with "No. XIII, United States, 1861" in ms.

Stieler's Atlas is extraordinarily detailed. Close examination of the maps shows many features that one would expect to find only on much larger maps. This atlas was first published in 1817, with editions continuing well into the 20th century. It was one of the most comprehensive and best executed 19th century German atlases. In this edition, the maps are dated 1871-5; Phillips says this was issued in parts. 8 pages of text accompanies the index. Atlas is bound in half leather brown cloth covered boards with "Stieler's Hand Atlas" stamped in gilt on the front cover and spine. Maps are both hand painted and printed in full and outline color.

The first edition with the earliest states of all the maps. Many believe this to be the finest atlas published in the United States in the 19th century. The text essay (included here) is a wonderful compilation of information on the contemporary maps that Tanner used as sources. Tanner updated the maps frequently over the next two decades, and issued several editions or compilations of the atlas with the title pages dated 1823 or 1825, but with some of the maps dated as late as 1833. The collation of our six issues shows that no two copies are alike and that the maps were being constantly updated; however the choice of maps for each edition reveals a somewhat haphazard approach with some of the earliest states of a particular map appearing the one of the later atlas editions. A completely revised edition was issued in 1839, with the title page and most of the maps dated 1839 (see P1382). Hand painted in outline color with a full color wash. Atlas is bound in half leather marbled paper covered boards with "Tanner's American Atlas" stamped in gilt on a front leather label.

Philadelphia: H.S. Tanner Type: Guide Book Size: 47x56
Scale 1:4,118,400 Reference: Phillips Maps 884.
First edition of Tanner's guide. In pocket map form, with the map and no text, as issued. Ristow says the first edition was 1834, and while that was the first issue of the enlarged guide with text, this 1825 map is from the same plate as the 1834 map and thus should be seen as the first edition of the guide. The entire lower right corner of the map is taken up with lists of "Steam Boat Routes Throughout the United States," which are keyed to letters in the map margins. In the 1834 and later editions, these lists are replaced with inset maps of U.S. cities, and the lists are given, along with added stage and railroad routes, in the body of the text. Outline color by state. In red leather covers, 13x8, gilt stamped "Traveller's Guide Through The U. States."

(Half Title Page to) A New American Atlas Containing Maps Of The Several States of the North American Union, Projected and drawn on a Uniform Scale from Documents found in the public Offices of the United States and State Governments, and other Original and Authentic Information, By Henry S. Tanner ... Philadelphia: Published By H.S. Tanner. 1825. (title page only) Writing Drawn and Engraved by Joseph Perkins. Barralet del. Humphrys sc.
Philadelphia: Henry Tanner Type: Half Title Page Size: 61x41
2nd edition, maps and title page dated 1825, except S.A. 1823. Like P3669, except S.A. dated 1823 and N.A. dated 1825. Fine copy with extra large sheets bound in full tree calf edged in gilt - the most beautiful and elegant binding we have seen of an American Atlas, stamped "Davis, Binder - Philada." The spine is titled "American Atlas" on a red leather label in gilt. Memoir dated 1825, with slight changes from the 1823 memoir. The index sheet is numbered 1-22 in two columns, vs in one column in the 1823 edition and in two columns numbered 1-17 in the 1833 editions. The maps of the World and America have Arctic discoveries not shown in earlier editions, as does the N.A. map which also shows the Russian Alaska boundary of 1824. The state maps have various updates from the earlier issues (mostly adding counties) although three (Maine etc., Penn., N. & S.Carolina) have 1825 dates with no obvious changes from the earlier issues. See our table comparing all five editions map by map. According to Wolter (Mountains & Rivers article) the 1825 S.A. map has a more elaborate mountains and rivers diagram than any earlier issues. This issue of the atlas can be truly called an edition - all the maps have 1825 dates and the geography is current; the 1823 parts issue is also an edition. Later editions were compilations - some maps were updated, others were not or were taken from out of date issues. Full color.

Philadelphia: H.S. Tanner Type: Covers Size: 11x7
Reference: Phillips Philadelphia 83 (Troost);Marcou 271 (Troost); Tanner Catalogue.
The non geological version of the Troost map in pocket form. Tanner published this map in two forms: colored geologically to accompany Tanner's publication of Gerard Troost's Geological Survey of the Environs of Philadelphia, 1826, and, (eliminating "designed to illustrate the geological survey made by G. Troost" from the title and the geological coloring), as a map of Philadelphia and the adjacent country. Marcou says the Troost book and map are rare. This pocket map version is not in Phillips and is quite scarce. See Tanner 1829 Memoir catalogue, No. 50 and 51 for a listing of this map in both forms. Covers are a red leather 10.5x6.5 cm. and stamped with "Philadelphia." in gilt.

This is the second edition and the source of the White Gallaher and White map of Mexico issued in 1828, which was reissued by Disturnell in 1846. See our 1846 and 1847 issues of this Tanner map. This copy, although having several areas of loss, is significant in being the personal copy of Anthony Dey, one of the three principals of the Galveston Bay and Texas Land Company. It is not signed by Dey, but was found with many of his personal papers including documents relating to the Company (see our #5177). On the map, the lands owned by the Company are outlined in manuscript. The Company controled a vast area of land in southeastern Texas and was one of the earliest to offer lands for sale to colonists - several of its promotional materials are listed in Streeter Texas. Outline color by state. Map is folded into red leather covers 15x8.5 stamped with "Mexico." in gold.

Philadelphia: H.S. Tanner Type: Covers Size: 15x9 Reference: None found.

This is the American Atlas map of Pennsylvania and New Jersey, in transition to becoming the later more full blown canal map of 1830 (see our #3061). Several new canals are shown that do not appear on the atlas map of 1825: the Ohio Canal, Pennsylvania Canal, Union Canal, Hudson & Delaware Canal; completed and contemplated canals are shown in the Explanation, for the first time. Tanner was very interested in showing the growth of "internal improvements" in the states and the expansion of the canals of Pennsylvania in the period from 1825 to 1845 was shown progressively on a series of his maps (see also our #3942, 4551, and 4862 (1833 issue of the American Atlas with the Pennsylvania Canal map dated 1833). Map has outline color by county, and is folded into untitled red leather covers 15x8.5 with a border pattern stamped in gilt. Prime meridians are Washington D.C. and greenwich. Relief shown by hachures.

Philadelphia: H.S. Tanner Type: Case Map Size: 117x155 Scale 1:1,960,000 Reference: Phillips Maps p885; Howes T28; Ristow p.198.
The first edition. With inset maps of fourteen cities, South Florida, Oregon and the Mandan Districts (with a chart of the Outlet of Oregon River), two Statistical tables, and fourteen profiles of portages, canals and railroads. With Tanner's "Memoir...Intended to Accompany His New Map of the United States." This was one of the most popular general maps of the eastern United States and went through several editions (Phillips, Karrow, Yale, and Howes show editions of 1829, 1830, 1832, 1834, 1836, 1838, 1839, 1841, 1843, and 1850). Distances on all major roads are shown between towns, an effort that Tanner states in the Memoir caused the map to take twice as long to produce. Latitude is measured from Washington, D.C., making this a truly "American" map. Although Tanner states that "The new map of the United States is founded on, and embraces generally, the valuable and original information, contained in our American Atlas," the general form of the map bears a striking resemblance to J.&A. Walker's Map of the United States published in London in 1827, a fact that Tanner does not mention. Howes (T23) shows "An Alphabetical Index to the four sheet map of the United States," also to accompany editions of the map. This is one of best early large maps of the United States and the premier map for its period, without equal until Mitchell produced the first edition of his Reference and Distance Map of the United States in 1834. Kept in a half leather case with ties to keep it closed. Measuring 23x18, it has "Tanner's United States" embossed on the red leather spine.

Philadelphia: H.S. Tanner Type: Title Page Size: 39x33
The non American maps may be partly derived from the Dower/Teesdale General Atlas of 1831 - see P3549 & P772. North America map has states in different colors and has the following differences from the 1843 Atlas copy: San Felipe de Austin (as opposed to San Felipe in the 1843), and Sioux and Wisconsin Dists (not in the 1843 edition). Wheat mistakenly uses a post 1836 issue as an illustration in Trans Miss and calls it 1836. The Mexico map has differences from 1843 issue: Houston appears in 1843 and not in 1836, and San Felipe de Austin in 1836 is San Felipe in 1843. The Michigan map changes substantially between the 1836, the 1842, and the 1843 editions, especially the shoreline. See notes to the (1838) edition which also has a title page dated 1836. Bound in half leather, marbled paper covered boards, with "Tanner's Universal Atlas. 1836." stamped in gilt along the spine. Full color.

(Covers to) Illinois And Missouri. By H.S. Tanner. 1836. Published by H.S. Tanner, Philadelphia. Entered ... 1836, by H.S. Tanner ... Pennsylvania. Engraved by H.S. Tanner & Assistants.
Philadelphia: H.S. Tanner Type: Covers Size: 15x9
Reference: Karrow 4-1459.
This is a very late edition of this map. The latest American Atlas edition we have seen is 1839. In the upper right corner, the map has been extended beyond the neat line to show the developing areas of southern Wisconsin, around Mineral Point. Many new counties have been added in Missouri and Illinois. The copyright date has been changed to 1836. The southwestern shore of Lake Michigan has been completely redrawn. Proposed railroads are prominently displayed crisscrossing Illinois - the first such depictions on any editions of this map. Full color by county, folded into black leather covers 15x8.5 with "Illinois & Missouri." stamped in gold. Prime meridian is Greenwich.

(Covers and Title Page to) United States of America: by H.S. Tanner, 1839. Philadelphia, Published by Henry S. Tanner. Entered ... 1838, by H.S. Tanner ... Pennsylvania. Engraved by H.S. Tanner, assisted by E.B. Dawson, W. Allen & J. Knight. (title by) J.W. Steel Sc. (with 17 inset maps and 1 profile). (with index) An alphabetical index to the four sheet map of the United States by H. S. Tanner. Philadelphia: Rackliff and Jones, Printers, South-West Corner of George and Swanwick streets.
Philadelphia: H.S. Tanner Type: CoversTitle Page Size: 21x17 Reference: Phillips Maps of America, p. 885 (dimensions are incorrect); Howes, T28; Ristow, p.198; cf Streeter Texas, 1232 (1836 edition).

Covers to map, and cover and title page of index. The seventh edition. Michigan peninsula has been substantially redrawn, the profiles in the lower left corner of the map have been eliminated to reveal a good bit of Republican Texas, Wisconsin and Iowa are shown, Missouri is enlarged in the northwestern corner, and new counties are added in most of the settling states. This is a major revision of the map. There is added a new key index system of numbers (and letters for Texas) to go with an attached "Alphabetical Index to the Four Sheet Map of The United States" (see our #4846). The index is bound in patterned tan cloth covered boards 18.5x11 with a label reading "Index Of Places, Contained On Tanner's Map Of The United States." Most copies of this map are either colored in outline or in full color by state; this copy is in full color by county - the only such example we have seen. Streeter Texas 1232 is the 1836 edition of this map, which apparently shows Texas in much the same form and includes the separate index volume. Map is edged in green cloth, dissected into 60 sections and mounted on linen. Folds with marbled end sheets into the original half leather red cloth covers 22x17 with ties; title on the spine is stamped in gold and reads "Map Of The United States With Index 1839."

This is a very late edition of this map. The latest American Atlas edition we have seen is 1839. State one of the map is from 1823; state two is dated 1825 below the title, with an 1823 copyright statement at bottom left; state three has an 1833 date on both the map and the copyright; and this, state four, has an 1840 date on the map with an 1839 copyright statement at the bottom. In the upper right corner, the map has been extended beyond the neat line to show the developing areas of southern Wisconsin, around Mineral Point. Many new counties have been added in Missouri and Illinois. Proposed railroads are prominently displayed crisscrossing Illinois. Full color by county with the pocket map covers missing.

3rd edition. Martin shows 10 issues 1825-47. 1st edition was 1825 (see W.H. copy). The 1826 edition of this map (see our copy) was the base for the White, Gallaher & White "Mapa de los Estados Unidos de Mejico" of 1828, which was then copied by Disturnell in 1846 (see our copy). Originally, Tanner copied this map from the southwestern portion of his Map of North America. This 1846 edition has updated the western cartography to include Fremont's route and topography in California and the Rocky Mountains. Interestingly, Lake Tahoe is labeled Flag Lake, a name we have never seen before. The 1826 edition of this map established the more northerly boundary of New Mexico and Mexico that White Gallaher & White copied and was ultimately used by Disturnell in his map, and affected the treaty negotiations (see Martin). See our 1847, fifth edition, #5158. Full color map, folded into dark brown cloth covers 15x9.5 with "Tanner's Travelling Map Of Mexico" stamped in gilt.

This edition adds an inset map of "Harbor of Vera Cruz," and "Dates of Battles" listing seven battles of the Mexican War beginning with Palo Alto May 8, 1846 and ending with Vera Cruz, March 22 to 27, 1847. Gen Kearny's route from Ft. Leavenworth to Santa Fe is shown and labeled, along with other routes of battle (unlabeled) running from Texas south to La Puebla, Mexico. This is the last edition published by Tanner, according to Martin. It is the best edition in terms of showing the events of the Mexican War. See our 1846, third edition, #2822. This is taken from Tanner's Map of the United States of Mexico, with the addition of the California Gold Regions colored in yellow, and an added inset map of "United States, Mexico &c. Shewing the Routes from N. York to St. Francisco by Land & Water." The map has been updated to show Fremont's route across the Great Basin and the "Boundary of 1848" with Mexico. The 14x9 cover entitled "Tanner's Travelling Map of California & c" has on the inside front a "Table of Routes from New-York to California, with the Modes of Conveyance, Distances, Time and Fares." This is a very late map for Tanner, still printed from engraved plates (although the impression looks a bit tired), in the next to last year of his publishing career. He died in Brooklyn in 1858.

2nd (and best) edition, first with Tanner's Map of the Canals and Railroads of the United States. The map is copyright 1830. The book lists over 150 canals and navigation improvements in great detail. The map shows the most important canals and two railroads in operation, and one proposed railroad (the Great Western Railroad, from New York to the Mississippi River)plus two others. The canals and railroad lines are in color. The first edition appeared in 1826 with 10 maps but without the Tanner map (see our copy #4214). Tanner in 1834 and 1840 (see our copies, #2655 and #979) published a book on Canals and Railroads that uses the same map, updated. Modelski lists the 1834 Tanner map as "one of the earliest general maps of the eastern United States showing railroads in operation." Since this 1830 copy is an earlier state of the same map, it probably qualifies as the true "first." Two folding plates of profiles of canals and railroads at the back. Not in Streeter, Eberstadt, or Graff. Bound in half leather boards with "A Connected View" on the spine.

TARDIEU, P.F. 1802
United States of Nth. America. Carte des Etats-Unis de L'Amerique Septentrionale Copiee et Gravee sur celle d'Arrowsmith Corigee...

Paris: P.F. Tardieu Type: Case Map Size: 122x139 Scale 1:1,584,000 Reference: Karrow 1-1385; cf P-Maps 876&873.
First edition. This map is entirely a copy of Arrowsmith's Map of the United States (see our 1796 issue) except for certain parts (mentioned by Tardieu in his "Note" above the title) that Tardieu has altered and improved, based on other sources. A Plan of Washington, D.C. is also added. Later editions depart more radically from Arrowsmith and this actually becomes a better map in many respects (certainly more up to date regarding new States and Territories) than the Arrowsmith editions, although Arrowsmith remains better in the areas west of the Mississippi. G. Gibbs name on label- a famous scientist, see DAB. Map folds into a new brown cloth folding case 32x26 with "United States P.F. Tardieu 1802" stamped in gilt on the spine.

The date is estimated, the only date on the map being 1812. Compared to the 1812 edition, Alabama Territory is added (1817) and Mississippi is a state (1817). Indiana Territory has been divided into Illinois and Indiana Territories, Missouri Territory appears with Louisiana as a state (1812), and there are many additions of towns and roads in the Midwest and Southeast. Chicago appears. The only major topographical changes we can find are in the Florida/Georgia border and coast line. The next issue of this map was the 1820 dated issue. Comparing this map to the Arrowsmith "additions to 1819" issue of the Map of the United States, one is impressed that Tardieu's map is far more up to date. Even though Tardieu began by copying the Arrowsmith map, his editions are consistently more current with the political and topographical changes of the times. Map is in four sheets, each dissected into 15 sections, and backed and edged in linen. Outline color by state. Sheets folds into original brown marbled slip case 22x15 embossed in gold with "Metz. Ecole Royale D'Artillerie" on the front and "Tardieu. Etats-Unis D'Amerique" on the spine.

TASSIN, J. B. 1851
A newly constructed and improved map of the state of California. Shewing the extent and boundary of the different counties according to an Act passed by the Legislature April 25th, 1851. With a corrected and improved delineation of the gold region compiled from the best and most recent surveys by J.B. Tassin. Lith. by Pollard & Peregoy -- Published by Cooke and Lecount, San Francisco. Entered according to Act of Congress in the year 1851 by J.B. Tassin ... Northern District of the state of California.
San Francisco: Cooke and Lecount. Type: Separate Map Subject: Mining Event: California Gold Rush Size: 64x49
Scale 1:1,850,000 Reference: Wheat Gold, 208; Wheat 738; Rowell, List of printed maps of California, p. 9.
Relief shown by hachures and spot heights. Shows drainage, counties, roads, etc. Covers also Nevada. Wheat Gold states it shows many more mining camps than any of the 1850 maps and "It is quite similar to Butler but discloses somewhat better workmanship."

TAYLOR, DAVID 1834
(Covers to) New Travelling and Commercial Map of the Canadas, From the Sault of St. Marie to the River Saguenay, And A Large Section Of The United States Of America; Compiled from the latest Surveys & most approved Authorities. Dedicated By Permission To Commodore Robert Barrie, C.B. &c. &c. &c. By his Obliged Obedient Humble Servant, David Taylor, R.N. March 1834. Engraved By S. Stiles & Co. New York.
New York: S. Stiles & Co. Type: Covers Size: 17x12
Reference: Winearls 103; Streeter 3848.
Scarce map of Upper Canada and the Northeastern United States west to eastern Illinois. This is, for its period, one of the most detailed maps of the U.S. and Canadian border area that we have seen. Taylor lists his sources carefully, and, mysteriously, it appears that this map was his only production, other than an obscure map of the Ottawa river country (Winearls 584). We believe that this is the first large Canadian map drawn by Canadians that was engraved in America - all of its predecessors, including the early maps by Smyth, Holland, and the Bouchettes, were engraved and printed in London. Uncolored. Map is in two sheets, each dissected into 30 sections. Folds into half leather marbled paper covered boards 17x12.

(Covers to) A New Chart of the World On Mercator's Projection With The Tracks Of The Most Celebrated & Recent Navigators. Engraved by John Dower, Pentonville. Published By Henry Teesdale & Co. 2, Brunswick Row, Queens Square, London 1844.

London: Henry Teesdale & Co. Type: Covers Size: 39x27 Reference: cf World p552.
1st edition 1841. Shows independent Texas. Similar to Mitchell's World which was first published in 1837. Although it looks like the Mitchell, particularly in the title and overall size, they are clearly different maps. Map is in two sheets, each dissected into 16 sections and edged in green cloth. Sheets have beautiful marbled paper end sheets, and fold in an elegant full red leather folio 39x27 embossed in gold with "Teesdale's Map Of The World" and a decorative border. No mention of the U.S. Exploring Expedition track (which the Mitchell shows). Full color by country.

The "new" Alaska gold rush at Nome began in earnest in the fall of 1899; Streeter 3602 is a Map of the Cape Nome Gold Fields, copyright 18 Nov. 1899, which Streeter calls the first map of the Nome mining region. This 1901 large scale production by Temple is an excellent later map showing the full development of the region at the height of

the rush - it is not in Streeter or any references, probably indicating a small press run. There is an inset "Map Of Copper River And Vicinity" on a smaller scale. Uncolored, folded into 16x12 brown paper covers with "Map Of The New Alaska Gold Fields...Pocket Edition..." printed in black.

2nd issue. "The publication of this splendid atlas, begun in 1818 and finished only in 1831, apparently was disastrous to its originator, for the first issue was published by 'The Trustees,' but the 1832 title has Thomson's own imprint. ... The plates were in 1838 sold to W. and A.K. Johnston, who produced the maps by lithography with their own name instead of Thomson's, and with W. Blackwood and Sons as publishers ..." --Royal Scottish Geographical Society's Early maps of Scotland, 2d. ed., 1936, p. 50 (as quoted in Phillips). 29 (i.e. 30) maps on 119 leaves. Map of Ohio compiled from the latest and most authentic information. Hartford, published by Willis Thrall. 1832. Entered ... 12th day of Sept. 1832 by Willis Thrall ... Connecticut.
Hartford: Willis Thrall Type: Pocket Map Size: 60x54
Scale 1:760,320 Reference: Kent State University Library; cf Karrow 2-1858 (1835 edition)
First edition. This is a very good map of the state for its period, showing all the town boundaries in the counties, and a lovely "View of Cincinnati" below the title. It is larger than most of the other contemporary pocket maps (Burr, Reed, Mitchell, Tanner) and has better detail. This first edition is not in any references. Folded in 13x9 red leather cover with "Ohio" and decorative border in gilt.

TOWNSEND, DENNIS 1870
(Covers to) Townsend's Patent Folding Globe ... Publishers: George M. Smith & Co., 129 Washington Street, Boston, Mass. Dennis Townsend, Felchville, Windsor County Vt. Edward E. Rice & Co., Steam Job Printers, 5 Hawley Street, Boston, Mass. (On the cover of the folder holding the collapsed globe; on the globe itself: "Patented by Dennis Townsend Feb. 16, 1869").
BostonFelchville, Vermont: George M. SmithDennis Townsend Type: Covers Size: 31x26 Reference: Warner p132; Welsh sale catalogue (Sotheby's New York) #405.
Townsend's second collapsible globe with an internal mechanism for holding it open. The first collapsible Townsend globe was held open by an external stand - apparently no examples exist. Townsend was a school teacher in Vermont and later in California. His interest in globes was to produce a cheap globe that could be owned and used by students instead of a flat "map which, without explanation, is a false illustration, and can be understood only by a process of reasoning entirely beyond the mind of the child" (from Townsend's "Folding Globe Lessons"). This copy is presumed to be the second issue of this globe - an earlier issue has a somewhat different folder with only Townsend listed as publisher. However, it is not certain that both examples were not produced simultaneously in different cities. Both Globes are dated the same. Originally from the Welsh Collection. With a photocopy of Townsend's Folding-Globe Lessons, and an original advertising flyer for the globe.

N.P.: Transcontinental Air Transport, Inc. Type: Pocket Map Subject: Airways Size: 36x78 Scale 1:5,702,400
Map shows the air route from Los Angeles to Columbus in full color. From Clovis, New Mexico to Waynoka, Oklahoma it was still necessary to travel that section by rail. The map also shows the TAT weather reporting stations begun specifically to service this air route. By teletype the observers were able to communicate with the pilots about weather conditions in the upcoming regions. The "Certificate of Flight" was completed by Mason Menefee. He departed Los Angeles on April 25, 1930 and went as far as St. Louis, Missouri.

Engineer Bureau, War Department. Map Of The States Of Kansas And Texas And Indian Territory, With Parts Of The Territories Of Colorado And New Mexico. From the most recent official surveys and explorations and other authentic information. 1867. J. Bien, Lith. 24 Vesey St. N.Y.
New York: J. Bien Type: Case Map Subject: U.S. War Dept. Size: 118x86 Scale 1:1,500,000 Reference: Graff 4306.
1st edition. Not in Streeter, Phillips, Wheat. Map shows routes of important reconnaissances, Indian trails, roads, railroads in operation, projected railroads, army routes, Indian lands and reservations. One of the earliest detailed Army surveys of the area. The map was printed in two sheets, a north sheet and a south sheet. The north sheet appears in the Atlas to Accompany the Official Records of the Union and Confederate Armies as Plate CXIX, with the same title as this map, but with the title placed in the upper right corner of the north sheet. We also have the North sheet without title, dated c1875, with much additional information on new routes, railroads, etc. This map is signed by William E. Merrill, Maj. Engrs., and dated August 10, 1867. Merrill also signed our copy of the Warren Map of the U.S., 1867, with a signature date of August 26, 1867 Merrill later made maps of Kansas (See Karrow). Graff misspells Merrill's name, as does Streeter (his signature is hard to read). Dissected into 48 sections and mounted on linen. Map folds into two dark green cloth end boards 22.5x13.5 with paper label reading "Kansas, Texas, And Indian Territory, With Parts Of Colorado And New Mexico. Engineer Bureau, W.D. Prepared for Issue in Engineer Office, M.D. Mo. All Person Into Whose Hands The Map Falls Are Particularly Requested To Send All Corrections And Additions To The Chief Engineer, Mil. Div. Of The Mo., St. Louis." With hand painted color.

U.S. WAR DEPARTMENT, TOPOGRAPHICAL ENGINEERS 1850
Map Of The United States And Their Territories Between The Mississippi and the Pacific Ocean And Of Part of Mexico. Compiled in the Bureau of the Corps of Topogl. Engs. under a Resolution of the U.S. Senate. From the best authorities which could be obtained. 1850. Engraved by Sherman and Smith, New-York.
New York: Sherman and Smith Type: Separate Map Subject: U.S. War Dept. Size: 106x98 Scale 1:1:3,168,000 Reference: Wheat 696; P-Maps 900; Graff 4302; Streeter 3880.
This was the best general map of the American West published by the Topographical Engineers until the Emory and Warren maps of 1857. Wheat calls it "beautiful... a synthesis of the many and varied cartographic activities of the U.S. Army carried on in the West since the onset of the Mexican War, with numerous individual maps subjected to correction and enhanced by new data." A large and imposing production, the map shows the new political divisions of California, Utah and New Mexico and is engraved in the best style by the well known Sherman and Smith firm of New York. Map is without color.

U.S. WAR DEPARTMENT, TOPOGRAPHICAL ENGINEERS 1857
Map of Texas and part of New Mexico compiled in the Bureau of Topgraphl. Eng'rs. chiefly for military purposes, 1857 ... Lith. of Ritchie & Dunnovant. Printed at H.F. Walling's Map Establishment, 90 Fulton St., New York.
New York: H.F. Walling. Type: Separate Map Subject: Military Size: 85x93 Scale 1:1,500,000 Reference: Day p.63,64; Phillips Maps of America, p. 845; Martin and Martin, 45 (later issue)
Probably the best and most detailed military map of Texas issued before the Civil War - rivers, roads, explorer's routes, water holes, forts and towns are shown. Includes "List of authorities." The Warren map of 1857 (see our #4013) incorporates much of this information, with even more information from this map appearing on the Warren map of 1858 (see our #2750). A later version of this map appeared in the Atlas To Accompany The Official Records of the Union and Confederate Armies (see our #1780) as plate 54. Martin and Martin incorrectly state that the map was not published until it appeared in the "Atlas to Accompany..." This is the only government map published by H.F. Walling that we know of. This copy came from a group of about ten copies found with the J.D. Graham papers. Without color. Scarce. Relief shown by hachures.

Washington: U.S. Coast Survey Type: Chart Map Size: 66x45 Scale 1:10,000 Reference: Vogdes p253.
Vogdes shows this as the first edition. Vogdes says that the survey was completed in April, 1852, and that the interior topography was taken from Eddy's official map of the city. We have a reproduction of an earlier state of the chart which has no soundings and is dated 1852; it says the plan of the city was taken from the map by Cooke and Le Count; there are differences in the piers and the buildings along the piers. We can find no reference for this earlier state. In the Annual Report of the Survey for 1853, another issue of the chart was published (litho) with the addition of more notes regarding tides in the upper left - this same chart was also issued (engraved on thin paper) in the collection of charts published by the survey in 1854. Map is without color.

VANDERMAELEN, PHILIPPE, 1795-1869; HASSEL, S. G. H., 1779-1829 1827
(Covers to) Atlas universel de geographie physique, politique, statistique et mineralogique, sur l'echelle de 1/1641836 ou d'une ligne par 1900 toises, dresse par Ph. Vandermaelen, Membre de la Societe de Geographie de Paris, d'apres les meilleures cartes, observations astronomiques et voyages dans les divers Pays de la Terre; Lithographie par H. Ode, Membre de la Societe de Geographie de Paris. Premier partie. - Europe. Bruxelles. 1827.
Bruxelles: Ph. Vandermaelen Type: Covers Size: 55x38
A complete set of the six volume Atlas Universel in original bindings of half red leather teal cloth covered boards with title "Vandermaelen. Atlas Universel..." embossed in gold on the spine. This monumental work was the first atlas of the world with all maps on the same scale (and a large scale at that - about one inch to 26 miles) and the first lithographed world atlas. If all the maps were joined together they would form a globe of 7.75 meters in diameter (such a globe was made in Brussels). The maps were published originally in parts of ten maps each, beginning in 1825 and ending in 1827. Vandermaelen's maps are frequently misunderstood because each map is usually best comprehended in the context of its neighboring maps - the maps do not function well on their own, since they were all meant to be joined. Koeman states that "His atlases, although unique in concept and size did not possess that fine touch of cartographic style which make them attractive for a collector..." We strongly disagree - the graphic art of the maps must be appreciated in the context of lithography, a developing art at the time; as lithographs, they are very well done. For many of the areas depicted, these maps are the largest scale maps made at the time, and the most detailed (particularly in the American West). Maps are hand painted in outline color.

VANDERMAELEN, PHILIPPE, 1795-1869; HASSEL, S. G. H., 1779-1829 1827
(Covers to) Atlas universel de geographie physique, politique, statistique et mineralogique, sur l'echelle de 1/1641836 ou d'une ligne par 1900 toises, dresse par Ph. Vandermaelen, Membre de la Societe de Geographie de Paris, d'apres les meilleures cartes, observations astronomiques et voyages dans les divers Pays de la Terre; Lithographie par H. Ode, Membre de la Societe de Geographie de Paris. Deuxieme partie. - Asie. Bruxelles. 1827.
Bruxelles: Ph. Vandermaelen Type: Covers Size: 55x38
A complete set of the six volume Atlas Universel in original bindings of half red leather teal cloth covered boards with title "Vandermaelen. Atlas Universel..." embossed in gold on the spine. This monumental work was the first atlas of the world with all maps on the same scale (and a large scale at that - about one inch to 26 miles) and the first lithographed world atlas. If all the maps were joined together they would form a globe of 7.75 meters in diameter (such a globe was made in Brussels). The maps were published originally in parts of ten maps each, beginning in 1825 and ending in 1827. Vandermaelen's maps are frequently misunderstood because each map is usually best comprehended in the context of its neighboring maps - the maps do not function well on their own, since they were all meant to be joined. Koeman states that "His atlases, although unique in concept and size did not possess that fine touch of cartographic style which make them attractive for a collector..." We strongly disagree - the graphic art of the maps must be appreciated in the context of lithography, a developing art at the time; as lithographs, they are very well done. For many of the areas depicted, these maps are the largest scale maps made at the time, and the most detailed (particularly in the American West). Maps are hand painted in outline color.

VANDERMAELEN, PHILIPPE, 1795-1869; HASSEL, S. G. H., 1779-1829 1827
(Covers to) Atlas universel de geographie physique, politique, statistique et mineralogique, sur l'echelle de 1/1641836 ou d'une ligne par 1900 toises, dresse par Ph. Vandermaelen, Membre de la Societe de Geographie de Paris, d'apres les meilleures cartes, observations astronomiques et voyages dans les divers Pays de la Terre; Lithographie par H. Ode, Membre de la Societe de Geographie de Paris. Troisieme partie. - Afrique. Bruxelles. 1827.
Bruxelles: Ph. Vandermaelen Type: Covers Size: 55x38
A complete set of the six volume Atlas Universel in original bindings of half red leather teal cloth covered boards with title "Vandermaelen. Atlas Universel..." embossed in gold on the spine. This monumental work was the first atlas of the world with all maps on the same scale (and a large scale at that - about one inch to 26 miles) and the first lithographed world atlas. If all the maps were joined together they would form a globe of 7.75 meters in diameter (such a globe was made in Brussels). The maps were published originally in parts of ten maps each, beginning in 1825 and ending in 1827. Vandermaelen's maps are frequently misunderstood because each map is usually best comprehended in the context of its neighboring maps - the maps do not function well on their own, since they were all meant to be joined. Koeman states that "His atlases, although unique in concept and size did not possess that fine touch of cartographic style which make them attractive for a collector..." We strongly disagree - the graphic art of the maps must be appreciated in the context of lithography, a developing art at the time; as lithographs, they are very well done. For many of the areas depicted, these maps are the largest scale maps made at the time, and the most detailed (particularly in the American West). Maps are hand painted in outline color.
