(Covers to) Atlas universel de geographie physique, politique, statistique et mineralogique, sur l'echelle de 1/1641836 ou d'une ligne par 1900 toises, dresse par Ph. Vandermaelen, Membre de la Societe de Geographie de Paris, d'apres les meilleures cartes, observations astronomiques et voyages dans les divers Pays de la Terre; Lithographie par H. Ode, Membre de la Societe de Geographie de Paris. Cinquieme partie. - Amer. merid. Bruxelles. 1827.
Bruxelles: Ph. Vandermaelen Type: Covers Size: 55x38

A complete set of the six volume Atlas Universel in original bindings of half red leather teal cloth covered boards with title "Vandermaelen. Atlas Universel..." embossed in gold on the spine. This monumental work was the first atlas of the world with all maps on the same scale (and a large scale at that - about one inch to 26 miles) and the first lithographed world atlas. If all the maps were joined together they would form a globe of 7.75 meters in diameter (such a globe was made in Brussels). The maps were published originally in parts of ten maps each, beginning in 1825 and ending in 1827. Vandermaelen's maps are frequently misunderstood because each map is usually best comprehended in the context of its neighboring maps - the maps do not function well on their own, since they were all meant to be joined. Koeman states that "His atlases, although unique in concept and size did not possess that fine touch of cartographic style which make them attractive for a collector..." We strongly disagree - the graphic art of the maps must be appreciated in the context of lithography, a developing art at the time; as lithographs, they are very well done. For many of the areas depicted, these maps are the largest scale maps made at the time, and the most detailed (particularly in the American West). Maps are hand painted in outline color.

(Covers to) Atlas universel de geographie physique, politique, statistique et mineralogique, sur l'echelle de 1/1641836 ou d'une ligne par 1900 toises, dresse par Ph. Vandermaelen, Membre de la Societe de Geographie de

Paris, d'apres les meilleures cartes, observations astronomiques et voyages dans les divers Pays de la Terre; Lithographie par H. Ode, Membre de la Societe de Geographie de Paris. Sixieme partie. - Oceanique. Bruxelles. 1827.
Bruxelles: Ph. Vandermaelen Type: Covers Size: 55x38
A complete set of the six volume Atlas Universel in original bindings of half red leather teal cloth covered boards with title "Vandermaelen. Atlas Universel..." embossed in gold on the spine. This monumental work was the first atlas of the world with all maps on the same scale (and a large scale at that - about one inch to 26 miles) and the first lithographed world atlas. If all the maps were joined together they would form a globe of 7.75 meters in diameter (such a globe was made in Brussels). The maps were published originally in parts of ten maps each, beginning in 1825 and ending in 1827. Vandermaelen's maps are frequently misunderstood because each map is usually best comprehended in the context of its neighboring maps - the maps do not function well on their own, since they were all meant to be joined. Koeman states that "His atlases, although unique in concept and size did not possess that fine touch of cartographic style which make them attractive for a collector..." We strongly disagree - the graphic art of the maps must be appreciated in the context of lithography, a developing art at the time; as lithographs, they are very well done. For many of the areas depicted, these maps are the largest scale maps made at the time, and the most detailed (particularly in the American West). Maps are hand painted in outline color.

VARLE, CHARLES P. 1802
To The Citizens Of Philadelphia This New Plan Of The City And Its Environs Is respectfully dedicated By the Editor. 1802. P.C. Varle Geographer & Enginr. Del.
Philadelphia: Charles P. Varle Type: Separate Map Size: 45x62 Scale 1:18,000 Reference: Phillips Philadelphia Maps 177; Ristow p 251-252; Wheat Brun 465 State II.
A beautiful, early map of Philadelphia in full period color. The scale is given at 75 Perches to 1 inch. The city is shown from the Delaware River to the Schuylkil River with the environs on the north and south. 24 lettered references and 28 numbered references to important places and buildings are below the title and 24 wards are keyed in Roman numbers above the title. Many of the country houses and farms around the city are named, including Penn, Dr. Wistar, and other notable early residents. Three inset views show City Hall, the State House, Court House, Library, and Bank of the United States. The tile is surrounded by a decorative cartouche. The quality of the engraving is superb. Ristow mentions an undated edition that was possibly issued in the year Varle made the surveys, 1796, but more likely in 1802. Wheat and Brun list a c.1794 State I that has one less numbered building reference, no Roman numbered ward references, and "R. Scott Sculp. Philadelphia." This was Varle's first map published in the United States. Until 1807, Varle was known as Peter C. Varle; after 1807 he is known as Charles P. Varle.

VIELE, EGBERT L. 1865
Sanitary & Topographical Map of the City and Island of New York Prepared for the Council of Hygiene and Public Health of the Citizens Association. Under the direction of Egbert L. Viele, Topographical Engineer. Entered ... 1865 by Egbert L. Viele ... New York. Ferd. Mayer & Co. Lithographers, 96 Fulton St. N.Y. (with 1 inset map and 3 profiles).
New York: Ferd. Mayer & Co. Lithographers Type: Separate Map Size: 47x160 Scale 1:12,000 Reference: Haskell 1132; Stokes vol 3, p.777-778.
For some reason Haskell and Stokes date this map 1864 although it was copyrighted by Viele in 1865. Removed from the Report of the Council of Hygiene (see our copy). The map shows all the original water courses of Manhattan Island, with the street grid superimposed on top. Also, three different kinds of land are shown: Marsh, Made Land, and Meadow. Sewer lines are indicated. A very beautiful full color map occasioned by a not so beautiful subject. In 1874 Viele reissued the map in larger format as the Topographical Atlas of the City of New York (see our copy). This map was also published as a separate pocket map, in covers.

1st edition, shows all of Staten Island. This edition extends further south than the 1863 issue of "New-York and Its Vicinity" that we have (although Haskell lists an 1863 edition that is the same coverage as this edition - #1121) but it does not extend as far north (it extends 19 miles north and 15 miles south, shown with circles). Walling seems to have published two variants of this map to meet the demands of two markets - similar to Beers' "Philadelphia and Vicinity" map of the same period. Much land ownership information is shown outside of Manhattan Island. Full color by county; dissected into 36 sections.

Walling published another version of this map in 1863 (Haskell 1121) that includes all of Staten Island (this copy shows none of Staten Island) but extends north only to Englewood (see our 1860 issue of New York and Its Environs which covers the same territory). Prime meridian New York City Hall. Shows innumerable rural strudtures with owner names, water features, roads, railroads, and mileages from City Hall.

WARREN, GOUVERNEUR KEMBLE, 1830-1882 1855
Map Of The Territory Of The United States From The Mississippi To The Pacific Ocean Ordered by the Hon. Jeff'n Davis, Secretary Of War To accompany the Reports of the Explorations For A Railroad Route ... Compiled from authorized explorations and other reliable data by Lieut. G.K. Warren, Topl. Engrs. In the Office of Pacific R.R. Surveys, War Dep. under the direction of Bvt. Maj. W.H. Emory and Capt. A.A. Humphreys, Topl. Engrs. 1855. Engr. by Selmar Siebert.
Washington: U.S. Type: Separate Map Subject: RailroadU.S. War Dept. Size: 106x116 Scale 1:3,000,000 Reference: None found.
Very early issue of Warren's Pacific Railroad general map of the U.S. When the Pacific Railway Survey reports were published in 1855, the large Warren map of the U.S. was not completed and a smaller map was issued with a note by Warren that the larger map would soon be ready for publication. This issue of the map is dated 1855 only, unlike the final issue which was dated 1854-5-6-7 (see our #0693). Also, the list of authorities here is shorter than the later issue and has no dates later than 1855. Most importantly, this issue has major areas blank that are filled in the final issue. Various routes are drawn in ms on the map, in red and blue lines, all proceeding from points in the Midwest to the west coast, as well as some north - south routes. Also, a red line is drawn from east to west next to the 38th parallel. We think these are the trails used by travelers, perhaps a few years later, but we can't be sure. There is another early issue of this map that is between this 1855 issue and the version published with the final reports - it is dated 1857, has fewer "blank" areas that this and has more and later dated authorities (see WH copy).

WARREN, GOUVERNEUR KEMBLE, 1830-1882; FREYHOLD, EDWARD 1867
Map Of The Territory Of The United States From The Mississippi River To The Pacific Ocean; Originally prepared to accompany the Reports of the Explorations For A Pacific Railroad Route ... Compiled from authorized explorations and other reliable data by Lieut. G.K. Warren, Top'l. Eng'rs. In the Office of Pacific R.R. Surveys, War Dept. under the direction of Bvt. Maj. W.H. Emory, Top'l. Eng'rs. in 1854. Capt. A.A. Humphreys, Top'l. Eng'rs. in 1854-58. And partly recompiled and redrawn under the direction of the

Engineer Bureau in 1865-66-67. Engineer Bureau, War Department. Engraved on stone by Julius Bien, New York.
New York: Julius Bien Type: Case Map Subject: RailroadU.S. War Dept. Size: 109x117 Scale 1:3,041,280 Reference: Karrow 1-1713, Phillips P.917; Graff 4308; Buttery "Warren Map of 1867."
Reissue, with new discoveries, of 1857 Warren "Map of the Territory of the United States..." Although Freyhold's name is not on the title, he clearly redrew this map from his earlier 1858 edition (where his name does appear on the title). This is earlier than the 1868 Warren/Freyhold editions (Streeter 3080 and 3081), and should be distinguished from them in having the title still in the lower left corner (not in the lower center as in the 1868 Warren/Freyhold editions), and because it does not have the Alaska inset, has 47 authorities vs. 48, and is dated Aug 26, 1867 in Ms. next to the same inscription mentioned by Streeter on his later copy (Wm. E. Merrill, etc., which Streeter mistakes for E. Hamill). Mail routes in red ink (original?)(Streeter says they were dropped from the second 1868 ed.) plus many interesting Ms. additions of names of forts, and extension of pacific railroad. Cf. Wheat 1185. Wheat does not mention this edition and was not aware of it (see his "correction" of Wheeler's mention of the map in the note, p. 244). See a very informative article by Lewis Buttery on a slightly earlier state of this map (early 1867) found at West Point - "Warren Map of 1867." Outline color. Map is dissected into 24 sections, edged in blue silk, and folded into a new burgundy cloth folding case 30x22 with "Warren & Freyhold. Map of Exploratations (sic) for Pacific R.R. 1865-67" stamped in gilt.

Published under the Authority of The General Assembly, By Hudson & Goodwin. Engraved By Abner Reed, E. Windsor. Entered ... 29th day of May, 1813 - By Hudson & Goodwin ... Connecticut. To His Excellency Roger Griswold, Esq. And to The Honourable, The Legislature of The State of Connecticut, This Map is Respectfully Inscribed By the Publishers. Hartford, February 1812.
Hartford: Hudson & Goodwin Type: Wall Map Size: 90x109 Scale 1:162,500 Reference: Thompson 52 (second state), Ristow p.97-98.
First detailed 19th century survey. Has Humphrysville "Woolen Manufactory..." notation, thus 1st edition, 2nd state (Thompson). Foundation map of state, first to show turnpikes. Extensive listing of manufactories, mills, churches, etc. Later published in smaller size, editions from 1820 to 1847. Engraved by Abner Reed, East Winsor. Thompson lists this same map as 1812, but it is entered in 1813, and the current Governor is listed as 1813-, leading one to believe an 1813 date would be more accurate. Outline color. With black top and bottom rollers.

WILKINSON, ROBERT 1804
North America, published the 12th of August 1804. By R. Wilkinson, No.58, Cornhill, London. E. Bourne Sculp.
London: Robert Wilkinson Type: Separate Map Size: 52x61 Scale 1:8,870,400 Reference: Stevens & Tree 62(a); Wheat, C.I. Mapping the transmississippi West, 357 (1824 edition); Streeter 3793.
First edition. Full color. This beautiful, rare map is the first to show the entire Louisiana Territory as part of the United States, both in the delineated boundaries on the map and in the table showing the possessions of the United States: "Province, Ceded by France 30 Apr. 1803, Louisiana." The Bradley "Map of The United States..." of June 2nd, 1804, is the first map to mention the event: "The French call the country West of Conecuh River Louisiana & have ceded it to the United States," but the Bradley map shows only a small portion of Louisiana Territory just west of the Mississippi River. Wilkinson follows Arrowsmith's geography (from his "New Discoveries..." map of 1802) in the Rocky Mountain and the Oregon River areas, but adds new settlements and place names not on Arrowsmith's map along the northwest coast. Franklinia is shown between Tennessee and North Carolina. Wheat trashes the 1824 issue (which is unchanged from the 1804) as hopelessly out of date, but this 1804 issue was not seen by Wheat and is very accurate and forward looking for its period. The large folio General Atlas that this map appeared in is elusive: it is not listed in any references (Phillips lists only Wilkinson's smaller General Atlas issues, even though he refers to one or two issues as folio in size). Wilkinson mentions publishing it in parts, with eleven maps completed by 1808 and thirty five completed by 1823 (noted on the index pages of his quarto General and Classical Atlases of those dates). It seems to be as scarce as this North America map.

WILLIAMS, G. WASHINGTON. 1876
Williams' Copper - Plate Map Of The United States, Canada, Mexico, Central America, West Indies, &c. Published by John M. Atwood, 402 Locust Street, Philadelphia. Printed by F. Bourquin, 31 So. 6th Street, Phila. Copyright 1876 by G. Washington Williams.
Philadelphia: John M. Atwood Type: Case Map Size: 161x159 Scale 1:3,380.000 Reference: Phillips Maps 928. Related to Williams' New Nat. Map for Mitchell. Compare to 1857 and 1860 Mitchell New National Map exhibiting the United States... We assume that this Williams is the son of Wellington Williams and that he took over his father's map and reissued it. It is interesting to see that John M. Atwood published this map - it appears that he not only published maps, but also drew them for others, i.e. Colton and Ensign & Thayer. Inset maps include: Island Of Newfoundland; Massachusetts, Rhode Island & Connecticut; The Atlantic Ocean Showing The Communications By Cable And Steam Between Europe And The United States; Is. Of Porto Rico; Virgin Is. And S. Cruz; Islands Of Japan ...; Map Of The Great Pacific Ocean With It's Shores And Islands; Alaska; and The Sandwich Islands Or Hawaiian Group. Full color by state. Map is dissected into 36 sections and folds into a new green cloth folding case 29x29 with "United States, Canada, Mexico &c. G.W. Williams 1876" stamped in gilt on the spine. Relief shown by hachures.

Wilson's first dated globe, issued one year after his undated 1810 globe, also 13 inches. This is the first dated globe issued in the United States. In 1812 Wilson issued his first Celestial Globe. This thirteen inch Terrestrial Globe is on a four leg table stand. Total height from base to tip is 18 inches.

WILSON, JAMES 1822
A three inch Terrestrial Globe by Wilson's & Co. Alby. (with) A Celestial Globe, With all the Stars of the 1st. 2d. & 3d. Magnitudes. By Wilson & Son's Alby.

Albany: James Wilson Type: Globe Subject: Celestial Size: 7x7 Scale 1:110,000,000 Reference: Yonge p69; Warner p136; Kimball p22.
The date of the globes is an estimate. Paired with a three inch celestial globe. On a turned wooden stand with four black ball feet, full height from base to top, 5 inches. Warner says that Wilson changed the business name from Wilson & Co. to Wilson & Sons in 1822. The celestial globe this is paired with is by Wilson & Sons, so I assume 1822 as the only year globes were made with both business names. The globe is very well engraved, showing much detail in the continents for its small size. Longitude is given from both Washington and London. Kimball notes that David Wilson, James' son, did the engraving for a new edition of the three inch globes in the early 1820's, which I assume are these globes. David later had brief success as a miniature painter, utilizing the same delicate engraving skills which he applied to these extremely well engraved globes. The three inch globe was also sold in pocket form with the celestial sphere on the inside of the case and on a stand with horizon ring and brass meridian. On this turned wooden stand version, the globe is mounted horizontally, an unusual presentation. Wilson made the first globes in the United States, with 1810 his first year of production and 1850 (by Cyrus Lancaster) his last.

The last year this globe was produced by Wilson & Sons. Both of Wilson's sons died in 1833, and this event necessitated a change in the company's management. In 1835 Cyrus Lancaster took over the business and signed his name to all the globes produced after that date. Four legged desk stand. Height from base to top is 18 inches.

Map of the Centre Oil Region From Oil City To Parkers Landing by Henry E. Wrigley. Publishing Rooms, Titusville, Pa., June 27th, 1871 ... Henry E. Wrigley, Civil Engineer, Office, 21 Spring Street, Publishing Rooms, 7 And 12 Smith & Wood Block, Titusville, Pa. Entered ... 1871 by Henry E. Wrigley ... Washington, D.C.

Titusville: Henry E. Wrigley Type: Case Map Subject: Oil Size: 232x101 Scale 1:20,000 Reference: cf P-Maps 689.
An unusual very large scale map of the center oil region (the largest scale we have seen) made by the photographic process. Privately produced, this map was printed during the hiatus between the First Geological Survey of Pennsylvania ending in 1858, (see our (No. 4120) Henry Darwin Rogers map) and the beginning of the Second Geological Survey in 1874. Henry Wrigley was a civil engineer active in the oil region who self published a series of five oil region maps by the photographic process; on the map he states "By this means (photography) every one can be kept constantly advised of the progress of all developments and possess the information desired at the time he most needs it." Wrigley goes on to say that the most active sections of the map will be updated every three months with "fresh plates." Subscribers will receive the updated sections as they are issued. "As the expense of publishing the work by photographing is very great, and as the work is local, the cost of the maps will be necessarily much greater than heretofore." Each of the large scale maps was $100, and $150 if the buyer wanted the updates - a huge amount in those times, but then this was probably only purchased by those who gambled in the high stakes game of oil development. Photography was used in the Civil War for maps (see our examples) but this is the only instance of its use in the commercial map trade that we have seen. Phillips lists three later Wrigley maps that were lithographed, indicated that this unusual scheme was not long lived. Map is without color. Dissected in 28 sections. Folds into brown leather end sheets 34x26 with "Centre Oil Region From Oil City To Parker's Landing, By Henry E. Wrigley, Civil Engineer, Titusville, Pa."; map lies in a new brown cloth folding case with "Map Of The Centre Oil Region Henry E. Wrigley 1871" stamped in gold on the spine.

London: James Wyld Type: Case Map Size: 146x166
Scale 1:4,500,000 Reference: P-Maps, p883; Wheat 366 (1825 edition); Stevens and Tree 63 a (1824 edition).
The first edition, listed in Phillips but not by Stevens and Tree or Wheat (both list 1824/25 as the first edition). A large impressive map showing with great accuracy the recent discoveries in the north west passage, but wildly off in the American southwest - Wheat: "a large and beautiful map, excellent in all respects save for its southwestern geography." In the southwest, Wyld adds many mountain ranges that were purely speculative - probably just to fill in blank spaces in the map (unlike Arrowsmith). In northwestern Texas is a curious note on the topography of the area attributed to "Mellish" which is copied from a pre-1822 edition of his large map of the United States. Comparing this edition to the derived map of 1846, "Mexico, the British Possessions...," one sees many changes in the northern areas and few in the southwest. Stevens and Tree list editions of 1824, 1827/8, 1838, and 1851/56. The 1824/25 edition adds a fold out flap of Mexico and Central America (WH copy). With outline color. Map is dissected into 24 sections and mounted on linen. Map folds into a brown marbled paper covered slip case with black leather spine with "Map Of North America" stamped in gilt.
